# OZEANA-Or Fetid, Bad Smelling Catarrh

# Some Information Purely and Simply for the Benefit of Suffering Humanity Given by Drs. Shores, the "People's Doctors."

Ozeana is a form or stage of Catarrh that for centuries has been the subject of much dispute, and is one of the most difficult conditions to cure. In ancient times one unfortunate enough to be a sufferer from it was ex-cluded from the privileges of priesthood, and in more modern days it has ac-tually been ruled sufficient ground for divorce. It is known under a host of names, such as dysodia, rhinostenose, coryza foetida, fetid catarrh, dry ca-tarrh, stingnase, punaisie, rhinitis atraphica, rhinitis atrophica foetido, etc, but the most fitting of all appelations is perhaps the ancient one, ozaena, which, in Greek, signifies a stench, and applied, means bad-smelling catarrh

tarrh. It occurs in all diseases of the mucous membrane of the nose where there is an ulceration and catarrhal poison from neglect or mistreatment, eats through the mucous surface and causes death or rotting away of the bone. It may result, too, from single cold in the head by decomposition of the mucous discharges if proper care and treatment is not used to keep the mucous lining of the throat and nose clean and healthy. While it is not nec-essary that every case of simple catarrh should result in this horible con-dition—ozeana—it is an absolute fact that ozaena or "stinking catarrh" is al-ways the sequel or legacy of neglected or, what amounts to the same, badly treated simple catarrh. Dr. Shores can cure you, if you will apply at once. This is your opportunity. This is your opportunity.

# Forest Fires in Montana.

Butte, Mont., Aug. 19.-The forest res in the vicinity of the valuable fires in the vicinity of the valuable state lands are causing the state of-flicials a good deal of uneasiness. It is the belief of some of the officials that the state would better sell some of these lands rather than take chances on the valuable timber they contain being de-stroyed. The state has a few men in these localities working in conjunction with the employes of the large lumber companies trying to keep the flames in check. The state is not in a position, however, to make much of a fight against the fire without the assistance of the lumber companies. Gov. Toole the valuable of the lumber companies. Gov.
