

The city treasurer reported that Mr. Clute had paid to the city \$22,007.13. This was \$314.24 more than the reported shortage and Mr. Clute claimed that amount was due him.

Moran—That ought to be held for interest.

The recorder—What did you say?

Moran—I say that the city should retain that \$314 as interest for the use of its money.

Rich—The city is paying five and six per cent on bonds. \$23,000, at that rate for six months is worth about \$600. Further I will ask Mr. Bell, has Mr. Clute settled in full with the city? If so, was it a cash transaction or did he give the city other securities?

Bell—We have the sworn statement of the city auditor and treasurer that the money has been paid into the treasury.

The report was referred to committee on finance with the city attorney associated.

#### THE MAYOR AGAIN IGNORED.

The committee on police reported adversely on the appointment of the mayor of Chief of Police Paul as city jailer.

Wantland—I should like to hear some reason given for the making of such a report.

Lawson—I can furnish the gentleman with all the reasons necessary. The chief of police has plenty to do to attend to the duties of his own office.

Bell (warmly)—I want to hear from some other members of the committee coming from the chairman down as I think Mr. Lawson's statement the gangliest one I ever heard. I do not think there is any law in supporting this recommendation of the committee.

Moran—Do you know that there is any law on the question at all?

Wantland—If this is a fight between the Mayor and Council I am certainly opposed to it.

Beardsley—After long and careful consideration the committee has arrived at the conclusion that the office of city police properly belongs to the office of city marshal.

The question to confirm the Mayor's appointment was then put, with the following result:

Ayes—Beardsley, Evans, Ewing, Folland, Horn, Hardy, Simondl, Moran, Rich, Lawson—10.

Noes—Bell, Helss, Loofhourow, Wantland—4.

The committee on police recommended that J. Van Alstyne be made a policeman without pay. Adopted.

#### THAT ELECTRIC DIFFICULTY.

The city engineer and city attorney, to whom was referred the difficulty between the Salt Lake City railway and the Rocky Mountain Bell Telephone company, reported that, in their opinion, the railway company should be required to remove their posts from Second East Street, from First South to Fifth South. They also recommend that this resolution be adopted by the Council:

Resolved, That the resolution of the City Council adopted Feb. 4, 1890, granting to the Salt Lake City Railroad company the privileges and authorize the said company to erect poles and maintain wires and poles where the same may be found necessary for the purpose of communicating power, to be used in the operation of elevators, pumps and propulsion of machinery and other mechanical purposes, be and the said resolution is hereto-

by revoked, set aside and annulled, and that the privileges and each and every one of them granted in said resolution be and they are hereby withdrawn.

On motion of Hardy the matter was referred to the committee on streets.

#### FURTHER TIME GRANTED.

Ewing, of the committee on ways and means, asked that the committee be given more time in which to report on the amount of tax levy.

Wantland was opposed to granting the request as he was of the opinion that the matter could be decided upon at once.

On motion of Hardy the request was granted and Friday night set apart for the consideration of the question.

#### DETECTIVE BUREAU.

The police committee offered the following:

Whereas, It is deemed advisable that the city should have a detective force that should be separate and distinct from the police force and under the direct supervision of the City Council; therefore, be it

Resolved, That the city attorney be instructed to present an ordinance creating such officers at the next meeting of the council.

Adopted.

#### MORE LIGHT.

As to the petition of A. A. Greenman and others asking for electric lights the committee on improvements recommended that lights be placed at the following points: Fourth and M streets, Second and M streets and Third and P streets. Adopted.

#### FIRE DEPARTMENT.

The committee on fire department recommended that \$300 be appropriated for the purchase of a Pompet ladder. Referred back to the committee with power to act.

#### REBATE GRANTED.

The petition of L. C. Trent asking for a rebate of \$342.92 on watermain taxes was granted with 5 per cent. added for the use of the money.

#### MISCELLANEOUS.

A resolution authorizing the advertising for bids for the paving of Main street from South Temple to Fourth South and of First and Second South streets between West Temple and State streets was adopted.

A resolution authorizing the advertising for bids for the sidewalks recently ordered on Main and West Temple streets was adopted.

An ordinance extending the limits of sprinkling district No. 2 was then reported, and under suspension of rules was passed to second and third readings and finally passed.

The garbage ordinance, the special order of the business, was then taken up.

Beardsley moved that the whole matter be referred to the sanitary committee with the health commissioner and city attorney and sanitary inspector associated, for amendment. Carried.

The ordinance for the assessment of the property to pay the expenses of sprinkling the streets in sprinkling district No. 2 was then taken up, and after nearly an hour's talk, in which the Council got into a wrangle over rates and rebates and was called down by the city attorney, the whole matter was laid over until the next meeting.
