AMERICAN FORK.

Citizeus Justly Indignant at Action of City Council. Special Correspondence. American Fork, Utah Co., Feb. 27.-A

great many of our citizens were very much agitated yesterday by the action of the city council in leasing part of the city hall lot for business purposes, and many have come to the conclusion that the timber of which the majority of the city fathers are built is not of a very well seasoned variety. The council

ege of an additional lease of fifteen years, should the lessee so desire, with the understanding that at the expiration of the lease the city will purchase at their cash value all buildings and improvements that have been erected thereon. The consideration of the lease is \$100 per year. The matter had been kept a profound secret from the public. The mayor, three councilmen and a very few others had been consulted, but Councilman Snow had given out the monition that all keep "mum" until the time the performance should take place. The result was a cut and dried affair. At the meeting the matter was presented and one of the councilmen on hand to quickly move the granting of the lease, and another one to second

the motion, and despite the efforts of Councilmen Steele and Barratt, who opposed the lease, it was passed by a ma-jority vote. Those voting in favor were Messrs, Sager, Röbinson and Snow. Immediately upon the granting of lease, the papers being all ready, the mayor attached his signature, and Mrs. Snow was on hand to make the necessary payment to make the lease secure. The majority of the citizens, upon hearing of the lease, were very indignant in the first place because the city lot is now too small for the uses of a progress-lev city, and second because of the se-cret manner it was brought about. A protest was circulated and numerously signed and an indignation meeting will be held in the theater Thursday evening to take steps to prevent, if possible, the lease going into effect. Bluff is in the valley made by the San Juan river, and is rightly named as high bluffs flank each side of the narrow valley. The strip of land on the north side of the river is occupied by the whites and on this the town is built. The south side of the river is occupied by the Navajo Indians, who have farms and flocks of sheep there. At this place saw the Navajo women weaving blankets and spinning. Their mode of weaving is quite unique and they weave complicated patterns with great skill and rapidity.
