

## MARTIN SCORES THE RAILROADS.

Secretary of National Live Stock Association Addresses Wool Growers.

## GOES FOR SECY. HITCHCOCK.

says No Relief Can Be Expected While He Stands at the Head of the Interior Department.

The Utah Woolgrowers' association held its annual meeting yesterday afternoon, in the Salt Lake office of President Jesse M. Smith. Most of the time was occupied by addresses from Secy. C. F. Martin of the National Livestock association, and Fred Johnson of the National Woolgrowers' association. Both are old newspaper men, and are well known in national livestock circles. They have been to Portland, Ore., in the interest of their respective associations, which meet there early in the coming year. After the addresses, the annual election resulted as follows:

President—Jesse M. Smith, Layton, Utah.  
Vice President—Heber A. Smith, Draper.  
Secretary—C. F. Martin, Bountiful.  
Treasurer—John C. Sharp, Salt Lake City.

Executive Committee—W. D. Candler, Mt. Pleasant; J. H. Moyle, Salt Lake City; J. S. Oster, Nephi; County Vice Presidents—Salt Lake, B. A. Meek, Draper; Boxelder, J. S. Olsen, Brigham City; Davis, Starns, Hatch, Woods Cross; Carbon, R. G. Miller, Price; Piute, J. C. Whitaker, Circleville; Utah, Wm. Kirk, Lander; Juab, J. S. Oster, Nephi; Sevier, Alma Magley, Monroe; Tooele, James Wrathall, Grantsville; Rich, John Nebeker, Laketown; Sanpete, Louis Anderson, Mant; Wasatch, J. E. Austin, Heber; Preston, Blair, Ogden; Summit, John Peckett, Henriette; Washington, H. T. Allen, St. George; Morgan, James Kippen, Porterville; Uintah, S. R. Bennett, Vernal; San Juan, Nielsen, Bluff; Iron, Milford Day, Panguitch; Cache, Isaac Jorgensen, Hyde Park; Kane, H. J. Meeks, Orderville; Wayne, to be supplied; Garfield, Theo. Sevey, Panguitch; Millard, C. W. Wattle, Kanab; Beaver, C. D. White, Beaver; Emery, J. W. Seely, Orangeville; Grand.

President Smith appointed these committees:

On Resolutions—W. D. Candler, J. H. Moyle, J. S. Oster, John C. Sharp, E. H. Callister.  
On Constitution and Finance—Heber A. Smith, J. S. Oster, J. C. Sharp, J. H. Moyle, J. N. Oster.

The president was instructed to send circulars to members of the association who are in arrears, and in case they do not settle within 60 days thereafter the finance committee was instructed to take legal means to compel settlement.

MR. MARTIN'S ADDRESS.

Secy. Martin made an interesting address, the idea of which was to secure united action among all livestock owners against aggression of tacking interests and railroads, the hostile attitude of the interior department at Washington, for the furtherance of congressional legislation favorable to livestock interests and action in sympathy with the project among livestock men to establish an independent packing company with \$1,000,000 capital. Mr. Martin called attention to the fact that Congress will not pay attention to individuals. To command attention at Washington an organized movement is essential. If national organization of the part of livestock growers be abandoned, manufacturers will secure a repeal of the tariff laws, and this will mean a loss of \$8,000,000 to the title and wool men; sheep will be reduced to 65 cents per head and on every beef slaughtered there will be a loss of \$1.25 to the grower. Mr. Martin expected the backwardness of livestockmen in coming forward with dues and subscriptions, as money is much needed to further the legitimate ends and purposes of the livestock interests. Steel and iron men, he said, pay up subscriptions before leaving a meeting. If livestock men don't hang together they might as well retire from business.

RAILROAD TRANSPORTATION.

Mr. Martin then called attention to the new policies in railroad transportation, which he said were damaging to stock interests. For instance, engines hauled loads of stock as soon as they could be picked up, and the time was lost. Now, however, an engine does not start out until it has a train that corresponds to its capacity. This lengthens out the time in a way more or less disastrous to the interests of the shipper of live stock. Moreover, rates have been raised, as for instance where they were \$119 they are now \$127 per car. The speaker then detailed the action of the great packing interests raising or lowering prices according as they saw fit. For instance, No. 1 meat sold in Chicago at \$8.50 per hundred a year ago. Today the price is \$9.50. A year ago brought \$3.25 to \$4.50 per hundred; today the figures are \$1.50 to \$3.00, although the price of mutton chops remain unchanged. A year ago brought \$7 to \$7.50; today they bring \$5.30 to \$8.50, yet retail prices in pork remain unchanged. The losses fall on the stockman. "Will you all still and allow the packing trust to fix prices to your detriment?" was urged.

"The decline in prices means a loss of \$500,000,000 in cattle, \$500,000,000 in sheep, \$120,000,000 in hogs since July, 1902."

"Litigation will not help, for the packers will find a way to get around the courts, just as the Northern Securities company has managed to evade the law if the U. S. Supreme court sustains the U. S. court of appeals at St.

## WON'T BE FOOLED INTO DOING SOMETHING ELSE.

"After what I have taken and done it is no wonder I am glad of an opportunity to recommend what cured me to my friends."

I suffered intense agony from gravel for nearly fifteen years. For five and six weeks at a time I could not work, the pain was so great. My kidneys and bladder were in horrible shape. My back ached so I could not sleep. I had no appetite at all. I tried about every doctor in Syracuse but they failed to help me.

I used nearly all the advertised medicines without any benefit. This was my discouraging condition when I began the use of Dr. David Kennedy's Favorite Remedy. I used only four bottles and I consider myself cured. I have no backache at all, no pains in passing urine, my appetite is splendid.

It helped me from the start and I gained twenty pounds in weight. FRED HOFFMAN, 1311 Lodi St., Syracuse, N. Y.

Dr. David Kennedy's Favorite Remedy is a vegetable help to the stomach and bowels in performing their duties properly. It overcomes and permanently cures dyspepsia, indigestion, biliousness and rheumatism. It is absolutely harmless and purely vegetable. It contains no narcotics or minerals in any form, no dangerous stimulants, no mercury or poisons, and is the only kidney medicine that does not constitute.

Dr. David Kennedy's Salt Rheum Cream cures Old Sores, Skin and Scrofulous Diseases. 50c.

GOES FOR SECY. HITCHCOCK.

Mr. Martin then took up the matter of forest reserves, which are being laid out, he said, by the interior department with a view to absorbing grazing lands that wealthy eastern parties may be hunting grounds. "There can be no relief while Mr. Hitchcock is secretary of the interior," declared the speaker. "With the increase of these forest reserves the grazing domain for sheep is steadily restricted, and the result will be that you must sell your stock, or migrate to another state. How lack of judgment if not of ordinary sense may be exercised in laying out reserves, is evidenced at Pocatello where the people of Idaho are robbed of \$2,000,000 in the withdrawal of valuable grazing lands from the public domain under the plea that it is for a watershed for Pocatello. The water needed could be pumped from the Snake by electricity. Get up and do something to protect your ranges. Decide what you want and then do it."

THE USE OF SHODDY.

Secy. Martin reviewed the up-to-date unsuccessful attempt of the National Livestock association to secure congressional legislation compelling the manufacturers of shoddy cloth to stamp the same with a mark showing the percentage of shoddy in it. The use of shoddy has robbed the woolgrower of large sales of wool, but owing to the efforts of the friends of shoddy at Washington, the proposed bill had been put to sleep. However, agitation over the matter will be renewed this winter. The speaker referred to the fact that summer grazing lands decide the number of sheep that growers can graze, as the animals can not be kept on the deserts in the summer time. There is an incentive for a move against the interior department with a view to stopping its encroachment on the grazing domain. It was claimed that the railroads will lose in the end by discriminations against the sheepmen, inasmuch as such a policy tends to reduce the wool freights, and the freight on the wool is one of the main reasons why the sheepman is unable to compete with the wool from Australia and New Zealand.

PORTLAND MEETING.

Fred Johnston spoke briefly largely along the line advanced by his predecessor, stating that the National Wool Growers' association would meet at Portland also, and just before the Livestock association meeting. Important action would be taken by the wool men looking toward the advancement of their interests.

THREE-HEADED OCTOPUS.

President Smith said the wool men are suffering from a three-headed octopus, the geological survey, the forestry department and the interior department's alleged experts. These so-called experts are a lot of nincompoops who are a nuisance rather than a help, and who pretend to know what this region needs more than people who have lived here all their lives. Mr. Smith read a letter and an address prepared by Mr. Martin and advocating the measures proposed for relief of stockmen and as set forth in Mr. Martin's address. They were referred for amendments to a vote of thanks was tendered to Messrs. Martin and Johnston.

## OREGON CONVICT KILLS TWO MEN.

J. Frost, Alias Harry Egbert, Shoots J. G. Saxton, Well Known Attorney, and Jack West, Rancher.

## HE MADE GOOD HIS ESCAPE.

Fired on Them from House—Saxton Was Shot While Carrying Water to Wounded Companion.

Portland, Ore., Oct. 6.—A special to the Oregonian from Burns, Ore., says: In an attempt to arrest an escaped prisoner named John Frost, alias Harry Egbert, who is wanted in Douglas county for burglary, John G. Saxton, a well known attorney of Burns, who was acting as special deputy sheriff, and Jack West, a rancher, were both killed by Egbert on Oct. 4.

They came upon Egbert in a ranch-house in the Wild Horse valley, 125 miles south of Burns. Egbert and his wife were alone in the house at the time. From the footprints and condition of the house it is supposed Egbert recognized Saxton and West as they came up and opened fire from behind a corner of the building. West was shot in the back, evidently at almost the first fire, from which he died. Egbert went in the house, followed by Saxton, and fired a shot at the attorney. Egbert had a rifle and Saxton a revolver, and with these weapons it appears they fired at each other through a thin board partition. Saxton was shot through the right shoulder, but kept up the battle by using the revolver in his left hand. Egbert, it is supposed, finding the fight too hot fled up stairs. Saxton at this juncture seems to have gone out in answer to a call for water from West for he left the house and made two trips to a spring. As he turned away from West he was shot from a upstairs window of the house and mortally wounded. Egbert then made his way to a ranch five miles distant, where he demanded a horse at the point of a gun. He has been increasing since Jan. 15, 1885, for the murder of Lorenzo Sutli. He was convicted June 5, 1885, of the murder and sentenced to be hanged July 12. He succeeded in gaining a new trial. About the time the trial was to begin Jones was taken with a stroke of paralysis and has never been able to leave his bed since. Time and again the case was set for trial, but a continuance was always granted. Jones was 53 years old.

DIED IN JAIL.

Had Waited Eighteen Years to be Tried.

Oakland, Cal., Oct. 6.—George Jones, an aged prisoner, who has been in the county jail for 18 years awaiting trial, died a few moments before 12 o'clock today. He had been incarcerated since Jan. 15, 1885, for the murder of Lorenzo Sutli. He was convicted June 5, 1885, of the murder and sentenced to be hanged July 12. He succeeded in gaining a new trial. About the time the trial was to begin Jones was taken with a stroke of paralysis and has never been able to leave his bed since. Time and again the case was set for trial, but a continuance was always granted. Jones was 53 years old.

Dynamites Leave No Trace.

Melena, Mont., Oct. 6.—There have been no developments in the dynamite outrages on the Northern Pacific today. After thorough investigation of the explosion at Birdseye last night the detectives are convinced that the explosion was caused by a dynamite bomb placed on the track and exploded by the explosion of the train. In a light rig and left in the same manner. Owing to a heavy rain after the explosion the bloodhounds could follow the trail only a short distance.

Lighting Kills Two.

Kansas City, Oct. 6.—Lightning struck a tent in the Rock Island railroad camp at Eleventh street and Muncie boulevard in Kansas City, Kan., during a violent storm tonight, killing two men and injuring others and shocked all the other occupants of the tent, about 15 in number.

The dead: Joseph Franklin of Wichita, Kan., 29 years of age; James Logan, formerly of Fort Leavenworth, Kan., 35 years old.

The injured: Edward Glassner, 29 years old; John Carter, 24 years old; John Murphy, 43 years old; Patrick Gillen, 35 years old; Edward Coons, 21 years old. The injured were taken to the hospital. The other 80 men in the camp were not hurt.

Mob Lynches a Negro.

Sheridan, Ark., Oct. 6.—Ed McCullum, a negro, was taken from the county jail here early this morning by a mob and tied to a tree in the courthouse yard and shot to death. The negro shot and seriously wounded Constable C. H. Field of Lewis county last week while the officer was attempting to arrest him.

A Phenomenal Gold Strike.

Silver City, N. M., Oct. 6.—There is a great deal of excitement in Silver City and the surrounding country over a phenomenal gold strike at Gold gulch, 19 miles northeast of Silver City. The strike is of peculiar quality and has not yet been disclosed, although some experienced miners maintain it is telluride. The discovery is said to be a phenomenal one, as high as \$500,000 per ton are reported.

Christian Scientists Win.

Concord, N. H., Oct. 6.—A decision of the supreme court today in favor of the defendant in a suit brought against Rev. Irving T. Tomlinson, first reader in the Christian Science church here, is taken as establishing the right of the Christian Science doctors to practice in this state. The complainants held that Mr. Tomlinson's treatment of a case of appendicitis by Christian Science methods was malpractice. The lower court decided against the complainants, and today the supreme court overruled exceptions taken to that finding.

Mrs. Molinoux Got a Divorce.

St. Paul, Oct. 6.—A special from Sioux Falls, S. D., says: One of the attorneys of Mrs. Roland Molinoux of New York said tonight: "I gave you my word of honor that a decree of divorce was granted Mrs. Molinoux some time ago." No information as to when or where the decree was granted could be obtained, nor could the name of the judge granting it be ascertained.

For some reason these facts are being guarded with the utmost care. It has been stated that each of the nine circuit judges of the state has denied granting a divorce to Mrs. Molinoux.

The Massachusetts Badly Damaged.

New York, Oct. 7.—It has been found at the New York navy yard, that the battleship Massachusetts, which ran on the rocks near Bar Harbor, while on her way to Oyster Bay for the recent naval maneuvers, not only broke some of the plates in her forward compartment,

## Breath Ceased During Fainting Spells.

Revived by Artificial Respiration.

## Dr. Miles' Heart Cure Cured Wife.

Fainting spells are a sure indication of a weak heart. The heart cannot do the work required of it and stops beating. If it ceases for more than a minute death ensues. Weak hearts must have aid from the outside, such as Dr. Miles' Heart Cure alone can give. It is a heart tonic. It regulates the pulse, enriches the blood and improves the circulation.

For two years my wife was in very poor health. At first her back troubled her a great deal, then she had shortness of breath and irregularity of the periods. The pain in her back grew worse and extended to the connection of the spinal cord at the base of the brain and from there to her heart. She had two very bad fainting spells, when the pain in her heart was most intense and her breath stopped. The second time we had to resort to artificial respiration to revive her. We were advised to give Dr. Miles' Heart Cure a trial and I bought a bottle and began giving it as directed. We found the doses were too strong, so I gave her half-doses three times a day, and she began to improve. After she had taken two bottles the pains were all gone and she was feeling like a new woman. She continued the Heart Cure in small doses for several months and is now enjoying better health than for the past six years."—Mrs. J. Thompson, Dept. County Clerk, Kansas, P. O. Cal.

ments, but seriously damaged the after end of her head.

The ship's "heel" a large steel casting, was broken, and a new one probably will have to be cast. The work is likely to require several months.

RESULT OF A COLLISION.

Two Men Are Dead and Two Are Seriously Injured.

Eureka, Cal., Oct. 6.—Two men dead and two injured, but not seriously, is the result of a collision between an extra and a regular freight train on the San Francisco and Northwestern railroad near the Fortuna ferry crossing yesterday.

THE DEAD.

Charles Still, fireman of the extra, Henry Lowe, brakeman on the freight.

THE INJURED.

Alexander Hutchin, brakeman on the freight. Peter Clark, conductor on the freight. Most of the crews saved their lives by jumping. The collision was due to a misunderstanding or ignoring of orders. Conductor Holey says he received orders giving him the right of way, while Conductor Clark maintains that he had orders to take the siding at Newberg, and that he was not aware of the freight train being on the siding.

CONDITIONS IN IRELAND.

Agnes McDonald's Actions Made Her a Terror to Neighborhood.

Indianapolis, Oct. 6.—James Carrigan of Cleveland and Thos. Lynch of Indianapolis testified in the Lynchbaum case today as to conditions in Ireland. Lynchbaum told the stand this afternoon and told his story of his fight with his father-in-law, Agnes McDonald, for striking whom he was convicted of assault with intent to kill and sentenced to prison for life.

Lynchbaum said on the stand that the acts of Agnes McDonald had made her a terror to her tenantry, and at a secret meeting of the Irish Revolutionary Brotherhood of the island of Achill, of which he was an officer, it was decided to burn her barns and frighten her back to England.

The man to start the fire was chosen by lot, but he never knew who it was. This meeting was held in October, 1884. He said four days after the alarm of fire was sounded and the tenantry turned out in the night to save with one hand and destroy with the other. Agnes McDonald was the excitement got from the keys to the horse and cattle barns to release the imprisoned animals. When he returned then she was going toward the sheep barns and he ran to warn her not to go too near.

Lynchbaum said she turned on him with a revolver and shouted: "This is your work" and tried to shoot. He knocked the revolver aside, and she struck him in the face. He then hit her with his clenched fist, and she staggered toward a group of peasants who attacked her, striking and kicking her severely. Lynchbaum said he struck her in accordance with the orders of the brotherhood meeting that she be punished enough to drive her off the island.

FUSIONISTS AGAINST GROUT.

They Select F. W. Henrichs as Candidate for Comptroller.

New York, Oct. 6.—Frederick W. Henrichs of Brooklyn was selected by the fusion conference committee tonight for the fusion candidate for comptroller, to succeed Edward M. Grout. No candidate for president of the board of aldermen was selected, adjournment being taken for the purpose of the motion to select was made by Timothy L. Woodruff, and was adopted unanimously.

Mr. Grout, when informed tonight that Mr. Henrichs had been agreed upon as the candidate for comptroller on the

fusion ticket, issued the following statement: "I do not believe that Mr. Henrichs can accept the nomination. The first man I met after the newspaper had published the news of the proposed indictment of me by the Democratic party and my statement of the unconditional terms upon which I could accept was Frederick Henrichs. He thought that I was right, and his every expression and opinion was precisely the same as mine."

"In view of the conversation, I do not believe Mr. Henrichs will feel that he can accept the nomination."

FOUR MEN KILLED.

In Head-on Collision on the Kansas City Southern.

Stilwell Springs, Mo., Oct. 6.—Four men were killed and two injured in a head-on collision between a double-header freight train and an extra engine four miles north of here tonight on the Kansas City Southern road.

DEAD.

Engineer's Worrell and Penrose, Men. Ark. Fireman Hamlin, Stilwell Springs. Fireman Rogers, Pittsburg, Kan.

The three engines were demolished. Traffic was delayed several hours.

Robberies in Honolulu.

Honolulu, Oct. 6.—Several robberies have recently occurred on the road between this city and the Honolulu plantation. On the first inst. a Japanese was shot and seriously wounded while resisting a highwayman. The next night another Japanese was killed by a Chinese robber, who rode a bicycle. This murder was captured by the police, who also arrested three of his associates. Several burglaries and other crimes have been traced to the three men and a continuing outfit was found at their headquarters.

International Sympathetic Strike

Pittsburg, Oct. 6.—An international sympathetic strike, affecting the 60,000 organized bridge and structural iron workers in the United States and Canada, is scheduled to be called in a few weeks. Pittsburg will contribute 3,000 men, completely tying up all bridge and structural work here and throwing out of employment thousands of men of other crafts in this city.

The strike is to be in sympathy with the first of the New York members against the Cornell Construction company, members of the big combine.
