RUSSIA'S "BLACK EARTH."

The soil of the greater portion of the grain region of Russia and Siberia is well known to that country as the "chernozem," or "black earth." It is a broad belt of prairie, 600 or 700 miles in average width, beginning in Hungary and extending to the Ural Mountains, and then eastward into Siberia to unknown boundaries.

CONSTITUTION IS CURED BY HODD'S PILLS.

Those who take Hodd's Sarsaparilla for scrofula, eczema, eruptions, catarrh, rheumatism or dyspepsia, say it cures promptly and permanently, even after all other preparations fail. You may take this medicine with the utmost confidence that it will do you good. What it has done for others you can have every reason to believe it will do for you.

HODD'S ACID PHOSPHATE.

A superior restorative when the nervous system has become impaired by mental or physical overwork.

STARTS WITH A COLD.

Catarrh is a Lingering Cold Which Refuses to Yield to Ordinary Treatment.

Catarrh usually starts with a cold in the head and if left unchecked in this climate, rarely gets well of itself. As a fresh cold is taken in the head, spreading, getting deeper and deeper, creeping along the mucous membranes from nose to throat, from throat to windpipe, from windpipe to bronchial tubes and from bronchial tubes to lung cells.

The mucous membranes all connect, one with another. Hence it is easy to spread from one part to another lined with the same mucous tissue. This is why catarrh in the head soon effects the throat and finally the stomach itself, bringing on chronic catarrh of the stomach, which is a most obstinate form of dyspepsia.

Everybody is now well agreed that catarrh is a blood disease and not a local one, and the attempt to cure by local applications simply gives temporary relief from the purely local symptoms without the remotest effect in staying the progress of the disease.

There is a new preparation recently offered to the public that is apparently destined to do away with every other form of catarrh treatment.

This new remedy is not a secret patent medicine, but is a large, pleasant tasting tablet composed of Sassafras, Balaustine, Guaiacum, Hydrastine and other valuable and harmless specifics, which are taken internally and seem to have a remarkably beneficial effect upon the blood and mucous membranes, apparently eliminating the catarrhal poison from the whole system.

These tablets while being pleasant, convenient and absolutely safe to use have made cures in long standing cases of catarrh that are little short of marvelous. They are sold by druggists under name of Stuart's Catarrh Tablets, and any catarrh sufferer who has tried inhalers, injections, salines, etc., and realized their inconvenience and uselessness, will fully appreciate the difference between a mere palliative and a permanent cure after giving Stuart's Catarrh Tablets an impartial trial.

All druggists sell them at 50 cents for full sized package and no matter where the catarrh is located, in the throat, lung or stomach, Stuart's Catarrh Tablets will surprise you with the effective results of even a few days use.

Each school has been organized at Snowville, known as "The Sinks." Miss Hettie Howell being the teacher, and Mr. Joseph Larsen of Newton has commenced his labors as teacher at the village of Stone, Idaho.

THE BIG GAME IS NOW ON.

Butte Team and Its "Rooters" Arrived Here This Morning.

A HUSKY LOOKING CROWD.

Salt Lakers are in Excellent Condition and are Confident of Winning the Contest.

"Zuleum, Zuleum, Hi Way Ho, Team a Jack Team a Hack, Boom! La Lo! Locida, Locida ha he ho! Butte City High School, Cliz Boom Bo!"

Such were the unearthly yells that rent the air this morning and caused the peaceful inhabitants on West Second Street to fear for a moment that the Indian hatcher so long buried was again resurrected, and that a band of Comanche had fallen upon the town and were throwing high in the air the dust of defiance.

When the yell was repeated a few times and the words "Butte," "Ifith" and "School" were discerned the expression of terror vanished and broad smiles wreathed the countenances of the Salt Lake citizens. It was only the Butte High school team and a few dozen rooters giving vent to their exuberant feelings by their war cry.

And a husky lot they appeared to be. Some big fellows, some little ones, but all have the appearance of being foot ballists. A local committee escorted the visitors to the Cullen where they washed the Idaho dust from their faces and prepared to see the town. The players, however, had any too much practice but they are feeling first rate. They are not making any wild predictions as to the result of the game. The rooters, on the other hand, are feeling sure of victory. "We will win," said Captain Curtis, "and we intend to put up the best we have in the shop."

Manager McFadden of the Salt Lake team, and his players, are in excellent condition. They are feeling sure of victory. "We will win," said Captain Curtis, "and we intend to put up the best we have in the shop."
