

## PROJECTED LINE TO LA SAL CAMPS

Mysterious Meeting of Projectors  
Held in McCormick Block.

FOURTEEN WERE PRESENT.

Local and Eastern Men Take Steps to  
Build Another Road to Develop  
Eastern Cash.

The proposition to build a line through the La Sal mining district from a point on the Rio Grande system and along the lines previously outlined in the "News," seems to be meeting with success.

While it is early yet to give any definite outline and names, nevertheless, judging from an enthusiastic meeting held in a certain office in the McCormick block early in the week, the project seems to be well under way. In all there were 14 gentlemen present, including some eastern men who are interested in the mining propositions in the district; the result being that several options have been given during the past three days on properties together with the King right-of-way along the Grand river.

It is understood that there are two distinct schemes under way to build to the La Sal district, one being from the Colorado side at a point near Grand Junction, the other from a point near Cisco on the main line of the Rio Grande Western. Naturally the effort is being made by those interested in Utah to have the line tap the Gould system in this section.

It was asserted at the meeting that there would be no difficulty in getting the necessary tonnage of ore and coal to make the line a paying railroad, to say nothing of the new country that would be developed in consequence.

### HARRIMAN WENT THROUGH.

Sailed Past Union Depot at Ogden Last Night.

E. H. Harriman did not tarry in Ogden last night. His special train, which left for the east at 11:30 p. m., was accompanied by a large number of employees to read the names and numbers on the cars and then the engineer whistled for the crossing half a mile away.

The reason of this record-breaking run was because Mr. Harriman was in a hurry, also that Deputy United States Marshal Smith of Salt Lake had been pacing the platform of the union depot many weary hours with the object in view of serving papers on the railroad ex-Gov. Durkee, against the Union Pacific, for about \$450,000. Mr. Harriman did not tarry, in fact the same precautions were taken at Ogden, where the change of engines was made down the line and the special then cavorted through Evanston as though it were passing a water tank. At this point, however, a mysterious individual climbed on board and all kinds of speculation is now rife as to his identity. Those who are doing the guessing say in turn that it was a U. S. marshal, a doctor or President McNelly of the Bootmakers' union. The usual precautions were taken to have the line clear for the president of the Southern Pacific. Twenty minutes prior to the time the special was due at Ogden the main line was cleared and a train stationed at each switch from Ogden to the end of the special. The train passed the clock tower at a 50-mile-an-hour clip, much to the astonishment of all assembled, who had never seen such a proceeding before in the history of the union depot.

### THE SUBURBAN.

Promoters and Engineer to Arrive Here from the East Next Week.

The projected suburban line which was granted a franchise to operate cars on the east side to the city limits some months ago is on a fair way to be completed this summer. A force of men is being put to work on construction south of the city and the promoters of the scheme together with an eastern engineer are expected to arrive in Salt Lake at the end of next week, after which there will undoubtedly be some announcements forthcoming.

### TO THUNDER MOUNTAIN.

Mysterious Party of Surveyors Start From Red Rock.

Dillon, Mont., May 13.—A party of civil engineers has outlined here and left for Red Rock, 30 miles to the south, presumably to run a preliminary survey for a railroad into the Thunder mountain country.

J. N. Collins of St. Louis is in charge of the party. With him are William Matthews, W. J. Vanort, and John Matthews, all from St. Louis. They are all civil engineers.

The strictest secrecy has been observed by those in the party to know what the party purposes to do.

### TO CONNECT WITH O. S. 1.

Diamond Match Company to Build a Road in California.

San Francisco, May 14.—A party of officials of the Diamond Match company has arrived here from the east and London. It consists of G. W. Payson of the firm of Bryant and May of London; Wm. Cross, its general manager; J. R. Robinson, chief engineer of the concern; C. F. Clough of Ohio, Pacific coast manager; and A. F. Jones, attorney for the company's new interest, near Chilo.

They expected to meet President Harriman of the Southern Pacific to confer with him, but found him gone. The company owns large lumber interests in Butte county and is about to build a railroad from Chico to Fowler, a distance of 12 miles. The railroad is a new road will arrive here in a few days. O. C. Barber of Harbortown, near Philadelphia, president of the company, is expected next week. As

### ROCK ISLAND DEAL.

President Yoakum of 'Frisco Talks About the Big Merger.

St. Louis, Mo., May 14.—B. F. Yoakum, president of the 'Frisco, has returned from New York where he has been for the last month consummating the sale of the 'Frisco.

Asked if there would be any changes in the 'Frisco management, Mr. Yoakum said that no changes are contemplated at present.

Referring to the Rock Island-'Frisco system, Mr. Yoakum said:

"The relations between the roads are absolutely harmonious, and those conditions will, I believe, continue."

Mr. Yoakum intimated that the two systems would continue under separate management, and that the Rock Island had no intention of establishing general offices in St. Louis. He declined to discuss the report that he would move to New York.

### Michigan Central Deal.

Chicago, May 14.—The Tribune today says:

The scheme which has been contemplated for some time connecting the Michigan Central and the Lake Shore railroads at Grand Rapids, Mich., is to be carried out. The Michigan Central practically has secured the whole right-of-way necessary for the connection.

The connecting line will be three and one-third miles long and will enable the Lake Shore to run its trains into the Michigan Central tracks.

Formerly it has been necessary for the Michigan Central to send its Chicago trains over the Grand Rapids and Indiana tracks, owned by the Pennsylvania. By building this connecting line the Vanderbilts secure an independent line of their own from Grand Rapids to Chicago.

### SPICE AND RAIL.

Rumors around Oregon Short Line headquarters are beginning to incubate in large and generous proportions.

Assistant Traffic Manager S. H. Babcock of the Rio Grande has gone to Denver on a short business trip.

G. A. Bible, traveling passenger agent for the Rock Island, returned from a trip to Glenwood Springs this morning.

That old story, namely the extension of the Chicago & Northwestern to St. Anthony, Ida., is once more going the rounds.

E. J. Seymour, assistant general freight agent, and D. W. Aldridge, general agent for the Chicago & Northwestern at Denver, arrived in Salt Lake this morning.

Wood buyers will feel to rejoice at the change in the time of the trains on the C. & N. W. in Wyoming. No. 3, which formerly arrived at Casper at 6:45 p. m., now arrives at 1 p. m., and No. 4, which formerly left Casper at 3:30 a. m., now leaves at 3:15 p. m. This will allow the women now to leave Chadron and return the same day.

### The Wastes of the Body.

Every seven years the blood makes and loses of a man of average size loses two pounds of waste matter. This waste cannot be replenished and the health and strength kept up without perfect food. Dyspepsia, constipation and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up.

### WATER MEN MEET.

First Session of the Parley's Canyon Commissioners.

The first meeting of the Parley's canyon water commissioners for this season was held in City Land and Water Commissioner MacKnight's office today. Mr. John G. Labrum, of South Cottonwood, was chosen as the third member of the board by Mr. MacKnight, and Mr. John Gabbott, who are the standing members of the commission. Mr. Labrum was also elected chairman, and Mr. MacKnight, secretary.

The commission discussed in a general manner the exchange of Parley's creek water between the city and the farmers, but nothing definite was done in that respect. The date of the first measurement of Parley's creek, for the establishment of a basis of exchange, has not yet been decided upon.

## ARGUMENTS IN RIDDLE CASE.

Suit for Separate Maintenance  
Heard by Supreme Court.

LEGALITY OF MARRIAGE.

In an Appeal From District Court in Which Mrs. Riddle Was Awarded Alimony.

The supreme court has heard arguments in the case of Mary Caroline Riddle vs. Isaac Riddle, appellant, which was appealed from the Fourth district court. The action was brought for separate maintenance and the question involved is the legality of a plural marriage between plaintiff and defendant. Defendant claims that at the time he married plaintiff he had a legal wife with whom he was living. The court below rendered a decree in favor of plaintiff, awarding her \$15 per month as her separate maintenance and compelling defendant to provide a suitable home for her. She was also awarded \$100 as attorney's fees and costs of suit. From this decree the defendant appealed. Attorney M. M. Warner argued the case in behalf of the respondent and T. H. Thurman argued in behalf of appellant.

The other cases argued today are: William E. Morgan vs. the Mammoth Mining Co., appellant; P. Castellini vs. the Mammoth Mining Co., appellant. The court made the following orders today: Eugenia Palmer, appellant; petition for a rehearing denied. In re estate of J. M. Williamson, deceased, vs. C. S. Furman et al, appellants, petition for a rehearing denied.

### SHETLE DIVORCE CASE.

Proceedings Dismissed Upon Stipulation Between Attorneys.

The divorce proceedings instituted by Minnie E. Shettle against N. H. Shettle on Nov. 22, 1903, were dismissed today by Judge Hall upon a stipulation between the attorneys representing the plaintiff and defendant, it being agreed between the parties in interest that the action should be dropped. In her complaint for divorce, Mrs. Shettle charged her husband with failure to support.

Mrs. Shettle filed an answer and cross-complaint in which she charged her husband with desertion, infidelity and cruelty. Among the acts of cruelty complained of by the husband are that, on Jan. 16, 1903, in this city, his wife threw a pan full of dirty dishwater on him and subsequently threatened to shoot him. Now that the action is dismissed it is presumed that all is peace and quiet in the Shettle household again.

### Two Decrees Favoring Plaintiff.

Judge Hall today rendered two decrees in favor of M. C. Moon in actions brought by him against Otto Ketselsen et al, and against A. H. MacGill et al. In the first named action the court quitted plaintiff's title to lots 2 to 15, block 6, and lots 14 to 22, block 3, all in Jordan addition to St. George. In the second action plaintiff's title is quitted to all of block 8, Folsom's addition.

### COURT NOTES.

W. S. McCormick today filed an attachment suit in the district court against J. W. Searles to recover \$62.50, alleged to be the balance on a \$25.00 promissory note executed by defendant and his wife on June 8, 1905, and due 30 days after date.

### OVERRUN WITH TRAMPS.

Word That Comes to Sheriff Emery From Bingham Junction.

Sheriff Emery received word from Deputy Sheriff Beckstead at Bingham Junction today that that little town is overrun with tramps and "hoboes." The deputy is making a desperate effort, however, to rid the town of all such characters.

### WYO. AND MINN. PACIFIC.

Patents to Thousands of Acres of Land Issued to It.

(Special to the "News.")

Washington, D. C., May 14.—The commissioner of the general land office issued today patent No. 48, containing 11,629 acres and No. 49, containing 48,066, all in the Salt Lake land district, and No. 101, containing 4,694 acres in the Cheyenne land district, to the Wyoming and Minnesota Pacific railroad.

### NOVEL BANKING SCHEME.

Local Institution To Guard Against a "Run" in Case of Panic.

The Zion's Savings Bank & Trust company directors will consider at the June meeting a plan carefully prepared by Cashier George M. Cannon, which will obviate all chances of a run on the bank in case of panic. The plan involves a change in the by-laws, which will set out the relations between the bank and depositor, and it will be understood by the latter that if he wants to draw out his deposit in a bunch on the occasion of an alarm, the bank will reserve the right to pay him only a proportional part of his money at once. Mr. Cannon remarked today that a

### FROM LAST TO FIRST

People used to take plain cod liver oil for coughs, colds, throat and lung troubles after other remedies had failed.

Scott's Emulsion is the modern idea of cod liver oil—the first instead of the last resort when such ailments appear.

The taste of the oil is not apparent and the oil itself is partly digested—makes it easy for the stomach. Scott's Emulsion is a quick, reliable help at all ages.

We'll send you a sample free upon request.

run on a bank is a senseless thing, for which there is no excuse and it is the conservative, cool-headed depositor who is often made to suffer for the one who loses his head. The proposed plan is based on the special provisions covering such emergencies in the by-laws of the Hibernia Bank of San Francisco, which has \$25,000,000 in deposits, and where the scheme has been found to work very well.

### Quick Arrest.

J. A. Gulleger of Verbera, Ala., was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Buckle's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at Z. C. M. I. Drug Store.

### PUMPS AT UTAH LAKE.

Four Now in Operation Filling Up the Canals.

The four pumps are running at Utah lake, and all the canals are receiving their quota of water, the supply being about 40 to 425 feet per second. The lake registered 2.15 feet below compromise point when the pumps began, and the index now points to 2.35 feet, with very little water flowing into the lake. There is some complaint among the Sugar ward people about the water not flowing into the lake this spring, whereas last spring there was no trouble. This condition is ascribed to the formation of a bar below where the pumps empty the water, and due to their action, and the bar may have to be cut out.

### From a Cat Scratch.

On the arm of a young son of a burn, sore or boil, DeWitt's Witch Hazel Salve is a quick cure. In buying Witch Hazel Salve, be particular to get DeWitt's—this is the salve that heals.

Arnica salve is not a salve for a specific ailment, but a salve for a multitude of ailments, including itching and protruding piles. Sold by all druggists.

### AMUSEMENTS.

At the Theater tonight Harry Corson Clarke, long known in Salt Lake as one of the breeziest and most hilarious comedians traveling, opens a brief engagement, presenting the comedy of "His Absent Boy." This comedy was originally written for the late Roland Reed, but at his death was secured by Mr. Clarke. Its success on the road has fully equalled that of "What Happened to Jones." The reception matinee Saturday afternoon will be given at 25 cents admission, so prices are insured.

### THE BROWN RANCH.

Deed Conveying It to Mrs. Bradley Filed at Hall's.

The out-camp deed executed the 29th day of August, 1902, wherein ex-Senator Arthur Brown conveyed to Annie M. Bradley what is known as the Brown ranch, located about 10 miles below Bellevue, the property including the garden and warehouse and house 11,629 acres and No. 49, containing 48,066, all in the Salt Lake land district, and No. 101, containing 4,694 acres in the Cheyenne land district, to the Wyoming and Minnesota Pacific railroad.
