Meantime, it is quite probable, the as sassin is mingling unconcernedly with the multitudes, and we look at any time for another victim to be added to the list, in the presence of whose gashed remains he will doubtless be as indignaat as anyone else.

Since the above was in type, the telegraph brings us information from London, dated 1 p.m., to the effect that another weman came near being the tenth victim, the assassin having struck her once on the throat, when her cries and the immediate excitecut no figure. ment caused him to flee. The police again failed to get a clue, though they think he is not the same man. The excitement is naturally very great.

## WEALTH IN STONE.

WITHIN the last-two years developments have taken place in Spanish Fork Canon, Utah County, which prove it to be a region of immense wealth in building and ornamental stone. It is positively strange that the riches of this region have not long ago been discovered and developed, for they are abundant and of easy access. Vast deposits of as handsome building under such circumstances, is a tacit stone as can be seen in the most recognition and endorsement of the elegant structures of the large cities of false idea that a man's political this country, only await the quarryopinions necessarily interfere with the man's attention to yield material for faithful discharge of his official as handsome and durable buildings as duties. There will be a great deal can be found in the world.

Sandstone of various colors, including brick red, salmon, purplish brown, straw, etc., abounds, and can be loased on the cars very chesply. Some of the sandstone quarries have been opened up yield building material of extremely rich and beautiful appearance, and splendid quality as to strength and durability. On none of the quarries for "spoils." There will be removals, has work enough been done to amount no doubt, in due time and some to more than a commencement of the perhaps a little premature, because process of development, and as a greater depth is reached, the stone will, it is reasonable to expect, increase in beauty and improve in quality. This industry is only is an embryotic state as yet, in this locality, the first shipments having been made less than two years ago, but it is growing rapidly, and already there has A. D. 1889. grown up a demand in several eastern cities for stone from the quarries in Spanish Fork Canon. Considerable shipments have been made to Denver and Kansas City, and the demand is rapidly growing, both in this Territory

and eastern localities. It is not unlikely that stone from San-Francisco, which is to be an im- for a State's population to nearly mense and costly, structure.
