BRYAN TO LABOR.

### If Laboring Men Should Quit World Would Soon Starve.

Lincolu, Neb., Dec. 3.—William J. Bryan made an address at the opening of the union labor fair tonight, in which he said in part "There is a great gulf existing be-tween the tolling classes and those who live without tolling, but at the presnt time brain and muscle are working in closer harmony that they have for many years. Today the world does not care for the non-producer, and the lacare for the non-producer, and the la-borer ranks much higher than the idle man who lives on the income left him. "The dignity of labor has been so pro-claimed over the land and impressed on the minds of the people that it will not be long until the world will point the finger of disgrace at the man who lives in idleness. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently be-come torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame parts of the system. These impurities in the blood irritate and inflame the different membranes and tissues of the body, and the contracting of a cold will start the secretions and other disgusting and disagreeable symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system.
