MINING, BUSINESS AND STOCKS

PLENTY OF MONEY TO BACK SMELTER

Samuel Newhouse Says Fink Process is to Help Small Mines.

WILL BE POOR MAN'S SCHEME

Will Not Seek to Tear Down Big Corporations, but Build Up Small Mining Properties.

"I am not seeking to tear down any corporation, I am much more in faver of building them up. The Fink smelter plan is a poor man's scheme. It will seek to build up the small properties and help the small mines throughout the country," declared Samuel Newhouse this morning. He has just returned from New York, where he declares he is given assurance of unlimited capital with which to promote the Fink smelter. This morning he asserted he was unable to give out any definite information as to his plans,

While in New York, Mr. Newhouse says that many people declared their willingness to become interested in the Fink smelter process, and any amount of money necessary to place the company in a position to handle orders for new smelting plants was promised. Within a few days, as soon as Edward

Fink, the inventor of the new smelter process, returns from the east, operations at the plant at Garfield will be resumed and experimental work carried farther than in the past. Among the first ores to be tried probably will be tree from the Good Surings district

the first ores to be tried probably will be those from the Good Springs district in Lincoln county, Nevada.

The work on the zinc ores from Good Springs will be to gain the lead and silver values which are rejected by the Iola, Kan., smelter. Mr. Newhouse is interested in the Shenandouh property at Good Springs, and it is his intention to test this ore.

WILL TRY THE ORE.

When asked about experiments with ore, Mr. Newhouse this morning

said:
"I own property in the Good Springs district and will undoubtedly have some of the ore tried out by the Fink smelter. I have made no definite plans as to this yet. Of course that will be more of a private matter."

Zine was discovered at the Springs four years ago, before the appearance of the Clark road, but as soon as the line placed transportation facilities at the doors of the shaft house, the output grew rapidly until more ties at the doors of the shaft house, the output grew rapidly until more economical measures were deemed necessary to insure greater profits. Altogether about 17,000 tons were shipped out of the camp before it was decided to establish a reduction mill at home. Several processes have been talked of, but these were given up to await the outcome of the Fink smelter. The camp is now producing about 16 tons or ore a day.

STOCKS SHOW IMPROVEMENT.

Fair Day for Mining Exchange-Tintie Securities Prominent.

For more than a week Tintle secur tock market and again this morning they were the feature of the session Tintic Central showed the greatest ac-tivity and one lot of 25,000 shares sold for 15 cents cash. The closing price for 10,000 shares was 14½ cents. Tintic Combination which had a heavy run yesterday was weaker today and there was but little demand for the stock. On the regular market 25,000 shares of Tintle Central changed hands, while on the open board 19,000 shares were sold. Utah Consolidated which has had

Utah Consolidated which has had some good showings in the drifts on the 300 and 150 foot levels had quite a run this morning and several blocks of stock were sold at prices ranging from 20% to 21% cents.

Iron Blossom was again a lively seller today. Prices in this stock were up and it sold readily above \$2.55.

More stocks appeared on the curb market than have been seen for several days. Unitah Treasure Hill sold at 191% and 20 gents and Bingham Standard Copper at 151% cents.

DEFEAT BIGELOW CONTENTION

Court Sustains Lower Tribunal in

UPHOLDS COMPANY

IN CASTING VOTE

Holds Company Has Not Violated Michigan Anti-Monopoly Law or The Sherman Trust Act.

Cincinnati, O., Feb. 2.-The claim of Alfred S. Bigelow that the attempt of the Columet & Hecla company to vote a large block of stock in the Osceola Consolidated Mining company, a year ago, was an act in restraint of trade, was denied by the United States circult court of appeals today, the decision of the lower court in dismissing his suit being affirmed.

Bigelow, who is a resident of Bostor and a stockholder in both companies, brought two suits, but they had been dismissed by Judge Knappen, of the Western district of Michigan, and his decision to that effect was today sustained. Justice Horace H. Lurton read the decision of the court of appeals, which was very voluminous and exhaustive. It was held that no unlawful act or intent had been shown; that the proposed voting of Osceola stock, legally held by the Calumet & Hecla, was strictly according to the laws of Michigan, and that neither the Michigan anti-monopoly law nor the Sherman anti-trust law had any bearing on the present case. In brief, the act complained of was an attempt to handle two contiguous mines in a manner for mutual benefit and in no sense had it here whom declared the court that and a stockholder in both companies mutual benefit and in no sense had it been shown, declared the court, that there was any restraint of commerce between the states or any act tending to a monopoly in a product of the

SOUGHT AN INJUNCTION.

The specific complaint was that one Michigan mine proposed to control a second Michigan mine contiguous to it and the specific relief sought was an in-junction against the exercise of the power to vote the block of stock that would tend towards such control. The court declared that there had been produced no evidence of unlawful act or mlawful intent and affirmed the action of the lower court in dismissing both suits brought by Bigelow to enjoin the Calumet & Hecla from voting its stock at the meeting of the Oscoola company,

CONCENTRATES.

M. R. Evans and W. J. Craig have just acquired a bond on property at the camp of Chafey, Nevada. Mr. Evans has returned from the camp and declares that it presents some excellent opportunities for investment. The peo-ple, he declares, are more than willing to meet investors half way.

Salt Lakers interested in Chafey proporties held a meeting last night at which the building of a large custom mill was discussed. Many of the persons interested are going to Los Angeles Seturday with the Elka' excursion and during their visit in California they will secure information relative to machinery and other matters.

The Silver King Coalition Mines company has filed an answer to the action filed against it by the Silver King Consolidated company. The answer admits that mining was carried on in ground owned jointly, but declares that on account of conditions, the profits of the work were eaten up. Part of the work were eaten up. Part of the work was done by the old Silver King company and its successor, the present company, contends that it has nothing to do with its affairs.

Articles of incorporation for the Wilson Comsolidated Mining company of Sait Lake City have been filed with the secretary of state. The concern is capitalized for \$6,000, with shares at one cent each. The stock is fully paid up by the taking over of claims in the Clifton and Willow Springs mining district in Toocle county. The officers and Cityde Wilson, president; Wilson Secretary and treasurer. The officers with M. M. McLaughlin and William J. Wilson secretary and treasurer. The officers with M. M. McLaughlin and William P. Wilson, form the directorate.

MARKET ACTIVE **CLOSING STRONG**

New York, Feb. 2 .- A light opening lemand for stocks today advanced prices throughout. Gains were mostly restricted to moderate fractions, but Denver & Rio Grande, Brooklyn Rapid Transit and Amalgamated Copper rose 1 and Southern Pacific, Chesapeake & Ohio, Kansas City Southern and Anaconda %, Consolidated Gas declined %,

A growing demand for many of the industrial specialties was followed by some buying of the Standard railroad stocks, led by Union Pacific, which crossed 178. Most of the speculation was confined to the industrial division and the raffroads did not hold their advances well.

Renewed buying after a slight reaction carried prices rather higher than before. The demand died out at the higher level. Boston, Feb. 2.—The local wool maket is awalting the arrival of the necilip as what little remains of the old being offered at top prices. Montar half-bred combings have sold at 25 while other wools are corresponding while other wood are contents that strong.

It is reported that speculators have withdrawn from the west, after contracting for nearly 20,000,000 pounds of the sheep. It is claimed that Montan growers obtained 20c, for their unshear ed wool. Stearing is actively progressing in Arizona and is to 19c, is bid wit growers holding out for 20c.

Pulled wools are strong and fairly at tive but the foreign market is duil. ST. LOUIS.

CHICAGO.

Chicago, Pob. 2,—Liberal realizing sales brought out by yesterday's sharp bulge in prices caused weakness in the wheat market here today. An advance of \$\frac{1}{2}\$ to \$\frac{1}{2}\$ d in Liverpool was insufficient to steady the market, Prices at the start were \$\frac{1}{2}\$ lower to \$\frac{1}{2}\$ higher, with May at 1.60% to 1.69% \$\frac{1}{2}\$ Ligher, Early in the day May sold off to 1.68% \$\frac{1}{2}\$ Lower as a falled to derings of corn from the country had a depressing effect on the corn market. May opened unchanged to a shade lower at \$21\frac{1}{2}\$ to \$65\frac{1}{2}\frac{1}{2}\$ and declined to \$33\frac{1}{2}\$.

Outs were easy, with wheat and corn. May opened unchanged to \$\frac{1}{2}\$ lower, at \$22\frac{1}{2}\$ to \$24\frac{1}{2}\$ and sold off to \$18\frac{1}{2}\$.

As a result of the bearish showing of the mouthly statement of contract weeks in story here made public late yesterday, holders of provisions were inclined to take profits. Prices at the opening were unchanged to \$\frac{1}{2}\frac{1}{2}\$ lower.
