Both Better and Cheaper.

Baking-Powder, as an actual fact, is the best in use of any made, because of its adhesive strength.

United States and Canadian Governments suspended their investigation of baking powders until further notice.

No baking powders known in this vicinity contain from 20 to 30 percent of chemical tests than the Royal.

So the Royal makes more expensive than the Royal.

As to this the superior flavor and delicacy of the food raised by the Royal would make any difference.

Royal makes flour and more flour, which every housewife will want why not discard altogether and substitute soda and some miller's yeast or extract of tartar and soda.
