CORRESPONDENCE.

BETTER EDUCATION.

SALT LAKE CITY, Dec. 20, 1886.

Editor Deseret News:

It is an axiom of the Gospel that no person can be saved in ignorance. That an uncultivated person can receive that salvation and exaltation in a future state which the Scriptures teach will be the reward of the righteous, is an idea entirely irreconcilable with the religious belief of the Latter-day Saints. Probably no religious body on earth is as strenuous in insisting that the acquirement of intelligence and mental and spiritual culture is necessary to salvation, as that Church. Hence springs the deep anxiety of its members to have their children educated. It is a matter of profound religious conviction with them.

But there exists an infinitely important necessity of discriminating as to the kind of learning that ought to be imparted to the pupil. Much that is taught under the popular educational systems of the day is unimportant and some of it is simply worthless. Again, in some instances, the text books used by the pupils teach that which is positively false, and in conflict with what God has revealed, and with what science, rightly understood, confirms.

How to obviate the evils of the educational system at present in vogue among our people; how to separate the good from the undesirable among its studies and features; how to secure that moral training which is so necessary, as well as the intellectual development which is alone now being accomplished, are grave problems for the educators of our youth to solve. The best means at present available for solving them are schools modeled after the Brigham Young Academy at Provo. The educational system adopted in that institution has, as one of its basic principles, the proposition that a correct understanding of the Gospel of Jesus Christ embraces the gist of all knowledge in all the departments of science and human thought.

This proposition is true. A person familiar with the teachings of the Gospel, possesses a more or less defined understanding of the fundamental truths of all the sciences. Details may be lacking. Study may be required to grasp the branches of a given science or department of knowledge, or in order that a satisfactory understanding of it may be acquired, or a desirable degree of proficiency in it attained; but the foundation is already in the possession of the student who has first mastered the principles of the Gospel. He knows nothing of any conflict between science and religion. In his mind there can be no such conflict. No problem of science can disturb his faith, because the latter reaches to the root from which science sprung, and to heights to which it has never ascended. He can explain in principle, if not in detail, all the phenomena which the universe presents, and of which science treats. Having an understanding of the power, characteristics and attributes of the Godhead, he has a knowledge of the laws and principles by which the universe was created, is sustained, and its phenomena are produced.

This system of education bids fair to spread rapidly among the Latter-day Saints, and it is to be hoped that it will be universally adopted by them at as early a date as possible. It embraces the most effective antidotes that can be devised for infidelity and immorality among the youth, while providing the most wholesome inducements to diligence in study and rectitude of life. One feature of this system, as set forth so eloquently and impressively by Brother Karl G. Maeser, in his remarks on the occasion of the inauguration of the Salt Lake Stake academy, which requires the pupil to come to school with the double preparation of prayer and study, renders it comparatively superior to any plan of education that could be devised, and which omits the spiritual portion of the pupils' work.

Schools based upon such a system of moral as well as intellectual development as this fit their pupils for entering the higher classes that will, when the circumstances of the Saints are such as to admit of it, be organized and instructed in the Temples built by them for sacred purposes. One of the uses to which those structures are designed to be put, is that of seminaries of learning, in which instruction will be given in the highest, deepest and broadest branches of knowledge. The Saints will become the most learned and intelligent people in the world, but they will attain this status upon natural principles, and by means of their own industry and superior methods of education.

PROGRESS.

PLENTY ABOUNDS—PAINFUL ACCIDENT.

LOA, Freemont Valley, Piute County, December 15, 1886.

Editor Deseret News:

We are rejoicing in plenty in this valley, the crops the past season being bountiful. Abundant facilities abound here for settlers. Fish Lake is being utilized as a reservoir, in addition to the water supply of the streams to irrigate all the valley. The country east of here, viz., Kane, Blue and Graves Valleys, besides numerous other small places, are as yet sparsely settled.

Bishop David Stephens, of Holden, Millard County, who was passing through this valley on the 12th instant, met with an accident at Thurber. He saddled and mounted a somewhat vicious horse, which refused to go, and reared and fell over backwards and broke Brother Stephens' right leg near the ankle. Bishop Blackburn, of Loa, was sent for, who set the limb and on the morning of the 13th he was removed to his nephew's, Albert Stephens, at Loa, where he is doing well and feeling quite cheerful.

CORRESPONDENT.

MORE SETTLERS WANTED.

WILFORD, Bingham County, Idaho, Dec. 17, 1886.

Editor Deseret News:

Those that want homes should come here. This place is located on the north side of Teton River; it is a beautiful location, with plenty of range, grass and timber in abundance 15 to 20 miles of it. We have a river on the north that is called Henry's Fork; on the northeast is Fall River, this stream emptying into Henry's Fork. It is a beautiful stream for floating timber; we have a boom under way which will be in running order this coming spring. We have three saw mills in the forks of Snake River. I will also make a statement about the soil, it is of a gravelly nature, ehe good feature of which is it don't stick to your feet when it rains.

Give us a little time and Wilford will be a shining star in the Bannock Stake. We have got the facilities for doing just what I say, only give us a little more help. We have got a good Sunday school here, and our day school will start in a few days; we have a school controlled by outsiders, but we shall start a school of our own, as the opposition here against any one that is on the Lord's side is very severe ignorance.

JOSEPH JOHNSON.

ST. JOSEPH STAKE CONFERENCE.

Editor Deseret News:

The quarterly conference of the St. Joseph Stake of Zion convened at Pima, Dec. 11th and 12th, 1886. There were present on the stand the Stake Presidency, Bishops and representatives of the various settlements.

After the opening exercises, President Layton said we had met once again in conference capacity to transact such business as was pertaining to our welfare; felt that the hand of the Lord was over His people for good, and urged the people to be more prompt in attending their meetings, etc. Called for the reports of the various wards, which were given by the following Bishops: M. H. Merrill, of St. David, M. M. Curtis of Curtis, John Taylor of Pima, George M. Hawe of Central, Samuel Claridge of Thatcher, John Walker of Layton, P. O. Peterson, of Graham, and Elder D. H. Mathews of Mathews Branch of the Pima Ward, all of which were very encouraging, showing a determination among the people to press forward in the good work, and an improvement spiritually and temporally. After the Bishops' reports, the High Priests' Quorum was reported by its President, and Elder Seth Otterton reported the home missionaries. Seth C. Jones the Y. M. M. I. Associations, Superintendent J. W. Johnson, the Sunday Schools, and James Duke the Elders' Quorum.

The statistical report of the Stake was read by J. East, showing a steady increase in numbers. Secretary Wm. Webb read the report of the Sunday Schools, after which Elders Jos. McRae and Bingham spoke on the first principles of the gospel.

On Sunday, at 10 a. m., the Conference reconvened, and after an interesting session adjourned to meet at Pima, March 19th and 20th, with benediction by Patriarch Wm. McBride.

There are several buildings in progress of erection, with plenty of building material to be had on reasonable terms. Brick can be bought for $8 per 1,000, lime for 75c. per 100 pounds.

JOS. EAST, Clerk.

PERTINENT SUGGESTIONS.

SALT LAKE CITY, Dec. 20th, 1886.

Editor Deseret News:

Please inform me, if you can, whether, from the organization of the Church till now, a period during which in the neighborhood of 100 "Mormon" men, women and children have been murdered, if a single murderer has ever been even lightly punished for killing a "Mormon?" During the period noted "Mormon" women and girls have been outraged and "Mormon" homes, towns and cities have been pillaged, their properties confiscated and temples desecrated. Query, has there ever been any person punished for these enormities? I am pretty familiar with the history of the "Mormon" Church, and I cannot recall a single instance wherein an anti-"Mormon" has been made to pay the penalty of his bloodguiltiness or robberies.

Again: It is pretty generally conceded that most all the troubles—serious and petty—which have arisen between "Mormons" and non-"Mormons," were primarily incited and furthered by apostate "Mormons" and that apostate "Mormons," because of their well-known hostility to the "Mormon" people and Church, have been largely employed by Federal officials as deputy marshals, commissioners, jurors, judges and registrars of elections, petty postmasters, spotters, witnesses, etc. It is also understood that in a great many instances these subordinate officials have very often rendered themselves obnoxious, offensive and oppressive, by doing all in their power to annoy and persecute the "Mormons," and to cover their faith with odium in the minds of their masters and others. And still the zealots and satraps insist that the "Mormons" shall obey the law as construed by the chameleon courts of Utah and administered by methods the most odious, oppressive and partisan.

ANON.

Picked From the Park. — We glean the following from the *Record* of the 18th:

The Ontario bullion shipment for the week was 37 bars, containing 20,801 fine ounces of silver.

The Daly bullion product from the Marsac mill for the week was five bars, containing 5,407 fine silver ounces.

For the ten days ended last Monday the Mackintosh sampler received 338,460 pounds of Ontario ore, 235,920 pounds of Daly and 26,030 pounds of Sampson ore; total 600,410 pounds.

The *Record's* weather prophet, James Morey, predicts a mild winter. Recently he saw a chip-munk bask in the sunshine of his tunnel, and he says that is a sure sign of a mild winter.

Probably the City Dads will enact an ordinance compelling property owners to keep their sidewalks free from snow and ice, by next July. It takes a long time for the corporate body to get back to working order after flying the track.

Jim Pett, who brutally assaulted two young ladies between Brigham City and Corinne last August, and was sentenced at Ogden Tuesday by Judge Henderson to a term of six years in the Pen., is a rascally old Parkite and was arrested here several weeks ago for his last offense.

Sam Thornton, a local roustabout, is training for a slugging contest with John L. Sullivan or one of the combination. He thinks he can scare up enough strength and science before next Tuesday by dieting himself on raw beef, matches, flattery and the like. The boys will have some fun with him if his courage does not fail him.

Red Star Cough Cure is the only safe remedy that can worst a full grown cold.

THE CHICAGO AND NORTH-WESTERN RAILWAY.

THE BEST ROUTE AND SHORTLINE BETWEEN

Omaha, Council Bluffs AND Chicago.

The only line to take for Des Moines, Marshalltown, Cedar Rapids, Clinton, Dixon, Chicago, Milwaukee, and all points East. To the people of Nebraska, Colorado, Wyoming, Utah, Idaho, Nevada, Oregon, Washington and California it offers superior advantages not possible by any other line.

Among a few of the numerous points of superiority enjoyed by the patrons of this road between Omaha and Chicago, are its two trains a day of DAY COACHES which are the finest that human art and ingenuity can create; its PALACE SLEEPING CARS, which are models of comfort and elegance; its PARLOR DRAWING ROOM CARS, unsurpassed by any, and its widely celebrated PALATIAL DINING CARS, the equal of which can not be found elsewhere.

At Council Bluffs the trains of the Union Pacific Ry. connect in Union Depot with those of the Chicago & Northwestern Ry in Chicago the trains of this line make close connection with those of all Eastern lines.

For Detroit, Columbus, Indianapolis, Cincinnati, Niagara Falls, Buffalo, Pittsburg, Toronto, Montreal, Boston, New York, Philadelphia, Baltimore, Washington, and all points in the East, ask the ticket agent for tickets via the

"NORTH-WESTERN"

If you wish the best accommodations. All ticket agents sell tickets via this line.

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the world—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of complete DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and—between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.
