JOHN T. CAINE	ANTHON H. LUND

Many of our depositors began with small amounts, and have gradually increased their accounts until some now reach thousands of dollars. We encourage such deposits. The success of a man depends more on what he saves than on what he makes. Have you saved anything? Open an account and add to it from time to time what spare money you have. Interest is compounded four times a year, and if not drawn is added to the principal and bears interest the same as original deposits.
