SAMOAN LAD IS GOING HOME

Has Been in Chief Hilton's Family for Five Years.

DOES NOT WANT TO GO.

Has Made a Good Record at School, But His Father Wants Him to Return to the Islands.

This evening Salt Lake train for San Francisco will have on it little elevenyear-old John Hellesoe, a bright Samoan lad, who has been a member of Chief Hilton's household for the past

Johnnie Hellesoe's father is a well-todo trader in the city of Apia, Island of Upolu, where Chief Hilton and wife performed missionary service. On the return of the Hiltons to the United States from the island, they brought Johnnie with them at the instance of his parents, who were anxious that he should receive a good English educa-

It is just five years ago to-morrow since they arrived home with him. He was barely old enough to enter the pubwas barely old enough to enter the public schools at that time and knew not a word of English, and now hardly knows a word of Samoan. Johnnie, however, is a bright boy and soon learned the language of the people among whom he had come to reside. At first he attended the Lowell, but later went to the Hamilton from which school he is now taken out of the grade known as "Third A" to be sent back to his is-land home at the request of his father

It is about two weeks since that Chief Hiton made known to him the desire of his parents. While he had heard from them regularly and has written many affectionate letters to then. Johnnie has somehow become allenated from his own people and would prefer to remain in Utah. When told that he more really obey the wishes of his parmust really obey the wishes of his par ents and go back to them, he agreed to do so, but has spent about one-fourth of his time during the last fortnight in

At school the young Samoan has been quite as bright as the average American boy and was about to receive a special promotion for his studious work. This distinction he cannot now enjoy

and is very sorry therefor,
Johnnie has naturally become very
much attached to Chief Hilton and wife and his separation from them will be attended with great grief on his part. It is needless to say that they ,too, are greatly affected at the separation. Chief Hilton said this afternoon that it was like parting with his own flesh and blood, while the regret of his wife was as deep as that of his own. "But his as deep as that of his own. But his father is pratice lariy anxious that he should return home at this time," continued the chief, "as he needs his services in his business. His father has been a successful trader, but his health is not now as good as formerly and he is anxious that the boy shall familiarize himself with his affairs.

Chief Hilton further said that Mr. and Mrs. Hellesoe had always been particular friends of the "Mormon" Elders and remain so to this though neither of them belongs to the Hellesoe is an infidel and his wife a devout Catholic. Johnnie will not travel alone as he will be in charge of Mr. and Mrs. Joseph Hinck, of Wyoming, who are going to the Hawaiian islands on a mission. Chief and Mrs. Hilton will accompany them as far as Ogden where they will take a final farewell of the lad, who declares that when back to live with them again.

HOOD'S Sarsaparilla

In the Spring those Pimples, Boils, Eruptions and General Bad Feelings, indicate that there are cobwebs in the system. It needs a thorough brushing, and the best brush is Hood's Sarsaparilla, which sweeps all humors before it. This great medicine eradicates Scrofula, subdues Salt Rheum, neutralizes the acidity which causes Rheumatism-in short, purifies the bloo. and thoroughly renevates the whole physical system.

Even the kidneys and liver, those important organs which when in rebellion are so difficult to subdue, readily respond to the regulating and invigorating powers of Hood's Sarsaparilla,

The stomach also gains new strength, welcomes food, and under its "magic touch" begins the work of digestion without causing distress.

"And my nerves, too," writes one lady, "are made steady and firm, since I began the use of this medicine. I no longer have that nameless dread, do not hesitate to go anywhere I wish, sleep well, and seem to be having a new kind of happy existence, for which I thank Hood's."

It possesses properties Peculiar to Itself which make it the Ideal Spring Medicine.
