

FINANCIAL PROBLEM BEGINS TO LOOM UP

In Few Years Aldrich-Vreeland Act Will Expire and Something Must Be Done.

IF NOT, IS DANGER AHEAD

Pres. Taft Inclined to Look With Favor on Proposition to Create a Central Bank.

Washington, Sept. 26.—In something less than five years—to be exact, on June 30, 1914—the Aldrich-Vreeland financial act will expire by limitation, and unless before that date it is replaced by a wisely framed measure of broad scope, the country will again be in the precarious situation that is commonly believed to have resulted in the panic of 1907-08.

There is a general realization of this necessity of legislation on this subject. Speaker Cannon believes that an extension of the present law, with perhaps a few amendments in details, will suffice. President Taft looks with favor upon the proposition to create a great central bank, and there are all sorts of intermediate schemes. Probably that which commands the greatest support will be based upon the recommendations of the monetary commission which has been at work for more than a year gathering the material for the construction of the actual legislation.

ALDRICH UNDERSTANDS.

It is fully understood by Senator Aldrich, who heads the commission, and by the students of finance, that it will be difficult to arouse interest of the mass of the people in the details of this rather abstruse subject, and that only by general agitation can the national legislature be brought to the point of action. It is required in years to bring about a revision of the tariff, then certainly a period of less than five years is none too long to perfect and enact legislation on a subject so complex and important as is involved in the general revision of the entire financial system of the republic.

Therefore, soon after the return to America of Senator Aldrich and Prof. Andrews and other members of the commission, which is expected to be about the middle of next month, preparations will be made for the publication of the preliminary report of the commission, and it is hoped that this can be ready for submission to Congress when it reassembles in December. This will be only the beginning, for the full report is to be no comprehensive in scope that it cannot possibly be completed within another year; but it will serve to direct public attention to this matter and will afford the senators and representatives material for study to fit themselves to grapple knowingly with such legislation as may be ultimately proposed by the monetary commission.

STUDYING QUESTION.

This commission has been, up to this point, engaged in a careful study of the European systems of the financial systems of Great Britain and the principal continental powers, and a mass of data of the greatest importance to the students of finance has been collected. It is realized that none of these systems, as a whole, is adopted to the needs of the United States because of the peculiar conditions which exist in this country, but in most of them are found some features that may be of value as a foundation for the projected new American plan. Attention will be

TUMOR OF FOUR YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound

South Bend, Ind.—"Lydia E. Pinkham's Vegetable Compound removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They said that only an operation could help me. I am very glad that I followed a friend's advice and took Lydia E. Pinkham's Vegetable Compound, for it has made me a strong and well woman, and I shall recommend it as long as I live."—Mrs. MAY FREY, Lindley, Ind.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give confidence and hope to every sick woman.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

directed to defects of the existing systems which have grown up by accretion, causing it to be described as patchwork and as one no longer capable, by reason of lack of elasticity and unnecessary restrictions, of meeting the business needs of the country. Though generally created to deal only with the subject of currency and the bond issues, the commission has enlarged its scope as to include the national banking system, and it is believed that even the state banks will be dealt with in the forthcoming report. The projected great central bank will be fully exploited, for there is reason to believe that even in banks of considerable misapprehension exists as to the functions of this institution.

OLD U. S. BANK.

Based on the history of the operations of the old United States bank, destroyed by Andrew Jackson, apprehension exists among the officials of national and state banks that the central bank may trench upon their business and be a formidable competitor, so this phase of the matter will be fully dealt with by the commission. The most substantial objection that has been advanced against that project is based upon a doubt whether one central institution would be sufficiently responsive to emergency demands from some distant section of the country, and the suggested corrected measure, looking to the creation of branches of the central bank, has only strengthened the four of the existing banks that the United States government is to enter the field of competition with them.

Recent action taken by Mr. Murray, the comptroller of the currency involving the assumption of absolute responsibility by banking directors for every part of the bank's business, guarding against loans without proper security.

to directors, and requiring the closest cooperation between the national and state bank examiners in the inspection of the operations of the banks, have resulted. It is believed in bringing these institutions into a much higher state of efficiency, and placing them on a sounder business basis than they have ever before enjoyed, and the comptroller is fully convinced that with public confidence in the banks fully restored there is no reason to apprehend any struggle or competition for business between the national and state banks on the one hand and the government central bank on the other.

CHARGED WITH CONDUCTING LAND FRAUDS

East St. Louis, Ill., Sept. 27.—Charged with conducting a land fraud through the mail while occupying a cell in the Macomb, Ill., jail, William Gottlieb was arrested here yesterday on a federal warrant.

Gottlieb was sentenced to the Joliet penitentiary in May, 1907, for forgery and was paroled seven months ago after serving 21 months of a 27 months sentence.

It was while in the jail at Macomb awaiting sentence that Gottlieb is said to have written letters representing himself to be president of a land and investment company and offering to execute a deed of trust for 5,500 acres of land.

Feel languid, weak, run-down? Headache? Stomach "off"? Just a little case of lazy liver. Burdock's Blood Bitters tones liver and stomach, promotes digestion, purifies the blood.

TO BUILD REPLICA OF SOLOMON'S TEMPLE

Boston, Sept. 27.—Headed by Arthur B. Howe, president, former Congressman, L. D. Apsey, Bishop John W. Hamblin, Warren H. Ellis, W. E. Litchfield and Adm. Gen. William H. Brewster, a body of 29 Massachusetts Free Masons have organized a corporation to revive the famous project of building a replica of the ancient temple of Solomon at Jerusalem, the birthplace of Free Masonry.

The project, which originated with Mr. Howe, after a pilgrimage to the great eastern mecca of all Masons, is intended to embrace subscriptions of \$5 from each of the 15,000 lodges throughout the United States.

SEES NEW YORK AFTER HALF A CENTURY

New York, Sept. 25.—Louis Heller, a mine owner of Redding, Cal., who is here as a Hudson-Fulton visitor, did not know the city when he arrived. The last time he was in New York was 45 years ago, and the day he left for California a celebration was in progress for Commodore Perry, who had just opened the Japanese ports to the commerce of the world. He said that in that celebration the only illuminations were from oil torches, as compared with the score of millions of candle power in this celebration. He said the warships then on exhibition were three old wooden tubs that Pitcher Mathewson might have hurled a ball through.

MILLO C. KELLOGG DEAD.

Chicago, Sept. 27.—Millo C. Kellogg died yesterday at his home. He had been identified with electrical interests for many years, especially devoting his attention to the telephone, and was the originator of many improvements not only in the transmission of sound by electricity, but in the use of electricity to various devices. He was born in Rodman, N. Y., in 1848.

DID PROF. ROGERS GO INTO MT. ASAMA CRATER?

Victoria, B. C., Sept. 27.—A wordy warfare was being waged in the English newspapers in Japan similar to the Peary-Cook controversy in the United States, when the steamer Empress of China sailed, with regard to the descent made last month into the crater of Mount Asama by Prof. Jay G. Rogers of Chicago. The professor telegraphed the particulars of the exploit to Yokohama newspapers, telling of sensational experiences when lowered on a rope by four others into the crater. Dr. Clay McCauley, Boston, author and missionary, wrote "in the interest of truth," stating Prof. Rogers had greatly magnified the adventure and instead of being lowered into the crater, had crawled down the rough slope leading into it. Since then friends of both have been busy and columns are being devoted to letters and photographs.

Many requests from Catholics suffering who use atomizers have caused us to put up Liquid Cream Balm, a new and convenient form of Ely's Cream Balm, which can always be depended on. In power to allay inflammation, to cleanse the clogged air-passages, to promote free, natural breathing, the two forms of Cream Balm are alike. Liquid Cream Balm is sold by all druggists for 75 cents, including shipping charges. Mailed by Ely Bros., 46 Warren Street, New York.

ORIGIN OF THE REORGANIZED CHURCH AND SUCCESSION.

A book of 140 pages showing the latter-day apostasy.

This book is invaluable and indispensable to missionaries and all other students of Church history. It deals thoroughly with the origin of the Reorganized church and conclusively proves it to be of apostate source, also that the church has departed from the doctrines of the Prophet Joseph Smith and now attacks them vindictively, denying many of the principles of the gospel. The book also treats the Succession in the Presidency and shows that PRESIDENT BRIGHAM YOUNG WAS PROPERLY ORDAINED TO LEAD THE CHURCH. By Elder Joseph F. Smith, Jr. Just published by the Deseret News. Cloth binding per copy 50 cents, in paper 35 cents.

The aroma-tight can protects it against impurities and deterioration—never sold in bulk. Your grocer will grind it—better if ground at home—not too fine.

OKLAHOMA "JOINTISTS" SET UPON CO. ATTORNEY

Coffeyville, Kan., Sept. 27.—County Atty. Clark of this city, was set upon by Oklahoma "jointists" and seriously injured following the seizure yesterday of a large quantity of contraband beer and whisky by Kansas officers just across the line from Oklahoma.

The liquor belonged to "jointists" of South Coffeyville, Okla., and had been lawfully moved back and forth across the state line at least half a dozen times as officials of both states were trying to take possession of it. Atty. Clark after the liquor had been seized, crossed the line in a motor car to confer with the Oklahoma officers. He was dragged from the car and beaten over the head with his own revolver. The situation presents peculiar legal aspects which attorneys from both states are trying to solve.

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn-out and all run-down. Burdock's Blood Bitters made me a new man."—Mrs. Chas. Freitoy, Moosup, Conn.

UATH ALMOST KILLED PREST. TAFT WITH KINDNESS

Pocatello, Idaho, Sept. 26.—President Taft spent half a hour here tonight, arriving at 8:30 p. m., and leaving a little after 9 to continue his journey north into Montana. He was greeted by an immense crowd, gathered about a stand erected at the depot. It was the biggest depot through the president had yet encountered. Gov. Brady, Senator Borah, former Gov. Gooding, Rep. Hamer and former Senator Dubois of Idaho boarded the president's train at the Idaho line and had dinner as guests of Mr. Taft. John Hays Hammond and Secy. of the Interior Ballinger also were in the party. The president made a brief address here and also at Brigham and Cache Junction, Utah. At Brigham, in the heart of the Utah fruit belt, several boxes of peaches and grapes were put aboard the train.

Gov. Spry, Senators Smoot and Sutherland and Rep. Howell, of Utah, accompanied the president to the Utah line.

"We have a great country," said President Taft, tonight, "and if you want to prove it, travel over it as I have the last two weeks. I have a journey of some 11,000 miles before me, but the pleasure I have had in the last 2,500 miles makes me think that I will live to get through the rest. In Utah they nearly killed me with kindness, but that is the sort of death that I am willing to suffer. This great homogeneous country, it impresses one that it is greater to be an American than to belong to any other nation. Wherever you go you find the same people, the same ideals, the same prosperity, the same determination to

overcome obstacles, and the same loyalty and fidelity to the flag. This includes not only the east, not only the middle-west, not only the far west, but also the south and every other corner of the country."

Cheapest accident insurance—Dr. Thomas' Electric Oil Stops the pain and heals the wound. All druggists sell it.

REGULAR ARMY OFFICERS LECTURE TO MILITIA

Los Angeles, Sept. 25.—Regular army experts detailed by the war department to attend the eleventh annual session of the National Guard association which opened here today began a series of lectures, which, within the space of the three convention days will take time, delegates over the entire art of war. There are about 200 delegates in attendance, representing nearly every state in the union.

Gov. Gillet welcomed them this morning and Senator Charles Dick, president of the association opened the session. Lieut. Col. M. E. Weaver, of the army general staff, and chief of the division of military affairs, heads the detail of army experts who will discuss every phase of war practice, from the way to prepare and issue orders to the preparation of army rationals, transportation of troops and hygienic arrangements of camps.

"HONEST JOHN" O'NEILL DEAD.

Chicago, Sept. 27.—John O'Neill, scout, Indian fighter, Civil war veteran, former alderman and "Father of Track Elevation" in Chicago, died yesterday at his residence. He was 71 years old. "Honest John" O'Neill as he was known, was born at Newark, N. J., and was graduated in 1856 from Westminster college at New Wilmington, Pa. After leaving college he went to Kansas City, where he joined the famous scout "Kit" Carson in a tour through New Mexico, which was a constant

succession of fights with Indians. In Utah he joined the United States forces as a scout and guide, and later assisted at the burial of the Mountain Meadow massacre victims in 1859. He served in the city council from 1889 until 1897.

INGENIOUS CABLE CODE.

Washington, Sept. 27.—An ingenious cable code, which is intended as a money saver, to army and navy officers stationed at distant points of the globe, has been devised by Lieut. Commander David N. Sellers, U. S. N. Hundreds of dollars are expended by army and navy men each year at the time of the annual football games between the academies at West Point and Annapolis in having the scores sent to them abroad. The new code enables the sending of the score in one word. It also enables persons to cable money in any amount by using one word.
