LOCAL AND OTHER MATTERS.

THE PRESIDENT AND PARTY.—By Deseret Telegraph line we learn that the President and party held a meeting at Payson last night. The speakers were Bishop L. D. Young, Elders B. Young, Jr., and C. R. Savage, and President Geo. A. Smith. The party started this morning at 9-40 for Nephi, holding meeting at Santaquin. They will stay at Nephi over night. All are well.

The returning party addressed a crowded meeting at American Fork last evening. Elders John Taylor, Willard Woodruff, Geo. A. Cannon, Joseph F. Smith and Heber P. Kimball spoke; the meeting was an excellent one. The same Elders met in the School of the Prophets with the members belonging to that place, Lehi, Pleasant Grove and Mountain View.

PROFESSIONAL.—A number of ladies and gentlemen of the Salt Lake theatrical corps have made arrangements to give a series of dramatic entertainments at Ogden, beginning on Monday evening next. Woodmansee's building has been secured and is being fitted up for this purpose.

We recommend them to the consideration of the citizens of Ogden, who will have an opportunity, in their performances, of enjoying some capital theatrical representations. Mr. Margotta leads the company, and all the names "are known to fame."

SALT LAKE "CORRESPONDENTS."—Will somebody help certain parties who seek to shine under the title of "Salt Lake Correspondents," to furnish sensation "whoppers?" They make wonderful efforts to get up items of that kind, and either delight in it, or it pays; probably the latter. Another Salt Lake letter has just been received East, which tells of the "Mormons" threatening war; and says that "many Gentiles feel uneasy." That is the usual style; and people here never know of such things existing in their midst, till the news comes back to them from some point a few thousand miles distant.

ARRIVAL.—Elder Le Grande Young arrived on Saturday from his mission to the Eastern States, in company with Elder Jacob Gates, whose letter appears in another column. Bro. Young's health has not been very good while on his mission. He preached considerably, both in public and in private, and hopes his labors will result in much good. He returns to his mountain home glad again to meet his friends and acquaintances.

THAT BILL.—A dispatch received to-day states that in the House of Representatives this morning, on motion, Cullom's anti-polygamy bill was made a special order for March 2nd. So the previous bill will remain quiet for another three weeks.

"POLAR" BEARS.—Our attention was called to-day through the museum window to the bears of the menagerie amusing themselves on the large bear pen up for their special benefit. The animals were enjoying themselves with a climb, and having a good time.

Further additions were made to-day to the menagerie, of some monkeys from the west.

RECOVERING.—We learn from Ogden that the Honorable F. D. Richards, who has been suffering from a severe attack of inflammatory rheumatism, is recovering. This will be a satisfying intelligence to his numerous friends.

REMOVED.—A dispatch from the East says Gen. Dodge, Chief Engineer of the U. S. R. R. has resigned his position on account of ill health.

The Omaha Herald, which by the-by brings the news as early as it arrived by the wire, says Mr. F. E. Sickles, Engineer of the Omaha bridge, has been appointed to the office vacated by General Dodge. The latter has been very feeble for some months, but hopes to recover by entire exemption from business for a time.

GONE.—Mr. Meeker, General Cameron and Mr. Flak, the committee to whom we referred yesterday, left for the East this afternoon, accompanied by Mr. H. T. West, of the firm of Burnham & Van Schaack, of Chicago, who is associated with them in their movement and arrived last night. They gained considerable information during their stay.

SALT LAKE CITY SEXTONS REPORT FOR FEBRUARY.—Males, 15; females, 10. Of these adults, 8; children, 19. Causes of death as reported: Lung disease, 12; fever, 4; convulsions, 2; old age, 2; child bed, 1; died at birth, 1; paralysis, 1.

Total interments, 25.

A GREAT VIOLINIST.—Ole Bull, the great violinist, is announced to be coming to Salt Lake to give a concert. He is without peer among living violinists; and his performances upon the premier instrument of music have fairly earned for him the unrivaled reputation he bears.

WEIGHING MAILS.—Orders have been received at Omaha requiring that mails carried over the Union Pacific shall be weighed for thirty days from the first of March, so that an estimate can be made to regulate the contract for its transportation.

HEAVY ON THEM.—The Virginia, (M.T.) State Capital Times, of the 21st says:

"We hold an account of \$240 against James M. Ashley at the order of W. S. Scribner, Territorial Secretary, for printing 300 copies of the late Governor's message to the Territorial legislature; \$30 against the latter for other printing, and a small cash item which we will throw in, and sell at 10 cents on the dollar. Who'll buy? We do not exclude either of the gentlemen from saying 'I.'"

Could it be some other folks take warning by the fate of Ashley?

INDIAN ATTACK.—A band of Indians, about thirty in number, attacked Moore's section of men, at their station-house, six miles east of Antelope Station, on the Union Pacific Railroad, at noon, Feb. 21. The men drove them off, and started to Forter station, on a hand car, to report, when a running fight took place, during which one Indian was seen to drop from his horse, and the men felt certain that he was killed. It did not seem to be a regular war party, but they were well armed and had their squaws along. They moved off south after being repulsed.

DANGEROUS PLAYING.—The Sacramento Union of the 25th says: "A day or two since a gentleman discovered a little girl seated on the ground near the railroad company's works across the slough, busily engaged in hitting something with a stone. As he approached her he glanced to see what she was doing, and discovered that she was hammering a torpedo, such as is used upon railroads to give signals of alarm, but fortunately had not hit it hard enough to cause an explosion. She had half a dozen more of the torpedoes in her possession, which she had picked up near the round-house."

Died:
In this city, March 1st, of typhoid fever, Joseph Williams, son of James L. and Harriet Bonding, aged 1 year 7 months and 24 days.

FLORENCE

SEWING MACHINE

In point of labor, there is the same difference between thrashing with a Sall, or using a Threshing Machine, that there is between sewing by hand or using a good Sewing Machine.

Inventive Genius gave to man Things pleasing to the sight, And such as man has often wished Would make his labors light: Then turned to woman with a smile, And made her heart rejoice, For she in every household sings Its praises with her voice.

'Tis the song, 'Tis the song, In every house wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.

When woman toiled for daily bread, From early morn till eve, How many eyes were dimmed with tears, How many hearts did grieve! But now she has her "household pet," And one to whom she'll cling, For labor is a pleasure now, And she can toil and sing.

'Tis the song, 'Tis the song, In every home wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.

In every home, in every land, Its praise is sung aloud, It works a miracle for rich and poor, The humble and the proud; It is the pride of every heart, And every woman's boast, "God bless the Florence Company," Is in every woman's prayer.

'Tis the song, 'Tis the song, In every home wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.

Referring to the above, the Branch office of the Florence Company, beg leave to ask the individuals of those admirers of the Florence, whose orders are now on file at the Salt Lake office. We hope by the last of March, to again offer a full supply of the various styles of these popular Machines.

CHAS. S. HAMMER, Gen'l Agent
The Florence Sewing Machine, has no fancy combinations or other complicated attachments, it has no uncertain wire coils or wire levers. Its manufacture is conducted by a thoroughly RESPONSIBLE COMPANY, and in purchasing a machine you need have no fear of ever being unable to purchase needles and other appendages. The Florence is the ONLY COMPANY that keeps its machines in repair free of charge, no matter when sold or where. Our ambition to have every Florence Machine give entire satisfaction.

The Florence lays no claim to cheapness, we aim at perfect quality. Every machine goes through the company's adjusting room, and must then pass the Inspector's office, before going out to Agents; the least inaccuracy will condemn it.

They are probably the highest priced Machine in the American market, and being built of HARDENED STEEL, by SKILLED WORKMEN, aided by all the appliances that capital can bring to bear, it is offered at a price commensurate with the value of its article, and can be brought about as honest comparison with its numerous CAST-IRON competitors as a watch from Jergensen or Jacon, may be compared with the Nickel or Gold offerings of a Chatham Street Mock Auctioneer.

It is a growing knowledge of these facts that has gained favor so steadily for the Florence Machine, and made them the Universal favorite, wherever prejudice is laid aside and honest comparison made.

That very excellent authority the American Institute, New York, awarded the FIRST PRIZE to the FLORENCE over Thirteen Competitors, and in their report the committee very tersely remarked, "This is better than any of its class known to the Judges."

It may be proper to remark here that the Florence Machine of the present manufacture is vastly improved, and the first of these improved Machines ever offered in Utah are those at the Branch Office at Salt Lake. Among the recent purchasers from this office, we beg leave to refer to the following parties:
