

power to secure a just and fair trial to any American citizen, whether native or naturalized, criminally charged in foreign countries and triable in such jurisdiction. There is, however, no provision by existing law to defray the expense of employing legal counsel for the defense of citizens so accused and held for trial or for the employment of agents to attend and report the proceedings. I trust, however, that Congress will provide a reasonable and adequate sum of money in order that a careful supervision of such important trials as may involve the lives or liberties of American citizens may be had and an intelligent report of the proceedings be made, especially where the charge is serious and the accused destitute of means and without friends. The Department will take sedulous interest in the treatment of law-abiding American citizens whilst in foreign countries, and do whatever lies within its power to secure for them the fullest protection of the laws, and, when charged with offenses, all their rights to a fair and a public trial and all legal defenses. No other information of the citizenship of the parties charged or of the crime alleged than is contained in your communication has been received at this department. Due inquiry will be made and all proper steps taken. I am, sir, your obedient servant,

(Signed): T. F. BAYARD.  
NEW YORK, 11.—Once during the day the General arose from his chair and walked firmly across his room and returned without evidence of weakness except a limp, which resulted from injury to the General's limb. Later in the day the General again left his chair, walked into the hall and passed along its entire length to Mrs. Grant's room, which is at the extreme rear of the house. Having reached her apartment, the General sat down in a chair and remained some minutes conversing briefly in response to sallies upon his activity. Then he retired, unaided, to the sick room, where he resumed his chair without evident exhaustion. The General's ear is acute, and he frequently interjects remarks that prove that he has been an intelligent and appreciative listener to talk going on about him.

A few days since Gen. Grant received from the west a remittance of \$2,000 and interest for several years. It came from a man who had borrowed the money from Gen. Grant years ago, and whom the General believed dead.

12.20 a.m.—Gen. Grant had at 11 o'clock a severe paroxysm of coughing, with a spasm of the glottis, which was soon relieved. He is now sleeping. Pulse 72, regular.

NEW YORK, 11.—At 12.30 this morning the jury in the case of ex-president Fish of the Marine Bank, which had been locked up for the night, sent for Judge Benedict, who had not yet left the building, and announced that they had agreed upon a verdict. The court room was relighted and the foreman made known that the defendant had been found guilty on the first, fourth, fifth, eleventh, twelfth, thirteenth, fourteenth, fifteenth, seventeenth, nineteenth and twenty-second counts of the indictment, in which he was charged with embezzling the funds of the bank. Fish was present and received the announcement of the verdict stoically. Sentence was deferred. The prisoner is liable to sentence of from five to ten years' imprisonment on each count.

WICHITA FALLS, Texas, 11.—Eighteen miles of the overland extension of the Fort Worth and Denver road is completed beyond the pastures. The road is now ready to handle all cattle for the trail. The drive will be as large as the last. The action of Colorado and Wyoming will not affect the drive, as the time of quarantine—sixty days—will be spent on the trail in Indian Territory or on the road. Greer county is a natural quarantine ground, and it is expected to be set apart by the general Government for that purpose.

CLEVELAND, 11.—Considerable excitement prevails among the Cleveland physicians and the people who live in the vicinity of Alum Street, by the death of two children under peculiar symptoms. About two days ago a small child of Wm. Russell was taken ill and died. After death the body turned black. Yesterday a second child died of the same disease, and its body also turned black. The symptoms manifested were purging, vomiting and irritation. The health officer and coroner are unwilling to pronounce the disease cholera without a thorough investigation, and will hold a post mortem examination to-morrow.

EAGLE ROCK, Texas, 11.—News reached here to-day of the discovery of rich gold fields in the Santa Rosa mountains, about 100 miles west of Santa Rosa, Mexico. The discovery was made by Davis Brothers, who were working a profitable silver mine in the same range, but have abandoned the silver mine and located claims in the gold fields. The gold lies in quartz, and is described by old Californians to be the richest they ever saw.

LA LIBERTAD, via Galveston, 12.—A treaty of peace has been signed between the governments of San Salvador and Honduras. The latter republic has joined the alliance against Guatemala, and the armies of San Salvador are advancing on the City of Guatemala from various points and are everywhere welcomed by the populace. Many of the disbanded Guatemalan troops are joining the allied forces.

LEE'S SUMMIT, Mo., 12.—The business portion of the town was burned this afternoon. Loss, \$100,000.

NEWARK, N. J., 12.—Ex-Secretary

Frelinghuysen has been in a stupor nearly all day. At 3 o'clock this afternoon, he was raised in bed and took a little nourishment. Since then he has been in a continuous state of stupor and it has been impossible to arouse him.

At 10:30 to-night, Doctor Mercer, one of his attending physicians, said Mr. Frelinghuysen was gradually sinking and would likely die to-night. He may, however, live forty-eight hours.

SPRINGFIELD, Ill., 12.—Death has again interfered with the plans of the senatorial managers. To-day republican John Henry Shaw, of Beardstown, Cass Co., was found dead in his room at the hotel. He had been suffering from heart disease, but had been able to take part in the legislative proceedings. It is believed that Governor Oglesby will to-morrow issue a writ for a new election. Dispatches were sent to republican members to-night, urging them to meet in joint assembly on Tuesday. The Morrison men, however, say no vote will be taken. Speaker Haines says there will be a full meeting during the remainder of the session, and the impression gains ground that the legislature will adjourn without deciding the senatorial question. Every one seems at sea to-night. It will be at least three weeks before the vacancy caused by the death of Shaw can be democratically filled by a large majority.

NEW YORK, 12.—At 9 o'clock to-night Col. Fred Grant, speaking of his father's condition during the day, said that he had coughed a good deal and had altogether a bad day, although the paroxysm of Saturday night had not recurred. The General was very low but Col. Grant did not apprehend the end would come to-night. Four days ago, he said, the General walked without seeming difficulty from the front to the rear of the house, but each day since he had moved about less, and to-day when he walked to the rear of the house through the hall, he stopped to rest before resuming. To be sure twice during this afternoon the General had walked into his office and remained there an hour at one time and three-quarters of an hour at another conversing briefly with those who were near.

Col. Grant stated his father had not at any time been delirious in the sense of impairment of his faculties, but he had been much under the influence of morphia for a week, and, for twenty minutes or a half hour, as the influence was passing off, the General would experience a dreamy semi-consciousness, during which he might, and often did, recur in broken sentences to dreams that had been extremely vivid during the influence of the anodyne. A casual caller in the room might catch such disjointed utterances and regard them as evidence of delirium, but those who were with the General from the time of the beginning of his awakening to the time the influence passed off entirely, would be able to follow and fully understand the context and relation of the General's utterances.

12:30 a. m.—Gen. Grant has been trouble during the later part of the afternoon and the entire evening with an increase of mucous secretion in his throat and has coughed considerably in consequence. He has also suffered from two attacks of choking, which were attended with difficult breathing. These were happily removed by a local application and the removal of the phlegm. He is now dozing in his chair after having slept on the bed for three hours. Pulse 72; temperature normal.

(Signed) GEO. F. SHRADY, M.D.  
The General is not delirious. He receives only eight minims of morphia in two hours. The General's dream has, by letters from many soothsayers, been interpreted to mean that he will live 17 days; as many weeks, and by many others as many years, the 17 being the number of dollars the General had, with which to pay the duty on the satchel he left on the wrong side of the fence. The astrologer, who prophesied good days and bad ones for the General, has thus far been right. It was prophesied if the General passed the 31st of March, he would live until September. That remains to be seen. If the patient lives until summer, Leonard Stanford will endeavor to take him to California in a special car. The probable good results of the Western climate on the General's health has been discussed, Senator Stanford urging that the General would be benefited thereby.

At 10.45 p.m. Dr. Newman left the house and proceeded toward Madison Avenue to take the car. In response to a question, he said: "I expect a very anxious night. Gen. Grant has had a bad day and I think there has been a recurrence of coughing. Dr. Shradly is in the house and the General at this moment is quietly sleeping."

BATH, Me., 12.—A cablegram was received here to-day, announcing the arrival at Dublin to-day of the ship Louisiana, which left San Francisco October 14th, last year. The vessel was supposed to have been lost.

WASHINGTON, 12.—Senor De Peralta, minister from Costa Rica, has received a dispatch from the Costa Rican Minister at the City of Mexico, who says that the Central American trouble is settled. The dispatch gives no details, but Peralta assumes the fact that Honduras having entered the already strong alliance of the States of Costa Rica,

Nicaragua and Salvador, and the determined attitude of the Mexican Government against the Barrios project of compelling a union of the Central American States, have convinced the Guatemalan Government that it is the better policy for them to take no steps toward forcing the States into such a union.

TORONTO, 12.—C. E. Beebe, book-keeper of Shindler & Co., Portland, Oregon, has been arrested here, charged with the embezzlement of several thousand dollars.

WINNIPEG, 12.—While no reliable information can be had to-night from the West, rumor has it that the 90th battalion had a skirmish with Riel's party within thirty miles of Humboldt, and that 80 men were killed. Dispatches just received do not confirm the statement. More troops go West to-morrow and, although this is Sunday, nothing can be seen on the streets, but soldiers and cannon.

Winnipeg, 12.—Later—The news of the battle between the 90th battalion and the half-breeds is not confirmed; but it is still believed on the streets here, though it can be traced to no reliable source. All the wires from the west are controlled by the Canadian Pacific Railroad Co., and telegrams from the seat of war are inspected by the officers in command. Official messages are sent to the government in cipher. Much uneasiness is felt here over the report, although the rumor is discredited by the authorities.

CLEVELAND, 12.—The coroner this morning began the post mortem examination of the body of the little Russell child, whose mysterious death yesterday caused so much apprehension among physicians in view of the cholera symptoms. The examination was of a most searching character. The result has removed all fears. It was found the cause of death was Cholitis, or inflammation of the transverse colon.

NEW YORK, 13.—8.45 a. m.—General Grant slept in his chair from midnight until 6.30 a. m. He was disturbed occasionally by attacks of coughing with expectoration. He awoke expressing himself feeling quite comfortable. Has just taken nourishment without pain and is resting quietly. Pulse 72, temperature normal.

NEW YORK, 2.30 p.m.—Gen. Grant is somewhat improved in his general condition since the last bulletin. The slight soreness of the throat during the morning was relieved by cocaine. The secretion of mucus has diminished and the cough becomes less troublesome. The patient walked without assistance to an adjoining room and sat in the sunlight: pulse and temperature unchanged.

Senator Chaffee left the house at 9.15 a. m. He stated that the disease was spreading. The Senator was with Gen. Grant an hour. There was some pain this morning attending the taking of food. The cancer in the throat was suppurating. The General seemed no weaker than yesterday and during the hour of the Senator's call the patient coughed only once, and then the expectoration of mucus was accomplished without difficulty, as the General was nourished, now, the Senator believed he would survive until the gradual course of the cancerous disease produced death.

NEW YORK, 13.—The employees of the National line of steamships state that the English government has bought the America outright, paying £250,000 for her.

NEW YORK, 13.—Stocks strong and excited. First prices generally  $\frac{1}{4}$  to  $\frac{1}{2}$  higher, and further advances were made in early dealings, the upward movement being aided both by bulls, who were buying for long accounts, and by bears of last week, who rushed to cover at the opening. The excitement subsided after the first half hour, and the market gradually became dull, weak and irregular. Lake Shore was prominent for its decline to 59 $\frac{1}{2}$ , while grangers were pretty well held. At 11 o'clock prices for most of the active list do not differ materially from the opening.

CHICAGO, 13, 10.15 a.m.—The grain market was excited and buoyant again this morning. Speculators discerned signs of war in the fluctuations of English consols, and wheat rose two cents over the closing figures of Saturday, first sales being 90  $\frac{1}{4}$  cents for May. There was another rally to 91, when the price broke to 90  $\frac{1}{4}$ , and now is at the opening figures again. Private cables are very warlike in tone and predict an open declaration of war by England within the next two days, with the possibility that the question might be brought to a direct issue in the Commons this evening. Outside orders came in freely and were accompanied in numerous cases by more bad crop reports as the result of the freezing weather for the past forty-eight hours, but the Afghan war cloud overshadowed all other contingencies and trading was based almost solely upon the issue between Russia and England. The foreign grain markets have responded to the rise here which was a strong sustaining feature. The corn market took even a stronger tone than wheat in comparison. May advancing to 48 $\frac{1}{2}$ , an advance of 2 $\frac{1}{2}$  over Saturday and remains at that figure. Oats sold up to 36 $\frac{1}{2}$  for May; Pork 12.50 for May; Lard 7.05 for May.

CHICAGO, 13.—In the absence of any definite news from London as to the Russo-Afghan situation, wheat fell off from its highest point about 1 $\frac{1}{2}$  under free selling, but there was strong buying to the close and it closed 1 $\frac{1}{2}$  higher than yesterday; 87 $\frac{1}{2}$  cash, 89 $\frac{1}{2}$  may, 91 $\frac{1}{2}$  June.

Corn declined 1 $\frac{1}{4}$  from top figures,

closing steady, 1 cent over Saturday; 46 cash, 6 $\frac{1}{2}$  May, 7 $\frac{1}{2}$  June.

Oats were steady at 35 $\frac{1}{2}$  May, 5 $\frac{1}{2}$  June.

WASHINGTON, 13.—The President made the following appointments to-day: To be consuls of the United States—Charles T. Russell, of Connecticut, at Liverpool, England; A. Haller Gross, of Pennsylvania, at Athens, Greece; Wm. W. Long, of Texas, at Hamburg, Germany. Henri Vignaud, of Louisiana, Secretary of Legation at Paris; Augustus Jay, of New York, Second Secretary of Legation at Paris.

WASHINGTON, 13.—Justice Andrew Wythe of the United States Supreme Court of the District of Columbia, has notified the President that he desires to be placed upon the retired list. Justice Wythe is 71 years of age.

NEW YORK, 14.—Eight five-story houses in 62nd Street, near Tenth Avenue, fell in this afternoon, burying the men employed there. Many of the workmen are believed to be killed, and the cries of the injured are heard beneath the debris.

Up to 4:30 p.m. ten persons had been taken from the ruins. They were seriously, but not fatally, injured, and were removed to a hospital. Gangs of men are at work on the debris, as it is feared that many others of the workmen are still buried in the ruins. The buildings were erected last winter, and were reported by the building department as unsafe. The workmen were engaged in repairing the defects in a house at the time the accident occurred. No mortar was used in the construction of the buildings, the bricks being held in place by sand.

## CORRESPONDENCE.

### SCHOOL MATTERS IN SPANISH FORK.

SPANISH FORK, April 5th, 1885.

Editor Deseret News:

The third term of the school year here in Spanish Fork closed last Friday: During the week a public examination was held in each of the schools for the purpose of presenting methods of teaching and the result of pupils' labor; to classify pupils according to school standing, and to report school work and statistics. In the afternoon of Friday all the schools met in the spacious No. 2 School House, where the students enjoyed themselves in a musical and literary exhibition. Just at the close of the entertainment a note was handed to the principal—G. H. Brimhall, Esq., requesting his immediate presence on urgent business with the trustees of the district at School House No. 1. He started immediately, accompanied by his fellow teachers. On entering the place named grand and fascinating scene presented itself. A huge table, forty feet long, filled with dainties, delicacies and necessities, tastefully arranged welcomed the guests—trustees and teachers. On the rostrum the harmonica band discoursed a lively tune and the members of the intermediate department marched in an orderly circle, clapping their hands as their instructor entered. It was a decided surprise. For a moment Mr. Brimhall stood motionless and apparently dumb. He was overpowered with emotion. Then giving vent to his feelings, he exclaimed "God bless you all. Three cheers for the schools of Spanish Fork!"

Sixty in all sat at the table and did ample justice to the feast thus prepared by the young ladies and gentlemen of the principal's department.

The scene closed with a dance till midnight, but the remembrance of the happy event will remain imperishably. The schools are in a healthy, vigorous condition and their intellectual and moral influence is rising higher and higher.

Respectfully,  
J. A. BEEN.

### A VISIT TO EUREKA WARD.

LEHI, Utah, April 8, 1885.

Editor Deseret News:

On Saturday last, in company with Bishop J. Beck and others, your correspondent made a flying visit to Eureka, Tintic. On the eve of the same day Bishop Beck opened his large rock hall to the public for school and meeting purposes, also for amusements.

The Saints held their first meeting in the hall (which is 20 x 60 feet) on Sunday evening last, and a large number of the citizens were in attendance. The house was seated with chairs, and is well lighted. The Sunday School of Eureka Ward is in a flourishing condition superintended by Brother H. Simmons. The day school is very well patronized.

Since the arrival of Mr. J. Bush, who now has charge of Bishop Beck's business in that region, things about his premises are looking up. We visited his mines and were delighted very much with what we saw, in company with the foreman, Mr. D. Sullivan, and armed with lighted candles, we descended 200 feet down the main shaft, and wandered about in the different drifts which are quite numerous, and behold the beautiful rich silver ore in great abundance. We understand that the prospects of the mine are excellent.

Bishop Beck is well liked in his ward, both by the Saints and the miners, as he spends his money freely and never forgets his workmen.

The weather is fine here, and our farmers are delighted over the recent showers.

JONE.

### Out of a Swamp.

That is where the influence comes from which gives people in the country malarial fever and horrible ague. This influence drags its victims down into the Slough of Despond, and gives them awful visions of the future. Brown's Iron Bitters is the grand tonic which builds up the forlorn system, and raises suffering victims of malaria to the highest enjoyment of complete health. It cures liver complaint and corrects all kidney troubles.

But few articles have reached such a world-wide reputation as **Angostura Bitters**. For over 50 years that they have been the acknowledged standard regulators of the digestive organs. Their success has incited imitations. Be sure you get the genuine article manufactured only by Dr. J. G. B. Siegert & Sons.

### THOUSANDS SAY SO.

Mr. T. W. Atkins, Girard, Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints. Purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year.

Sold at fifty cents a bottle by Z. C. M. I. Drug Store

Hall's Hair Renewer renews, cleanses, brightens, and invigorates the hair, and restores faded or gray hair to its youthful color and luster. People with gray hair prefer to use the Renewer, rather than proclaim to the world, through their bleached locks, that they are becoming aged, and passing on to decay.

## DANGEROUS SUBSTITUTES

FOR

### HORSFORD'S ACID-PHOSPHATE

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta- or P. Phosphoric Acid, which are declared by the highest authority to be **poisonous**. The same preparation also contains Chlorine Acid, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

CALL for "HORSFORD'S," and TAKE NO OTHER. NEVER SOLD IN BULK.
