Sleep

Sleep is nature's rebuilding period, when the energy used by the brain, muscles and organs is renewed. If you lose sleep, your system is robbed of the strength sleep should give. Continued loss of sleep multiplies this loss until you become a physieal wreek. Dr. Miles' Nervine quiets the irritated nerves and brings refreshing, invigorating sleep. Nervine contains no opiates, and therefor leaves no bad after-effects. Ten over two years I suffered untold agones; my filtered unfold agones; my filtereds thought I
was going cruzy. I could not sleep
nor rest at all. I tried different doutors, but failed to find relief. My
hand would ashe all the time; I was
like one drung; could not enceditate
my mind, and was so restless and
worded that sleep was out of the
question. After taking one hottle of
Dr. Miles' Norvine I felt wonderfully
changed. I am now on my third bettle and am salving all the time.

Never Neglect a Bad Cold

Never allow a cold to run its course. Too often its course is towards pneumonia. The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remody. This medicine liquifies the tough mucus and causes its expulsion from the air cells of the lungs, produces free expectoration and opens the secretions. A complete cure soon follows.

This medicine has been in use for almost forty years, which is time enough to thoroughly test its qualities, and no case of a cold having resulted in pneumonia, when Chamberlain's Cough Remedy was used, has ever been reported to the manufacturers, which leads them to believe it to be a certain preventive of that dangerous disease. Price 25c., large size 50c.
