

# A TARIFF WAR WITH GERMANY.

Not Impossible as Result of Notice By Imperial Government Abrogating Treaty.

BECOMES EFFECTIVE MAR. 1, 06

In Reality an Agrarian Triumph—State Department Recognizes Matter as Serious.

Berlin, April 26.—The imperial government, preparatory to the exchange of the new reciprocity treaty signed recently with seven European states, has formally notified the American government that the tariff treaty between Germany and the United States of July, 1900, will terminate March 1, 1906, the day the new treaty goes into effect, but that Germany stands ready to negotiate a reciprocity treaty with the United States.

The German view, as held at the foreign office and at the ministry of the interior, is that the United States cannot reasonably expect to share in special benefits given by Germany to certain European states in exchange for other specific tariff reductions. Should the United States have the same advantages without giving anything in return the treaty countries could justly complain that they were in effect discriminated against, because from them certain things were exacted by bargain which were freely given to the United States.

But if the United States desires to take up the general tariff question and arrange a reciprocal agreement Germany will be very glad to do so. Otherwise Germany's new general tariff, which also goes into effect March 1, 1906, will be applied to imports from the United States.

The government in terminating the present modus vivendi, has done what agrarians have steadily asked for since the new commercial treaties were concluded. Public opinion in Germany has also been fully prepared for the government's act by publications of the Commercial Treaty Commission and the Central European Industrial League, and articles in the principal financial periodicals written by persons in affiliation with the ministry of the interior, although the news is not yet published here.

The inspired Cologne Gazette only yesterday contained an editorial on the necessity for a readjustment of the tariff relations between Germany and the United States.

Washington has not yet replied to Germany's proposal.

A RATHER SERIOUS MATTER.

Washington, April 26.—It is admitted at the state department that four parties have been in progress for the last three months between the American embassy at Berlin and the German foreign office and that the German government has been endeavoring to bring about a new trade agreement between America and Germany of the operation of the new trade treaties concluded between the United States and Belgium, Italy, Austria-Hungary, Roumania, Russia, Switzerland and Serbia on the other, but so far Ambassador Tower has not notified the department that the German government has decided to terminate the existing arrangement.

The effect of a formal declaration of that kind would be very serious, it is feared, and Mr. Tower is now engaged in one of the most difficult and complex tasks which he has yet been called upon to discharge if the arrangement is denounced and no substitute is found, then it may be that the United States and Germany will soon become involved in a tariff war which would certainly prove disastrous to one or both of the principals, in view of the vast amount of trade between the two countries which would be affected.

The situation in brief at this moment is as follows: In July, 1900, a reciprocity arrangement was entered into between America and Germany under section 3 of the Dingley act, whereby, in return for a reduction of duty on German brandies, still wines and works of art, entering the United States, Germany agreed to give United States products the benefit of tariff reductions accorded to the European countries above named.

Germany has now drawn new conventions with those countries, changing the tariff rates, and is disposed to refuse the United States the benefit of these special rates under the old Dingley convention. The state department holds that the new conventions are really nothing more than amendments to the original treaties and that, therefore, the spirit of the Dingley act agreement would seem to cause it to apply with equal force to the new conventions. Correspondence is now passing to clear up this difference of views.

In the background is a well-recognized purpose on the part of the German government to cause the United States greatly to enlarge the list of articles named in the Dingley agreement, but as these are limited specially in the Dingley act, that object can be attained only by the negotiation of an entirely new reciprocity treaty.

If the German government denounces the present agreement the United States, either must concede such a reciprocity treaty, or submit to the withdrawal of the most-favored nation privilege and the imposition on American imports into Germany of full maximum tariff rates, which in many cases will be practically prohibitive and probably would cause such an outcry from the great exporting interests of this country as would force Congress to retaliatory legislation and mark the beginning of a great tariff war.

If Mr. Tower is finally impressed with the soundness of the German contention respecting the inapplicability of the

## The Juice of an Orange

is its only value—you can't eat the rind. Same with wheat—the hull is not intended to be taken into the human system. It is removed before the wheat is crushed for California Wheatine.

## Husler's Flour

Is good flour—and good flour "makes good bread"

existing arrangement to the new European treaties and proceeds to draft a reciprocity treaty, the issue will be transferred squarely to the United States senate at its next session. This outcome, it is stated, is probable.

## CREW OF THE CRUISER CALVESTON NEARLY MUTINIES

Galveston, Tex., April 26.—A state of friction almost bordering on mutiny is said to exist on the new United States cruiser Calveston. The vessel arrived here last Wednesday on her maiden trip to receive a silver service from the citizens of Galveston. The crew has been visited by thousands of people from all sections of the state. Yesterday Commander Cutler ordered his ship away from the wharves, where she has been since her arrival, to anchor in the roads, so that the officers might be better able to control the men, numbers of whom were leaving the ship and overstaying their shore leave. Federal and municipal officers have today returned nearly two scores of men found ashore, many of whom were said to have been intoxicated. These men vigorously protested against the treatment which they allege is accorded them on board ship by Commander Cutler. Men of long service who came from the vessel on shore duty and local people who were on board today state that the condition verging on mutiny is existing there. The men, among them several petty officers of long service, pronounce the voyage of the Calveston the most unbearable which they have ever experienced. Many of the men denounced the commander, and state that they are overworked and underfed. They claim that for the most trivial offenses they are given the extreme penalty, and that 50 of the men are in irons. The marines are said to be almost worn out preserving order on board. The cruiser sailed for Norfolk today.

## LOUISIANA MOB BREAKS INTO JAIL AND SHOOT PRISONER

Shreveport, La., April 26.—After working three hours with sledge hammers and pick axes, a mob of 25 men broke into the parish jail at Homer, La., 75 miles northeast of Shreveport, today, and shot Dick Craighead, inflicting wounds which will probably prove fatal. Craighead was charged with the murder of Mrs. Ike McKee, wife of his half-brother, and her little son. The authorities were unaware of the design upon the prisoner until it was too late to protect him. Every telephone and telegraph wire out of Homer was cut and the rifles of the local militia company were seized before the movement was made on the jail. When Sheriff Kirkpatrick and citizens of the town reached the jail they found Craighead still alive. It is stated that he has told the sheriff the names of three of the lynchers and that another prisoner in the jail told the name of another man whom he recognized. The names have not been divulged.

## NORTHWESTERN BREWERS.

### Sharp Conflict Between Them and Their Employes Has Arisen.

Seattle, Wash., April 26.—A sharp conflict between the Northwest Brewers' association, representing every brewery in western Washington, and their employes, aggregating between 1,500 and 2,000 men, has arisen. May 1 is the date on which the scale of wages and agreement is to be signed. The men demand an increase in wages for engineers and firemen and insist on the old agreement by which the brewers cannot employ or discharge a union employe without the sanction of the union. The brewers today sent an ultimatum to their employes to the effect that the agreement must be changed so that the brewers can hire and discharge their employes at will. They agree to hire only union men. The employes are to reply Friday. Seattle, Tacoma, Aberdeen, Everett, Bellingham and Roslyn brewers were present at today's meeting.

## HAWAIIAN LEGISLATURE.

### To be Called in Extra Session to Consider Appropriations.

Honolulu, April 26.—The territorial legislature will adjourn sine die at midnight. No action has yet been taken upon appropriation bills for territorial expenses. Gov. Carter says that he will call an extra session to exclusively consider appropriations. He refuses to extend the present session. The extra session will convene May 1. The governor's recess appointments have been generally confirmed, with the notable exception of three members of the board of education. As substitutes for those rejected, Gov. Carter nominated D. L. Al, editor of the Hawaiian Daily; W. R. Harrington, editor of the Bulletin; and Mrs. Henry H. Wilcox. These were confirmed.

## TAINTED MONEY.

### Andrew Carnegie Gives His Views Regarding It.

New York, April 26.—Andrew Carnegie, accompanied by his wife and daughter, sailed for Europe today on the White Star line steamer Baltic. Founding president of the Carnegie Foundation, Mr. Carnegie's estate in Scotland. Mr. Carnegie was asked if he would say something regarding the agitation about "tainted" money. "No," he replied, laughing. "I am hardly in a position to discuss the subject. I never give money where I think that it will not be accepted. I believe that money given in any good cause will do good and bring about good results, even though the source may be considered 'tainted' by some."

## ROCKEFELLER'S GIFTS.

### Dr. Gladden and Ministers Protest Against Their Acceptance.

Boston, April 26.—Dr. Washington Gladden of Columbus, O., moderator of the general council of Congregational churches of the United States, was the principal speaker at a secret meeting today of Congregational ministers invited to assemble by the clergyman's committee which is protesting against the acceptance for religious purposes by the denomination and its affiliated societies of gifts from John D. Rockefeller. Dr. Gladden's remarks were embodied in a statement which will be given to the public later. The committee in charge of today's meeting was appointed originally to protest against Mr. Rockefeller's gift of \$100,000 to the American missionary

# TAX COLLECTOR SKIPS WITH FUNDS

Edward J. Smith of San Francisco Gets Away With the Sum Of \$36,112.68.

OFFICERS ARE NOW AFTER HIM.

He Has Six Days' Start—In April, 1904, It Was Discovered He Was Short \$105,000.

San Francisco, April 26.—Mayor Schmitz is authority for the statement that Tax Collector Edward J. Smith is a defaulter to the city in the sum of \$36,112.68. The mayor was notified of the enormous defalcations by the brother of the official, John Smith, cashier in the tax collector's office.

On last Thursday Smith disappeared from the city on the ostensible purpose of going on a business vacation to Los Angeles was the objective point. It has been learned that he took with him \$36,112.68, the taxes of the Southern Pacific Railroad company.

The defalcation was discovered when it was found that the Southern Pacific company was in arrears with its taxes on the books of the public office. That condition was beyond precedent. The railroad people were asked why this year the assessment was delayed. "But it is not," came back the answer. "On April 4 and April 5 we paid \$36,112.68 personally to Tax Collector Smith. We made two installments, giving checks for the amount and receiving the receipts."

The cashier, heard of his brother's misdeeds. Straightway he went to the office of the mayor and told the tale. Mayor Schmitz wasted no time, but immediately communicated with the sheriff and chief of police. Smith has six days' start with his money.

The mayor has formally suspended Smith from the office and appointed James McKay, bookkeeper in the office in temporary charge. Before being elected to the office of tax collector Edward J. Smith was a well known citizen. He was affiliated with prominent fraternal organizations and had many friends. He is owner of the drug store and resided with his family at 328 Fair Oaks street.

His brother, James B. Smith, who made good the first alleged misappropriation of the city funds, is a very successful business man and the sale of several influential and social clubs. According to Mayor Schmitz, a shortage of \$105,000 in the accounts of Tax Collector Smith was discovered in April, 1904. This, the mayor says, was made good by the tax collector's brother, James B. Smith, who first pledged about \$500,000 worth of securities and then made the shortage good in money.

## INDIANA SUNDAY LAW.

### Gov. Hanly Will Insist on its Rigid Enforcement.

La Porte, Ind., April 26.—Cities and towns throughout the state are threatened with a puritanical observance of the Sabbath in view of Gov. Hanly's determination to have the law enforced or demand the resignations of officials. Now the saloonkeepers threaten to retaliate and are moving to perfect an organization which will stop the sale of milk, papers, cigars, confectionery, ice cream soda, etc., on Sunday. The crusade of the saloonkeepers is to become a state movement.

# MALARIA A Poison Breathed into the System

The air arising from low, marshy places, damp cellars, stagnant ponds and pools and from decaying vegetable matter, as well as the gases from sewers, is loaded with germs of malarial poison. The water we drink, that has not been properly filtered and purified, is also full of these germs and microbes, and as we daily breathe and drink millions of these into the system, to be absorbed by the blood, the entire body begins to feel the effects of the poison. The most common form of Malaria is "chills and fever," but when the blood is thoroughly saturated with the poison it becomes so weak and polluted that abscesses, carbuncles, boils, sores, ulcers and other skin diseases result. Malaria also affects the liver, kidneys, bowels and stomach, producing a chronic state of biliousness that often results in jaundice or some malignant fever. In cases of Malaria the blood must be purified before the body can regain its natural health. S. S. S. contains purifying and tonic properties possessed by no other blood medicine, and is the ideal remedy for the treatment of Malaria. It destroys the germs of the disease and builds up the weakened, polluted circulation. It enters into the blood and forces out every particle of poison and waste matter and adds strength and activity to it. S. S. S. improves the appetite and digestion, tones up the entire system by its alternative and purifying action, and Malaria, with all its bad effects, is permanently driven from the system. Book on the blood and any medical advice sent free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
