DESERET EVENING NEWS: SATURDAY, NOVEMBER 4, 1905.

Jules Bache, who is one of the most prominent Wall Street bankers, when asked to give his views on the present financial situation, expressed himself as follows:

"There seems to be no cloud in the situation beyond the fact that money is loaning at from five to six per cent. Personally, 1 do not think that even this is a cloud, as it is due to the fact that business is active and that money is circulated in conection with this activity. The difficulty is, that money has been so plentiful during past three years that speculators have become accustomed to low rates, and if the somewhat higher money rate is effectual in preventing over-speculation, that, in itself, is a help to the general situation.

"An advance in values, slow but persistent, and based more on investment purchases than on enthusiastic built speculation, while less profitable to the average stock broker, is far better for the capitalist and financial community generally, and while I believe that money is not sufficiently plentiful to encourage any extended bull speculation, and while it is also true that the genral level of values being fairly high, makes the danger of accident all the greater, I cannot see but that the prosperity which we are now enjoying and which seems likely to continue for twelve months at least, brings with it an increased investment demand for all good securities and consequent higher prices for them."

NINE FUTURE PRESIDENTS ARE NOW LIVING.

"Upon the general doctrine of prob-] far short of the average age, and Tom abilities." said the statistician, "there are now living and 16 years of age or over nine persons who will serve as president of the United States within the next 40 years,

"This is upon the supposition that no man shall be elected president inoro than twice, and that the average of the last 16 years shall be maintained as to

Johnson will only about pass it in 1908. "Of the members of the cabinet only two, Secy. Root and Secy. Taft, seem now to be within right of the presiden-cy, and Mr. Root has not only passed the average age of successful nominees, but in 1916 he will have passed by sev-Senator Beveridge 48 about the SATURDAY SERMONS (Written for the Deseret News by Elbert Hubbard.)

The average man believes a thing first and then searches for proof later-and then most any kind of proof an-swers.

Be yourself and think for yourself and while your conclusions may not be infallible, they will be nearer right than the opinions forced upon you by those who have a personal interest in keeping you in impresses you in ignorance.

The best of life is not to be gotten from the ownership of many things; it comes from work well done.

They call themselves Christians, but Christ opposed war, never took up a collection, accepted no salary, wore no mitre nor robe of office. He did not belong to the superior class and did not even take pains to associate with re-spectable peopls.

There is no excellence, per se, in pov-erty, Rags are no recommendation, and all employers are not rapacious and high-handed any more than all peop

Migh-handed any more than an poor men are virtuous. Women whose hearts are well-high bursting with grief will often be the grovet of the gay men whese souls ", corroding with care-weighted down with sorrow too great for speech-are often those who set the table in a roar often those who set the table in a roar

It is a great thing to teach. I am ower more complimented than when o give yourself in a way that will in-pire others to think, to do to become-that nobler ambitual. To be a good eacher demands a high degree of al-ruism, for one must be willing to sink. o die-as it ware-that others may live

Asserted humility is only egotian turned wrong-side out.

THE EASY OIL. Scott's Emulsion is "the casy oil"-easy to take, easy in action. Its use insures deliverance from the griping and nauseating sensation peculiar to the raw oil. Nobody who has any regard for their stomach thinks of taking cod liver oil in the old way when Scott's Emulsion is to be had. It is equally certain that no one having a regard for their health will accept a cheap emulsion or alcoholic substitute for Scott's Emulsion. It fulfills every mission of cod liver oil and more.

The teacher is one who makes two ideas grow where there was only on

Next to initiative is the willingness to do the right thing when you are told

Wealth comes out of the soil. Adam Smith says there are two factors in the production of wealth: Land and labor. We have the land, and very much of it is practically valueless, because we

haven's the labor to tickle it with a hoe and make it laugh a harvest,

How little we know of the aspira-tions that wither unexpressed, and of the hores that perish for want of the right word spoken at the right time? right word spiken at the light word, as a write, 1 s of thousands and thousands of benutiful blocson's that will never become fruit for lack of vitalization—they dis be-cause they are alone. Thoughts ma-terialize into decisionly wigh some onitalizes by approval.

The eternal paradox of things is re-vealed in the fact that the men who have tolled most for pence, beauty and harmony, have usually lived out their days in trouble: and in several im-stances died a malefactor's death. Jur how much trouble is required in God's formula for a superself. We up one formula for a successful life, no one knows, but it must have a use, for it a always there.

A goodly dash of indifference is a re-quisite in the formula for doing a great work.

We live in wondrous times-evolution is everywhere at work, and at work for better things.

The home is a treat-the place where we retire and shut the world out. Low-ers make a home just as birds make a nest, and unless a man knows the snel of the divine passion, I hardly see how he can have a home at all. He only return a room ents a room.

Kindness is something we receive and have to pass along in order to keep it.

he number of re-elections and number of deaths in office. As Mr. Roosevelt has positively declared that he will not again be a candidate, he may be left out of account. "The doctrine of chances being con-

sidered. Mr. Fairbanks can hardly be set down as the most likely man to be one of the nine presidents of the next 40 years, for Mr. Roosevelt's prospect 40 years, for MF. Roosevell's prospect of serving out his term scenae accelloni, and we have elected to the presidency only three vice presidents. At the close of Mr. Roosevelt's term Mr. Fairbanks will have passed the average age at which presidents have received their first nomination. The average is al-most accelly 50 years.

most exactly 56 years. "When you consider the average age at which presidents have first entered at which presidents have first entered the office, and that of the three who entered after passing 64, two died be-fore the end of the term, ft is evident that the chances that any man now much past 52 will attain the Presi-dency are not very bright. The matter of are cuts down the chances of most men now conspleuous to public life. Bryan will be past the average age in 12 years, and he is the poungest conspleuous Democrat except Mayor McClellan and Gev, Folk. "Judge Parker will last as long as either of these, and his chances for

either of these, and his chances for onother nomination are very small at best. District Attorney Jerome is still

youngest of conspicuous He will not reach the fatal average until 1918, or the extreme limit until 1930 reaches considerably further into Ho the future than almost any one else in

Joseph B. Foraker is already well past the average of successful nomi-nees, and he will have passed the ex-

treme limit before 1916. The chances are that the presidents after 1932 and up to 1944 are now pre-paring for college. It would take a very farseeing man to guess who will be president at any election between 1928 and 1944, or even to name the probable candidate of a single party after

Perhaps schoolmasters and college presidents might make as good guesses as anyone else. A law preceptor at Cclumbia pointed out Theodore Rooge-

BLOOD POISON CURED A Desperate Struggle and How it Ended

Just 27 miles from the classic city of Athens, Ga., is located the thriving little town of Maxey's, the residence of Mr. Robert Ward, who has just been released from the most perilous predicament, the particulars of which he has consented to give to the public. He writes as follows:

Maxey's, Oglethorpe Co., Ga., July 1.

For twelve or fourteen years I have been a great sufferer with a terrible form of Blood Poison which ran into the secondary, and finally it was pronounced a tertiary form. My head, face and shoulders became almost a solid mass of corruption, and finally the disease commenced eating away my skull bases of octangendi, and interpretendents of the forther events absolutely refused to let people see me. I used large quantities of the most noted blood remedies, and applied to nearly all physicians near me, but my condition con-tinued to grow worse, and all said I must surely die. My bones became the seat of excruciating aches and pains: my nights were passed in missery; I was reduced in flesh and strength; my kidneys were tetribly deranged, and life became a burden to me. I changed to see an advictigement of B. B. B. and I sent one dollar to W

chanced to see an advritisement of B. B. B., and I sent one dollar to W.

I chanced to see an advrtisement of B. B. B., and I sent one dollar to W. C. Birchmore and Co., merchants of our pince, and they procured one bottle for me. It was used with decided benefit. I continued its use and when eight or ten bottles had been used was pronounced sound and well. Hundreds of scars can now be seen on me. looking like a man who had been burned and then restored. My case is well known in this county, and for the benefit of others who may be similarly affected. I think it my duty to give facts to the public, and to extend my heartfelt thanks for so valuable a remedy. I have been well over twelve months, and no return of the disease has occurred. has occurred. 1

ROBERT WARD.

More the undersigned, know Mr. Robert Ward, and take pleasure in stat-ing that the facts as above stated by him are true, and that his was one of the worst cases of Blood Poison we ever knew in our county, and that he has been cured by the use of B. B. —Botanic Blood Baim. JOHN T. HART. W. C. DIRCHMORE & CO., Merchants. W. C. CAMPBELL, J. H. BRIGHTWELL, M. D. Botanic Blood Point (B.
