Members of women's clubs throughout the country are being urged to join the Woman's Outdoor league of the American Civic association. Communications have been sent to individual clubs, federations and civic committees of the state bodies, asking their support of the work undertaken by the league. In June, 1904, the American Civic association was formed by the union of the American Park and Outdoor association and the American League for Civic Improvement. At that time the woman's auxiliary of the old organization became the Woman's Outdoor league. The American Civic association is composed of architects, landscape gardeners, park commissioners and most who have the best interest of the different city governments at heart. They are ably assisted by the women of the Outdoor Art league, who have taken as their special work the beautifying of the home and school surroundings. It is due to their interest that school yards have been turned into spots of beauty and that playgrounds have been provided.

"So firmly do I believe this that I have written to President Roosevelt asking him to treat us as well as he would treat the negroes—no better, no worse."

"I think he will think of this after he is inaugurated and has begun the duties of an elected president."

"Why should President Roosevelt speak of women only as wives and mothers? When he speaks of the negroes he refers to them as citizens. He will have to learn as other men will learn."

About her letter to the president Miss Anthony declined to speak at greater length when asked about it by the Press reporter.

"You see, I have only received a formal acknowledgment of its receipt from the president's secretary," she said, "and I would not care to give its contents in full. I have reminded Mr.

Roosevelt of many things he said concerning the rights of the negroes on Lincoln's day, and have made a plea for at least the same rights being extended to us women."

But concerning what the woman suffragists expect of President Roosevelt Mrs. Harper spoke more clearly. When Miss Anthony had finished, she said: "The association has not bothered Mr. Roosevelt during his first term, realizing that he came to office by accident and during a time that was almost as critical as that in which Lincoln sat in the chair."

"But in a few days he will be seated as a president elected by the people. Then the association intends to let him know what the rights of women are. He has spoken often to the wives and mothers. He will soon hear from them."
