

LOCAL AND OTHER MATTERS.

Correspondents writing for publication are requested to write on one side of the paper only. No notice can be taken of anonymous communications. Correspondents' names must in all instances accompany their communications, and not necessarily for publication, but as a guarantee of reliability.

THEATRICAL.—The entertainment for this evening needs little expatiating on, for Douglas Jerrold's drama of "The Rent Day" has received the stamp of universal vocal success from the most critical audiences in the world; and the "Golden Farmer" is well and favorably known by our theatre-goers. Both pieces are well cast; and both present many points of attraction.

PRESIDENT YOUNG'S MOVEMENTS.—President Young and company left Nephi this morning at half-past eight; dined at Payson; and passed Spanish Fork at twenty minutes past three. He comes to Provo to-night.

FROM "DIXIE."—Elder Henry W. Miller arrived yesterday from St. George, and called upon us soon after reaching the city. He left St. George on the 15th. At that time general good health prevailed. They have had a fair wheat crop this season—good, for that country. The corn crop is good; so is the peach and grape crops. There will be double the quantity of fruit this year than there has been in any former year. The grasshoppers have left there; and did not do as much damage at St. George as it was thought they had done. Some eggs which they deposited are hatching out, and it is expected that the young insects will be winter-killed, but the migrating hosts are gone. President E. Snow was to leave St. George on the 17th to meet President Young at Gunnison on the 18th.

Gov. Miller saw no frost till he reached Nephi on his way north. From that point to this city the grain and wheat on the low land showed that they had been injured by it. The health of the people in the settlements on the way up is generally good.

UTAH SURVEYOR GENERAL.—We see by the dispatches, to-day, that our lately appointed Surveyor General, John A. Clark, is instructed to proceed to Denver, obtain possession of the original evidence of the survey in Utah, and repair to this city, where the Secretary of the Interior has directed that he shall establish his office.

WEBER KANYON.—L. J. Nuttall, Esq., is in from Mountain Green, where he has been for a short time assisting on the Hon. John Taylor's contract, and says that the grading out that contract is nearly done, and it is all settled to men who will put it through. Mr. Taylor has a steam-mill busy at work, and various gangs of men logging, to turn out a million feet of lumber, which he has contracted to furnish to the U. P. R. R. The work in Weber is progressing, but there is considerable delay to yet.

VENTRILOQUISM AND MAGIC.—F. A. W. Moore, Professor of the prestidigitatorial art and of ventriloquism, called upon us to-day, and informed us he was about to give a couple of performances of "mirth and mystery," in the 13th Ward Assembly Rooms, on Monday and Wednesday evenings, next week. This is an opportunity for those who delight in the laughable and mysterious.

MUSICAL INSTRUMENTS.—After the arrival of Captain Holman's train yesterday, we saw some large boxes lying around marked "musical instruments;" and seeing Bishop Proctor and Captain Parkman, of the 10th Ward, close we soon discovered that the boxes contained musical instruments for the 10th Ward band, ordered from London and just arrived. As they were not opened we cannot speak of their quality.

NEW INVENTION.—The St. Jo. Herald tells of a new harvester called the "Young America" which "cuts the grain, threshes, cleans and sacks it all at one operation. The inventor claims that with two men and four horses it will do, in a single day, as much work as fourteen men and nine horses in the old fashioned way." The age of progress!

WINNEMUCCA.—This town is on the line of the Central Pacific Railroad, is 324 miles from Sacramento, and will probably be the western terminus of that line for some length of time. Though small now, it is calculated that 250 houses will be built there in less than a month. We will likely hear more from this time on, of the railroad horns on the C. P. R. R., than we have heard up till now.

IN SOUTHERN COLORADO.—The *Chieftain*, published in Pueblo, says: "Grasshoppers are fearfully plenty. In streaks, over Southern Colorado. They have done very little damage in the Arkansas country, but it is feared that they are preparing for an overwhelming supply next year. Several St. Johns, and whole tribes of larger Indians, can find constant employment eating them."

Our neighbors south east and south west are likely to have a heavy visitation of the destructive insects, judging from the immense hosts which have gone in those directions.

DIED, this morning, at half-past ten o'clock, of dysentery, Francis J., son of Edward L. and Emma J. Sloan, aged 11 months and 27 days.

THE OREGON FIRES.—The *Oregon Herald* of the 15th is to hand with an account of the great fires. The woods were on fire, at date, in every direction. The smoke was so thick on the river that pilots could hardly see a boat's length ahead. In the description it says:

All yesterday ashes from the fiery forests to downward were falling in this city, and the smoke was so dense that lamps were used up at 10 a.m., and were relighted at 4 p.m. Every-thing looked gloomy as death. The gas jets were blue as a sulphur flame, and the sun which shone at all, seemed merely like a red disc suspended in the heavens.

Another paper states that the smoke "hangs all the way all along the coast for nine hundred miles, and reaches inland nearly five hundred miles."

DIED, on the 15th inst., of mountain fever, Mary, daughter of Samuel and Catherine Hines Judd, of Cambridge, Warwickshire, England, aged 16 years, 10 months and 22 days.

Deceased arrived on the 15th inst., with Capt. Leppie's train, and was spared to embrace her mother and mother, who had come from St. George to meet her. She conversed with them and received their blessing, and having been a follower of her Redeemer through the Gospel, she sleeps in Zion to awake with the Saints at the resurrection.—*Foot.*

MIL. STER. please copy.
At Morganville, Morgan County, September 20th, Laura Elizabeth, daughter of John and Sarah Suedaker, aged 11 weeks.
In Richmond, Cache county, Sept. 14, of smothering cough and teething, Nancy, twin daughter of Jesse and Sarah Thomson, aged one year, nine months and 12 days.

DESERET UNIVERSITY

—:—

The Classes of

The Commercial Department

Will be Resumed

On the 15th of OCTOBER, 1888.

To make this Institution

THOROUGHLY PRACTICAL,

the Lower Rooms of the

COUNCIL HOUSE

have been fitted up as a

COMMERCIAL BAZAAR

And will be furnished with a Large and Com-

plete Stock of

Foreign and Domestic STATIONERY,

SCHOOL FURNISHINGS,

SCHOOL BOOKS,

GLOBES, MAPS,

And a Great Variety of

FANCY GOODS

Which will be offered for sale to the Public at

such LOW PRICES as will command

READY SALES.

Students will be first instructed in the theory

and practice of Book-keeping, Penmanship,

Arithmetic, and "Actual Business," as taught

in Business Colleges; and after a satisfactory

examination, will be assigned a place of busi-

ness in the Commercial Bazaar. Here the

reigned Transactions of the College give way to

real business. The Student becomes a Mer-

chant in fact. His dealings are no longer with

his fellow-Students—they are with the Public.

He now has an opportunity of becoming ac-

quainted with all the details of business as

transacted in First Class Commercial Houses.

Students who enrolled last term, and who

intend continuing their studies, will please

inform me immediately.

For Terms, etc., apply to

D. O. CALDER, Principal.

OFFICE AND WORKS—Cor. Main and Lombard

Streets.

Are a Home Institution!

Made for and specially adapted to the wants of

Western people.

They combine great weight, distributed to the

best advantage, with beauty of design and per-

fection of manufacture.

Charter Oak Cooking Stoves

were first introduced to the public in the year

1852, and at once took the lead, and have ever

since grown in favor, until there are now a

GREATER NUMBER SOLD DAILY

than any Stove in the market. Over

ONE HUNDRED THOUSAND

are in daily use, and we offer every stove as

reference, wherever it may be found. When

our new patterns were made, all recent im-

provements were united, and we confidently
