

erty in the country Joseph R. Clark, said to be from Sa't Loke, has located four groups, com-prising 30 claims. These are known as the Chloride, Dividend, Summit and Sunday groups. The Bishop Register makes mention of these and states, that Mr. Clark has enlisted the attention of J. E. Bamberger, Judge W. H Dickson, David Keith and other Sait

che citizens to the territory acquired by him. It adds:

The mines are at an elevation o ever 7,000 feet, and wood, water and grass are scarce. The idea of those interested is that electric power will be working, such power being easily obtained at low cost. Some as rays have been obtained running as high as \$500 in gold; these are, as is illy the case with phenominal says, from selected specimens. A fait estimate of much of the ore places its value at \$15 to \$20. The quantity is large enough, apparently, to make the future of the new camp hopeful in The ledges are all strongly d fined

The camp lacks a name thus far: in the absence of a better designation its inhabitants refer to it as Windypa.

## PATENT SURVEYS ORDERED.

#### Shady Mining Transaction to be Aired in Colorado Courts.

Denver, Colo., March 7 .- The Bon Homme Mining company of New Or-leans, of which C. M. Saria is president, has filed suit in the United States district court here against James F Steinbeck to recover possession of cer tain mining claims said to be worth at least \$500,000. Steinbeck, the complain alleges, was the sole representative of the company in Colorado. He is charged with having allowed several of company's most valuable claims t be sold for taxes and fraudulently securing to himself title thereto by pur chasing the tax sale certificates. The Scantic Gold Mining & Milling com-pany and L. F. Twitchell, with whom it is alleged a partially completed deal for a transfer of the property has been made, are made parties to the suit.

### At the B. W. & H. Mine.

The lower tunnel on the B, W. & H. has cut through the blind vein recently encountered and is now nearing the in which on the surface gave assay of \$65 per ton. The vein which was crosscut contained a number of ore streaks, some of which averaged nearly \$70 per ton in gold and silver. Eighly sacks of shipping ore were taken from 224 cubic feet of vein matter. This vein is 17 feet wide.

The tunnel is being pushed to the Jim Crow ground, where there is a surledge of 40 to 60 feet which aver aged \$4. Two shifts are at work and is expected to reach this ground in three months. Blind veins may be struck at any time.-Richfield Advothree months. cate.

Local grocers and dealers in sugar re notified late Friday night of a big advance in the price of the refined pro-duct, the increase being one half a cent per pound. The price has been deessed for a long time past on account unsettled trade conditions in San rancisco, from which point the quotalons for Utah are made. In sugar cirles it is thought that the advance is due to the fact that the refiners and jobbers there may have come together. As there is now about 25,000,000 pounds of sugar in storage by the several Utah companies, the advance in price was naturally received with satisfaction in sugar circles in this city, Ogden and year ago. Logan. . . . .

The annual meeting of the stockholders of the Home Fire Insurance comany occurred on Friday afternoon. 'he reports of the company showed ending Friday, March 6, 1903, were: that the company was in a most flour-ishing condition. The following named directors were elected to serve for the ensuing year, and in addition H. G. Whitney was elected secretary, and L Hills treasurer of the company; John Barnes, Elias A. Smith, Henry Din-voodey, Jos. F. Smith, John C. Cutler, John Henry Smith, Thos. G. Webber, has S. Burton, David Eocles, P. T. rnsworth, Francis M. Lyman, Heber Grant, George Romney.

The sudden jump in sugar of four bits per hundred is regarded as unusual at this time of the year, and is attracting attention among jobbers.
