THE bridge across Snake River at the mouth of Burnt River is said to be the largest and finest costly bridge on the Oregon Short Line. It is over 700 feet long and is about 85 feet above low water mark.

ARRANGEMENTS have been effected for an excursion of Ogdenites to attend the opera in this city next Thursday evening. About fifty have already engaged seats. A special train will return to Ogden after the performance.

OUR city subscribers will no doubt patiently submit, if we venture to inform our country cousins that the mud heretofore is doing what their cows sometimes do, and what noisy demagogues always ought to do.

THE site of the D. Y. Academy's new building, at Provo, is a piece of land, four acres in extent, is contracted for. It is known as the Lewis Block, and is located four blocks north of the Bank corner, State Road. Grounds have been broken and material begin to be hauled next week.

LOCAL NEWS.

Carp and Trout.—Dr. Crookwell has just received a lot of carp and trout in California, having young carp and California trout eggs. Parties desiring either can learn all the particulars by calling on or writing to Dr. Crookwell.

Election Certificates.—Certificates of election have been issued to the following municipal officers elect of Logan City:

E. R. Campbell, Mayor; James L. Stewart, alderman; Thomas Irvine, alderman; Wm. Walkerson, alderman; Thomas R. Cardon, alderman; Anton Anderson, alderman; Aaron Farr, councilor; O. C. Ormsby, councilor; Fred Turner, councilor; George F. Benson, councilor; James Adams, councilor; Joseph Quinn, recorder; George Hymer, treasurer; Michael Crockett, marshal; Richard Yeates, assessor and collector.

"Whims."—An exchange says of "Whims" which will be presented to-night at the Theatre:

An intelligent and very appreciative audience last night, greeted the second appearance of "Whims" as rendered by the Raymond Holmes Comedy Company. The performances of Messrs. Holmes and Harper have kept the audience in a continued state of laughter, and their 1901 was received with thundering applause. Miss Florence Harrison, as Florence, "who wants to marry a murderer" is very fine. She is a very handsome lady and her every move on the stage is graceful and always brings forth enthusiastic applause. Miss Nellie Stone as Jennie, is a golden favorite and last night she appeared at her best. Miss Jennie Brade in the character of Miss Anastasia Grown very good and last night brought down the house in her "balley" part.

High Water and Deep Snow.—The weather in Southern Utah, according to the accounts of Messrs. Meyers and Schofield, agents for Z. C. M. I., who returned yesterday from a business trip through that region, is alarmingly severe. The road in Ash Creek Cañon was recently washed away, just above Bellevue, and the mail coach, in trying to cross, nearly lost one of its horses. Other teams were washed down by the flood some distance, but no fatalities are reported.

The snow was so deep that but nine miles were traversed in three days, and in going from Haxton to Panguitch, the drivers were obliged to dig their horses' feet out of the snow, in order to turn about and retrace their way, as they feared to reach the consequences of an attempt to reach their destination.

"KING FOR A DAY."

EMMA ABBOTT and HER COMPANY AT THE OPERA HOUSE.

The Walker Opera House, last evening, was the scene of a brilliant display, both on the stage and in the auditorium. The production of a large audience, based on the sales of the past several weeks, was fully realized. The building was well filled, the first floor to its utmost capacity, with numbers standing at the rear, while the boxes taken and a goodly number of spectators in the balcony.

From 7:30 to 8:15 p.m., there was a constant stream of people into the building, which kept the ushers, Messrs. Speck, Needham, Edsell and Lynch, active and excited, and gave them every opportunity of exhibiting their well known alacrity and efficiency. At 8:15 the overture commenced. The orchestra, led by J. H. Rosswald, is composed of nine pieces, and the music is a matter of course not equal to Arditi's combination, proved their efficiency in the excellent quality of their music.

The opera, "King for a Day," is an adaptation from the French, and its story is taken from the Arabian Nights. It can easily be imagined, therefore, that it abounds in opportunities for magnificence of costumes and splendor of scenery. In the latter respect not much was wanting, and in the former nothing. The dresses of the ladies and gentlemen, especially those of Miss Abbott, Signor Tagliapietra and Mr. Castle, have rarely been equalled on the local stage. The choruses numbered seventeen voices nearly equally divided as to sex, and their appearance, costumes and singing were very creditable.

The favorite of the evening was Signor Tagliapietra. His singing was superb, while in acting, dress and general appearance, he was as splendid and handsome as could possibly be. He had three encores during the evening, and after his first appearance, his coming upon the stage became a popular signal for applause.

Miss Abbott has a voice which shows rare cultivation, and in some places, notably in the execution of trills with the flute obbligato, it was most beautiful and brilliant. But it lacks in strength and fulness. Her rendition of the "Last Rose of Summer" in the second act, was very fine indeed, and one of the leading features of the performance.

Zeldi Seguin has been heard here before, as has Mr. Castle, but though the lady appeared to good advantage last evening, she did not have a chance to truly exhibit her capabilities. Castle's singing and acting were excellent as ever, and his costumes gorgeous in the extreme.

Brock and Novello were both good, but did not have parts in which to prove their real worth. To-night the beautiful opera of "Mignon" will be presented with the following cast of characters:

Mignon, Abbott; Filina, Julie Rosswald; Frederick, Seguin; Lotario, Campobello; Glarno, Wm. Broderick; Wilhelm Meister, Wm. Castle.

To-morrow (Wednesday) two operas will be given by this combination, viz: "Bohemia" and "The Girl of the Golden West."

"Bohemia" will be at 2 p.m., and "The Girl of the Golden West" at 8 p.m.

Gazetteer and Business Directory.

R. L. Polk & Co., publishers, 150 Dearborn Street, Chicago, have commenced the canvass of the States and Territories of Colorado, Utah, New Mexico, Nevada, Arizona and Wyoming, with the intention of publishing a Gazetteer and Directory fully representing the mercantile, manufacturing and professional interests located therein.

The work will contain a complete business directory of every city, town and village and the names and addresses of mill owners, country merchants, professional men, etc., who are not located in villages, also lists of government and county officers, census statistics, times of holding courts, names of postmasters, postoffices, express and telegraph offices, incorporated companies, with amount of capital, justices of the peace, hotels with rates per day, newspapers, their politics and day of issue, besides much other information useful to all classes of business and professional men.

A descriptive sketch of each place will be given, showing location, population, distance to different points, the most convenient shipping stations, the products that are marketed, stage communications, trade statistics, bonded debt, the schools, health, location, mineral interests, the price of land and the inducements offered to settlers. Mention will also be made of the churches, schools, libraries, and societies located in each place.

A classified directory, comprising lists of all trades, professions and pursuits in the States and Territories wherein the name and postoffice address of every person in each line of business may be found, will be an important feature of this publication. The work promises to be the most extensive publication of its kind ever seen in this part of the country. Forty-two men are now at work in Utah alone, gathering up the required data. Mr. W. L. Grant, manager for this territory, called in yesterday. The canvass has been going ahead for three months.

Sudden Death.—This morning at a quarter to 9 o'clock, a young man named Dan Brady, a resident of the Tenth Ward, suddenly died. He was taken sick twenty-four hours previously, and complained of pains in his legs, and at the same time was feverish and vomited freely. He finally succumbed at the time above mentioned.

The cause of his death is unknown, and even the physician, Dr. Benedict, is undecided upon this point. There is no suspicion, however, of anything wrong in the matter. The deceased was aged about 22 or 23 years, was recently married and was the son-in-law of James C. Woods. He died at the residence of his father, Edward Brady, 10th and 1st streets. The funeral will appear later.

Commendable of General McCook.—Repeated efforts were made yesterday, by some of the subordinate officers and others at the Fort, to have the soldier Manning (one of the trio that committed the assault on Marshal Phillips and Officer A. Smith, Saturday night) released from custody. Calls were made through telephone, at intervals during the day, by one person and another, but the Marshal persisted quite properly in paying no attention to them, and sending back word that when General McCook's wishes were known in regard to the matter it would be time enough for him to act. At length the General came to the telephone, and on the Marshal's asking him what he should do with Manning, the General replied, "Hold him!" He was therefore held, and after this and releasing the officers, and fined \$25 and costs.

Well Again.—We were right pleased to receive a call to-day from Mr. C. J. Dallas, the sculptor, who has been confined in the city again, and has sufficiently recovered to resume work at his studio on Wednesday.

Lewis, druggist, of Cedar Vale, Kansas, writes: "I have sold 'Prickly Heat' for the past several years, and, considering them one of the most reliable proprietary medicines I handle, as is evident from the constant increase in sales and the almost universal satisfaction which attends their use."

A MAGIC POWER.

A Secret Agent of Work.

We were surprised the other day to learn that certain individuals in this city, who had for many years yielded to what was apparently an inevitable fate, were starting up and declaring their right to "life, liberty and the pursuit of happiness." These parties had been bound by an influence as powerful as it was incompressible. They knew not the cause, yet they were victims to the result. They were enchained, but they could not discern by what means they had been manacled. They had long sought deliverance, but they were unable to release and the knowledge contained in books were equally unavailing. At last, relief came. They were given the name of the President, or of Congress, for their trouble was not of a political character. It was a foreign one, and they were relieved, not by a political remedy, but by a medical one. They had not walked or ridden for years, and they were rendered helpless by that universal enemy—rheumatism.
