

BIG EXCURSION TO CITY OF MANTI

Another "Get Acquainted" Trip
Being Arranged
For.

NUMBER OF NEW FEATURES.

"M. & M. A." Extend Invitations to
Gov. Cutler, Mayor Thompson and
Many Other Officials.

The Manufacturers and Merchants' association is planning an epoch making excursion to be run to Manti, April 16. The success of the excursions that have been given during the year to other points in the state, has caused the business men of Manti to address an invitation to the board of directors of the association to run a "Get Acquainted" excursion to the Sanpete country in the best time of the year, when the leaves are beginning to shoot out on the trees and when the fields have put off the brown of winter, and are putting on the bright garb of summer.

The board of directors of the association, at the meeting held Saturday night, empowered the executive committee of the association, comprising President Hewlett and Directors Leon, George A. Whitaker, G. R. Cleveland and C. O. Harris, to make all necessary arrangements for the excursion.

This committee has already secured a low rate of \$2.50 for the round trip, with reduced rates all along the line, south of Bingham Junction.

It was determined to take Held's party band, which added so greatly to the pleasure of the other excursions that have been given, and special musical features will be introduced.

The "M. & M. A. Glue Club," which created so much enthusiasm on former trips has already begun rehearsals for the program which it will render on the trip. New parties on the latest popular songs are being arranged. The club will be thoroughly drilled and will reveal a number of new and startling "stunts."

The success of former excursions has led the executive committee to announce that on this excursion, the members and friends of the ladies' auxiliary of the association, and the wives, sisters, sweethearts and mothers of the men who go on the trip will be invited to accompany them.

It is expected that fully 700 persons will secure their tickets for this trip, as the inquiries that are pouring into the office of the association daily are increasing in number every day.

A concession has been secured from the Rio Grande that will be a great factor in the success of the excursion, since the standpoint of the Manti business men. A reduced rate has been granted from Richmond, Elmore, Gunnison, Salina and other towns south of Manti, to Manti and return. This will greatly swell the number of visitors in the metropolis of Sanpete.

Invitations have been extended to Governor Cutler, Mayor Thompson, the county commissioners, and all state, city and county officials to join in the excursion, and many of these officials have already expressed their intention of accompanying the excursionists, and joining in the "Get Acquainted" invasion of the south.

Advice from nearly all of the towns between Salt Lake and Manti are to the effect that large delegations will board the train at each town along the route. Arrangements will be made, however, with the Rio Grande, to afford ample accommodations for all the excursionists, and the executive committee of the association has been assured that all who go on the trip will be made comfortable.
