

## SPECIAL BUSINESS NOTICES

**THERE IS REASON IN ALL THINGS.** It is reasonable to conclude, that Benson's Patent Liniment has been the best liniment ever found. And may award the Centennial exhibition, over all other preparations, to the new and improved liniment of Benson's. It is the most popular and the most economical liniment in the world, must possess unusual merits. Benson's Capsule Plaster has never been equalled in the slow action of the ordinary common plasters.

**LAME BACK.** A Splendid lot of Guitars just received, and for sale cheap. David O. Calder.

**A Sudden Death.** There is something terrible in the thought of having our friends stricken down at our side, without a parting word of endorsement or consolation—one moment at our side in the flush of vigorous life, the next at our hearts with their loving sympathy; and at our side, pale with death, deaf to our cries and helpless of our fears.

Every excessive fat person is in instant danger of such a death. Seventeen of the victims of obesity die of heart disease or apoplexy. Alas!—Alas!—Fat is the chief remedy for obesity, reducing the weight by regulating the digestion, and assimilation of the food. It is perfectly harmless, and its use will insure, in every instance, a reduction of weight from two to five pounds a week.

**FRAUD-BEWARE!** THERE ARE IMMEDIATELY REASONS FOR THE FAIR AND WORTHLESS Imitations of Benson's Capsule and Worthless Liniment in the market. Some of them contain no active medicinal portions. Each contains Benson's Capsule Plaster, but the rest of the composition is not Benson's Capsule cut through it. Take no other.

**Barrett Brothers**

The above firm have at their new store, opposite Salt Lake House, a large, new and cheap stock of Furniture and House Goods, including Feathers, Mattresses and Upholstery of all kinds.

Two hundred and fifty Home-made, white Blankets for sale, wholesale or retail, at

LOCAL AND OTHER MATTERS.

Thermometer.—To-day, 10 o'clock p.m., the thermometer noted 55 degrees F. in the shade. Clear.

Captured Horse Thieves.—On Saturday, Sheriff Huntman, of Millard County, brought the two captured horse thieves, Thomas Reed and Charles Gifford, to this city and turned them over to the custody of U. S. Marshal Shaugnessy, who escorted them to the penitentiary.

Enquirer Items.—Prest. A. O. Snoot continues getting stronger.

Nine carloads of iron went over the Utah Southern for Pleasant Valley Railroad on Wednesday.

A letter from Leavenworth County, states that the Co-operative Mercantile Institution of that place, has just paid a dividend of 15 per cent. on the last six month's business. A good school teacher is wanted there for the coming winter.

The Enquirer asks: "Does anyone know where we can get a few pounds of fresh trout? Our devil is hankering after them." How about an offer of \$100? The devil sometimes bankers after them,

Fire.—Saturday, about midnight, the Eagle Brewery in the First Ward, at the foot of the eastern bench, took fire and was almost entirely consumed. The alarm was sounded about 15 or 20 minutes after the blaze was under way, and the fire company, with their apparatus, rushed immediately to the scene. Water in the vicinity was hard to get at, and this circumstance, together with the time lost in giving the alarm, letting the flames get a good headway before the water came, was disadvantageous to the efforts of the brigade, the members of which, however, worked bravely against the devouring flames with all the force and zeal they could command. With the exception of the walls, which were substantially built of stone and brick, the basement, containing a large quantity of beer, and one room above, the entire building with most of its contents was consumed. All the beer in the cellar was in barrels, kegs, and vats, was saved, with the exception of one vat. The loss will approach the figure of \$15,000.

The cause of the fire is unknown. It may have been from a lamp or a candle which were known to have been in the building. Some think it was a case of spontaneous combustion, from gasses generated by the malt stored in the building. Mr. Burns, one of the proprietors, does not wish to suspect anyone of incendiarism. He says he does not know that he has an enemy to suspect of the act. The building was insured for \$5,000.

How disagreeable and the persons having the same are not aware of the fact; and their nearest friend will not mention it to them. Now, in most all instances this disease, from the cold, which when once cured, the health again becomes sweet, and the remedy for all Coughs, Colds, Influenza and all affection of the throat and lungs, is

Hale's Honey of Horseradish and Tarragon by all druggists at 50 cents and \$1.

Great saving by getting large size, Depot Crittenton's, 7 Sixth Avenue, New York City.

To the Editors of THE EVENING NEWS: on earth, the coarse tooth-powders and corrosive tooth-washes are rapidly departing, as SOZOBONI, fortunately, for the health of this generation, is supplanting them. That universally popular article is as wholesome as it is beautifying.

The destructive progress of that insidious foe to life and health, Scrofula, may be arrested by the aid of SCOVILL'S BLOOD AND LIVER SYRUP, a tonic depurative which rids the system of many trace of scrofulous and other diseases indicative of a tainted condition of the blood. Among the maladies which it remedies are white swelling, salt rheum, carbuncles, biliousness, the disease incident to women, gout and rheumatism.

The above is printed

in the Evening News.

Mr. John Oddy, the pediatrician, weighed as the reason for his failing to finish his engagement on Thanksgiving Day, that Mr. Smith, the rider, broke his promise of getting him a purse of \$200 for his part of the programme. Other annoyances also occurred, and the darkness coming on Oddy became disengaged and would not walk the remaining mile.

Police Court.—John Williams was arrested on a charge of drunkenness and disturbing the peace, and fined \$10.

The other news is printed

in the Evening News.

## FUNERAL OF ELDER ORSON HYDE.

The following telegram received by President Taylor this morning, contains all the particulars that have yet reached us of the obsequies of Elder Hyde, who has gone to his rest after a life of great usefulness and diversified labors in the vineyard of the Master:

SPRING CITY.

Dec. 1st, 1878, 4 p.m.

President John Taylor and Council:

We have just consigned to the tomb in Spring City cemetery, the remains of Prest. Orson Hyde. One hundred and twenty teams and many horsemen and footmen were in the procession. There was a general gathering of Sanpete County, and a cairn and shrine pervaded the vast assembly.

Woodruff and Erastus Snow. The music and ceremonies were very appropriate. We hold meetings tonight at Ephraim and Moroni.

W. WOODRUFF,  
Erastus Snow.

Missionary Items.—We are indebted to Brother Ellib Barrell, for the purusal of a letter from Europe, written by Elder Walter J. Lewis, Nov. 4, 1878, at Bristol, England. Elder Lewis is a young man who was once connected with this paper. Two years ago he was arrived on a mission, and since his arrival in Europe has been laboring in Great Britain, in continued good health and the enjoyment of the spirit of his mission.

The greater part of last summer company with his brethren, he had been preaching through the districts where the gospel had never been proclaimed, holding meetings in the open air. With Brother Williams he had traveled on foot through every country of North Wales, distributing doctrinal tracts and holding open air meetings in nearly every important town, village, to large and attentive congregations.

The results were more manifest in a partially awakened spirit of inquiry, than in converts to the truth, yet a few were being baptized continually. The statistical report of the last annual Welsh conference showed that 90 persons had embraced the gospel during the year. Brother Wm. D. Major was traveling with Elder Lewis; he was getting along finely, and both felt the value of the experience they had passed through as well as that which lay before them.

A Wise Prescription.—Among the instructions printed in this evening's News, concerning the treatment of diphtheritis, is one in regard to the precautions that should be exercised at the funerals of those who die from this terrible disease.

We are told that but few persons

should attend these funerals, and those who do should be adults, never children. Parents who have been bereaved, should not consider such a measure harsh and unfeeling, but wise and judicious, since it is for the best good, as is very evident to those who look at it right.

At first sight it seems hard that children should not be allowed to go to the funeral of their little playmates, to pay the last duties that the living can pay to the beloved dead, but when we consider that it is a matter of life and death to them also, we can but acknowledge that the restriction is for the best, and that sympathy and prayer can be exercised in behalf of the bereaved, as well when absent as when in their presence. We commend the precautionary measures of the quarantine physician, and trust our readers will heed well the instructions given.

Moribund.—Sexton's report for November.

Males, 20; females, 47. Of these, adults, 16; children, 48. Causes of death as reported, diphtheritis, 27; diarrhoeal causes, 5; heart disease, 5; pneumonia, 4; membranous croup, 4; scarlet fever, 5; brain disease, 5; premature birth, 12; epilepsy, 1; convulsions, 1; typhoid fever, 1; congestive chills, 1; still born, 1; not reported, 1; total interments, 67.

JOSEPH E. TAYLOR,  
Sexton.
