CORBETT-NELSON **BIG FIGHT TONIGHT**

Denver Lad is Still the Champion But the Dane Bets His Money.

TED MURPHY IS CONFIDENT.

Says While Dane is the Short End He Looks to See Him Knock Out "Young Corbett."

Within a few hours we shall know the result of the big battle at San Francisco between "Young Corbett" of Denver, and

Battling Nelson of Chicago, About everything has been said that could be said about the two wonderful little fighters, and we may take it for granted that they are now both down to weight, in tiptop condition, and each eager for the gong to send them at each other

like wildcats, This will be no fancy milling as exhibited by Kid McCoy and Jim Corbett. It will be a tough, vicious fight, from gong to gong, and unless an accident happens to gong, and unless an accident happens early in the fight, 'Frisco ringsters will probably see at least a dozen rounds of whiriwind milling, and perhaps they will see twenty of them. It it goes the limit those who have placed their coin on the Great Dane will be all smiles. Corbett hoper to end the bout quickly by a knockout. So does Nelson.

"Two souls with but a single thought, four fists that beat as one." (With apologies to Incomar the Barbarian). When two fighters decided on this line of battle, and are capable of carrying out their ideas, there is likely to be something doling.

their ideas, there is likely to be something doing.

A dispatch from San Francisco says:
Betting on the Corbett-Nelson fight, to
be held in this city tomorrow night, droppost conight from 10 to 6 to 2 to 1, with
Nelson as the short-ender. The Dane
himself bet \$500 against \$1,000 in the afternoon, and took advantage of the night
odds to place \$500 on himself.

It is the consensus of opinion among
the sporting element that both fighters
will exactly make 130 pounds at the ringside. Corbett says he will easily dispose
of Nelson by knocking him out within
ten rounds. Ted Murphy, manager for
Nelson, said tonight:

"The Dane is the best short-ender the
country has ever seen and I look to see
him knock Corbett out."

It was definitely, stated tonight that
Jimmy Britt will fight the winner.

WHAT GEORGE SILER SAYS.

WHAT GEORGE SILER SAYS.

George Siler, the well known sporting writer and referee, has the following to say anent this evening's battle:
"Neleon's meteoric flight to the top of his division has been marvelous to say the least. Two years ago he was an unknown quantity outside of Chicago and its immediate vicinity, while today he is considered the best, or rather one of the best, fighters of his weight in the country. His victory over "Spider" Weich of San Francisco brought him some recognition in the far west, but he was not taken seriously until he had beaten Martin Canole and Edde Hanlon. His defeat of Hanlon gave him his present standing and the opportunity of meeting Corbett.
"Corbett had his doubts as to Nelson's right to engage him in battle despite his decisive victories over Canole, Hanlon and Herrera, but whon Britt took on Gans and later refused to meet Corbett there was nothing left for the Denver boy to dobut to take on the "Batter." The Chicagoan was not averse to matching with Britt, Corbett or any boy in his class. It was a case of first come first served with Nelson and the first was Corbett.

Britt. Corbett or any boy in his class. It was a case of first come first served with Nelson and the first was Corbett.
Corbett because of his two defeats of Terry McGovern, his victory over Eddle Hanlon and his much disputed defeat at the hands of Jimmy Britt, makes him a strong favorite over Nelson. His record, however, is no better than Nelson's, as the "Battler" beat Hanlon as decisively as did Corbett, and furthermore, he stopped Canole, which is more than Britt could accomplish in twenty-five rounds. Corbett's reputation, however, is better than Nelson's and that naturally has a bearing on the betting.

The result of the battle, viewed from any angle, is difficult to forecast, as the boys fight about on the same lines, which is to tear in and slug for all that is in them. Style and fancy sparring his a subject neither has ever delved into, so the spectators can rest assured they will see a fight pure and simple. The weight. 130 pounds, fits them snugly and, as they are training faithfully, neither will have an advantage in that respect. Nelson's advantage, if any, will be in vitality, as he has never dissipated, which is more than can be said of Corbett, in gameness and capacity for punishment there is nuthing to choose between them, but the "Battler" will have it on the Denyerite in height and reach—factors that do not count for much in a battle wherein close range fighting will prevail.

COLD KILLS THE GERM.

Lieut. Perry Says There Are No Bald Heads in the Arctic Region.

The people who come back from Klondike testify to the fact that no native bald heads are there. The evidence s that the cold climate kills the germs is that the cold climate kills the germs that eat the hair off at the root. Lieut. Perry, who went to the Arctic Regions, gives the same evidence. Newbro's Herpicide has the same effect as the cold climate. It kills the germ that eats the hair off at the roots, and the hair grows again. WITH THE BALL PLAYERS. Los Angeles and Tacoma Tied for Pa-

eific Coast Pennant.

Los Angeles and Tacoma Tied for Pacific Coast Pennant.

San Francisco, Nov. 28.—President Burt of the Pacific Coast league rendered a decision today which now leaves the second half of the baseball season in an undecided state. His ruiling makes the closing of the second period a the between the Tacoma and Los Angeles teams for first place in the race. His decision was based on a protest made Aug. 23 concerning a game played the previous day at Portland between the Los Angeles and Portland between the Los Angeles and Portland clubs.

In that game, Baum of Los Angeles deliberately cut second base after having made a safe hit, when two men were on bases, with two out. Both runners scored and Baum rested at third base. The ball was returned from the outfield and thrown to second base, and Umpire McDonald called Baum out.

Despite the fact that both runners had scored, Umpire McCarthy, who was at the plate, refused to allow the second run, which tied the score. His decision gave Portland the game, Later McCarthy admitted he was in error.

Today President Burt summoned both McDonald and McCarthy to his office and they both said that an error had been made, and that the fifth run, which tied the score, should have been allowed to Los Angeles, President Burt accordingly threw out the game. This leaves Tacoma and Los Angeles tied for first place in the second half.

But President Burt, in view of the fact that the season has ended, has taken no further action, and it is probable that if extra games are played between Los Angeles and Tacoma it will be by arrangement between Managers Morley and Fisher.

'VARSITY SCHEDULE FOR NEXT SEASON

Manager Riser Has Submitted Plan to Play Stanford and Berkeley.

NOW DEPENDS ON THE FACULTY

Yeam Will Elect a Captain This Week, and Get Ready for Next Year-Gym. Needed.

It's now up to the athletic council of the University to determine in what field Utah shall operate next year, in the matter of her football games.

The plan proposed by Manager Riser contemplates a trip to the coast early in the season to play Berkeley, and thre big games in Salt Lake, besides the game with the Aggles at Legan. The three Salt Lake games he desires to bring to a limax with a match against Stanford's splendid eleven, when the season is at its height. For the other games he wants to meet Boulder, and possibly another Colorado team. The game with the coast teams he wants to make permanent, one to occur each year in Sait Lake with Stanford and Berkeley alternating, and one to occur on the coast with the team that plays here the year following.

THE BOULDER LEAGUE.

A league schedule now being formed at Denver, in which it is proposed to include, Stanford, Berkeley, Boulder, lowa, Nebraska, Kansas, and Missouri, may interfere with Utah's plans. But it is not thought that the league will be formed, as it is conceded to be an attempt of Boulder to work helself out of a class with the other Colorado teams, Boulder met her first defeat this year, and lost the championship to a college she considered beneath her notice. Now she would eliminate having to play with dark horses, and be it i position to lose, if she must lose, to a cam worthy of a victory. The Colorado State league is having trouble with Boulder over her violation of the agreement in bringing Stanford to Denver when another game in the league was scheduled there for the same date, it may be that they will refuse to play Boulder next year, and eliminate her from the championship contest. This outcome of the present plans will leave clear sailing for Manager Riser in his attempt to secure the games with the coast elevens. THE BOULDER LEAGUE.

CAPTAIN TO BE ELECTED.

CAPTAIN TO BE ELECTED.

The Utah team assembled last night to listen to the final advice of Coach Maddock, in the matter of proper training and living between now and the Pomona College game, scheduled for New Year's day at Los Angeles. At this gathering the matter of electing a captain for next year was informally discussed, and it was decided to call the election at the banquet Friday night. The probable candidates are Peterson. Bennion, Russell and Carlson, Carlson is a doubtful possibility as he is in danger of graduating next spring, while Russell is only a freshman, and Bennion a sophomore. This leaves Peterson, who next year will be a senior, as the most logical candidate, and he probably will be elected.

THEY NEED THE GYM.

THEY NEED THE GYM.

Agitation for a new gymnasium continues to brew in football circles. It is demanded for the reason that right now the vital problem is the development of a new quarterback for next year. If a gym were available the work could be done before the next season opens, and when the team before its practice next. done before the next season opens, and when the team begins its practise next fall it could commence without a green spot in the line-up. Football men, such as compose the University coaching board, realize how completely the present fine condition of the team is a veneer and how easily it can be lost by faflure to grind it in, and how completely the University lacks any facilities to maintain good athelic form.

lette form.

If the Legislature is unwilling to loosen up an appropriation for a gym next year it will probably be beseiged by the most earnest set of lobbists that ever gathered around its doors to force a movement through.

Final Game to be Played.

Los Angeles, Nov. 28.—Manager Morley of the Los Affecies team has concluded arrangements with Manager Fisher of the Tacoma team to play off the tie between their teams for the 1904 championship of the Coast league by playing a series of 10 games. Five of these games will be played in San Francisco and five in Los Angeles. They will commence in San Francisco Wednesday, Nov. 20. The Los Angeles team will leave for the north tomorrow evening. All the receipts of the games will be given to the players.

Jury Fixers Held in Bonds

New York, Nov. 28.—Leo Cohen, a juror in the O'Donnell will case, accused of agreeing to accept a bribe of \$1,000, and Herbert L. Kamber, a law cierk, accused of undertaking to bribe him, were each held in \$7,500 bonds for the grand jury when arraigned. In the supreme court where heirs of Hugh and Neal O'Donnell were contesting the will of the two men giving about \$1,000,000 to charitable and religious institutions, the jury of which Cohen had been a member was discharged. It is alleged that Kamber made the offer to counsel for the heirs to "fix" the jury.

Anglo-German Relations.

London, Nov. 29.—The Nineteenth Century in its December issue has an interesting interview with Chancellor von Buelow on Anglo-German relations, Count von Buelow declares that he is and always has been the friend of England, and repudiates as absurd the imputation that Germany desires to make bad blood between England and Russia. He also denies explicitly the rumors that Germany warned Admiral Rojestvensky of the possible proximity of Japanese torpedoboats in European wa-
