LEHI. PRAISES BEAR RIVER VALLEY.

Phenomenal Crops of Beets, Grain, Hay and Apples—Crops at Lehi. Special Correspondence. Lehi, Utah, Nov. 4.—Mr. George Austin, general agricultural superintendent of the Utah-Idaho Sugar company, has just returned from Garland where he has been the past few days and speaks in most glowing terms of that valley. The beet crop there is fully up to expectations both as to quantity and quality and the farmers generally are taking a great interest in delivering their beets in very good condition, but owing to the scarcity of cars the farmers are much delayed in the work. By the end of this week over 90 per cent of the beet crop will have been delivered to the factory. The factory is working beyond its capacity almost every day and conditions are as pleasant as could be expected in handling this big institution, with labor so scarce. In speaking of other crops, Mr. Austin estimated that there have been grown in the Bear River valley in the neighborhood of one-half million bushels of grain, and 80,000 tons of hay. A splendid crop of apples has been raised there this year. Dr. Hanch alone harvested 8,000 bushels of apples which yielded him \$2,000. It is very easy to make from \$200 to \$500 per acre growing apples, which is a sure crop. A great amount of onions have been harvested this year, and mostly delivered to San Francisco firms who contracted for same last spring. Willard Hansen of Fielding has been the main mover in this direction and he expects to put in an onion seed farm next year. Mr. Austin says the opportunities of the valley for growing crops are unlimited and the farmers are making money.

LEHI BEET CROP. Conditions of the beet crop at Lehi are as favorable as were expected and everything has moved along most satisfactorily; however, the railroad companies have been unable to furnish cars when needed which has been a great drawback in handling the crop. The tonnage to be as estimated, about 100,000 tons, and the sugar contents and purity is much better than last year. Over 80 per cent of the crop is harvested and the remainder will be harvested in two weeks. All of the beets at Lehi are practically in. The weather has been ideal for harvesting. At Moroni, Sanpete county and Richburg, Sevier county, the company is piling the beets to be shipped later, and it is quite a sight to see these piles of hundreds if not thousands of tons there. The factory is making a good run, and it is expected to be through by the first of the year. The sugar being made is of the finest quality.

AUSTIN FAMILY REUNION. Plans are being made for a reunion of the Austin family in the Bank building, Dec. 3, when it is expected that

Special Correspondence. Mt. Pleasant, Sanpete Co., Nov. 4.—This afternoon, in the North ward meetinghouse, the funeral service over the remains of Elder Mads Jensen was held. The aged pioneer died Friday morning of old age and general debility. He was 81 years of age, married, and was born in Denmark and emigrated to Utah with a handcart company in 1857, locating at Goshen, where he resided until 1862, when he moved to Mt. Pleasant, where he resided till now. He crossed the plains with a handcart company, walking a distance of 1,300 miles, pulling his load in the handcart; four children also came across the plains with them. At the funeral this afternoon there was a large attendance and splendid testimonials of his true worth as a citizen and a churchman were given. Scarlet fever has again invaded the home of L. C. Rasmussen was surprised Friday evening of this week by a number of his friends, the occasion being the anniversary of his forty-fifth birthday. LECTURE BY V. S. PEET.

Threshers' Close Season's Business With a Banquet.

Mt. Pleasant, Sanpete Co., Nov. 4.—Saturday, the threshers run by C. Anderson and others of Spring City, finished the season's work, after a very successful run. Twenty thousand bushels was the amount threshed. The machine hands met at the home of M. C. Anderson to settle accounts. Through the forethought of their host, the good ladies got things started about right and met at the same place for a picnic. So when the business was finished all sat down to a table well filled with the products of mother earth and the delicacies made by good housewives.

V. S. PEET LECTURES.

Last evening, Mr. V. S. Peet lectured before a large and appreciative audience, at the North Ward meetinghouse. The forepart of the evening was devoted to the reading of excerpts from the leading journals and papers published by the Presbyterian board of home missions, purporting to show the status of the poor, ignorant and destitute Mormons of Utah and making a strong appeal for funds with which to raise these people to higher levels and true Christian life. The illustrated lecture given in the east by parties sent out by the board of home missions was also shown up. His talk was well received and commented upon. The illustrated songs, "My Old Kentucky Home," and "The Holy City," were sung by Beatrice Erickson and Olive Syndergaard, respectively.

The students of the Wasatch academy are at Ephraim today, in a meet with the Sanpete Stake academy, this being the celebration of their Founder's day. The two schools meet in a series of athletic sports.

THEODORE.

Lake Fork Has the Cream of the Rocky Mountains.

Special Correspondence. Theodore, Nov. 1.—The children had a Halloween party, and the young people danced last night. The town is quite lively with soldiers from the pay out on a furlough. Mr. James Grant was at Lake Fork, 15 miles north of Theodore, visiting relatives last Monday and was astonished at the fine farms and gardens already in evidence there. There had been no frost up to that date and vegetables and plants are still thriving. A second crop of tomatoes was ripening in the garden of John Moffit. One tomato vine which was transplanted July 23, measured eight feet across with 25 tomatoes on the one vine. Mr. Grant says they have the cream of the Rocky mountain country, as he has traveled extensively and never saw anything to compare with Lake Fork. Bishop Murdoch has been called to Heber to the death bed of his wife's sister.

HEBER.

COMMERCIAL CLUB BANQUET.

Fuel Problem Still Unsolved—Sheepmen Wait for Cures.

Special Correspondence. Heber City, Wasatch Co., Nov. 2.—Heber, home of the full-fledged commercial club now. One week ago the clubrooms were opened for a grand social and banquet. Some 400 of the elite of Heber assembled to have a good time. President Wm. Hays made the opening speech. The club now numbers some 80 persons.

Two deaths occurred the past week, one a John Johnson, of old age, the other a middle aged lady, wife of James C. Murdoch. She had suffered for 14 years from spinal trouble. The sheep shipment problem is the trouble here at present. The past 10 days some 30,000 head have been herded around in the fields and on the low hills, awaiting shipment. Some of the owners have telephoned to the railroad people at Salt Lake City, and have secured agree care from Park City, relieving the congestion somewhat.

COAL PRETTY HIGH.

The coal problem is still unsolved here. The Rio Grand brings a car of coal about once in two weeks. Then a line of timber, say one-quarter mile in length, lines up. Coal is doled out 100 to 500 pounds to each family, according to number in family. Many teams are hauling from Park City, paying \$5.00 per ton there, making coal come pretty high. Cleag Brown, mine of the last two weeks have made the new roads slick, and the dividing ridge is steep on both sides. Most of the forest land is taken up by companies and individuals and a charge is made for a load so the people are between to fire and do not get much heat from either.

SPRINGVILLE.

BURIAL OF NOBLE YOUTH.

Frank Bringham Taken in the Bloom Of Manhood.

Special Correspondence. Springville, Nov. 1.—Funeral services for Frank Bringham, eldest son of Bishop J. Frank Bringham, were held this evening. Counselor N. H. B. U. choir under the direction of Prof. Lund, in connection with the Springville High school. The funeral services were profuse, and the speakers were Pres. G. W. B. Brimhall and Elder Kirkham. V. U. Provo, the deceased having been a member of that school. Both spoke of the deceased in the highest terms. Elders Rulon S. Wells of Salt Lake and P. C. Boyer, William Harner and N. H. Packard also offered many words of comfort to the sorrowing ones.

Frank Bringham was 21 years of age, a young man of noble character and high ambitions, who was snatched from this life very unexpectedly after passing through a slight case of typhoid fever. It was thought he was getting along nicely when, on Oct. 26, at 6 a. m., after a good night's rest, he departed this life.

SANTAQUIN.

PIONEER SUMMONED.

Ezekiel Greenhagh Closes Long and Honored Career.

Special Correspondence. Santaquin, Utah Co., Nov. 4.—The last-day Saints meetinghouse of this ward crowded on Saturday, Nov. 2, for the occasion of the funeral of Elder Ezekiel Greenhagh, who died Monday October 28, of heart trouble and septicemia, after one day's sickness, leaving a wife and 12 children, eight sons and four daughters. The daughter preceded him six years ago. Ezekiel Greenhagh was born at St. Joseph, Missouri, on February 1847. Came to Utah with his father's family in 1852 and to this place in 1858, where he has resided ever since.

Bishop Holladay presided over the funeral, and he with Elders J. A. Rees, C. A. Tiedjen, and H. Herz of Provo, the speakers in their words of comfort and consolation to the bereaved family and adding the benediction to capitate the good deeds of their father. The ward choir sang beautiful and appropriate songs. The weather is beautiful, all that could be desired, the season's crops, which on the whole have been good, are gathered, and quite an acreage of fall wheat has been sown and is covering the ground with a mantle of green.

PRESTON, IDAHO.

FOURTH WARD NEW BISHOPRIC

John W. Condit Succeeds Bishop Allen R. C. Cutler, Released.

Special Correspondence. Preston, Ida., Nov. 4.—A change in the bishopric of the Fourth ward was effected yesterday. The academy bringing a large concourse of people to the Sabbath meeting, George Parkinson and Joseph S. Squires of the Onida stake presidency were present. Bishop Allen R. Cutler and C. Skidmore were honorably released, with a hearty vote of thanks, and John W. Condit, who is principal of the Preston public schools was chosen as the new bishop. He selected as his counselors Jacob N. Larson, and Edward T. Swan.

COLONIA JUAREZ.

JUAREZ STAKE ACADEMY.

Acquires Beautiful Home of President Iyins—School Greatly Improved.

Special Correspondence. Colonia, Juarez, Chihuahua, Mex., Oct. 25.—This day marks an epoch in the history of the Juarez Stake academy. The magnificent residence of Pres. A. W. Iyins, with its beautiful five-acre park on which it stands, has today come into the possession of this flourishing institution. This property, worth \$10,000, lies just across the street from the block on which stands the \$40,000 academy building. The beautiful and commodious house will furnish a cozy home for the domestic science and art departments, which are already becoming cramped in the present building; while the well-kept orchard, vineyard, flower beds, and rich grass spot with barns and sheds are just what is needed to make some modest experiments in the line of agricultural and horticultural interests. Through the investigations and experiments here the academy hopes to be a benefit to the colony of people and to the natives of this land as well. The acquisition of this new wealth is a prophecy for the future.
