Local and Other Matters.

TREMBLE'S F. in the shade at 1 p.m. to-day. Fine.

Afternoon Proceedings.—Elder Lorenzo Snow spoke this afternoon, at the Conference.

Well Sprinkled.—Last evening the streets adjacent to the Tabernacle were well sprinkled from the hydrants, to lay the dust, for the benefit of the "Conference people" to-day.

Wasatch!—The regular monthly meeting of the Wasatch Engine Company, No. 2, takes place this evening, at 7:30 o'clock, sharp, at the Wasatch Engine House.

ROLAND G. TAYLOR, Secretary.

Sericulture.—There will be a special meeting of the Deseret Silk Association held in the Firemen's Hall to-morrow, Saturday, at 12 o'clock noon, when all interested in the raising and manufacture of silk are respectfully invited to attend.

R. SIMPSON, Secretary.

Base Ball.—There will be a match game of base ball to-morrow, Saturday, 7th, on Washington Square, between the "Deserets" of this City and the "Long Strides" of Willard City. The game promises to be a lively and interesting one, and some good playing is expected. All are freely invited.

Respectfully,

MEMBERS D. B. B. CLUB.

Doing Nicely.—We learn from Bishop Daines, of Hyde Park, that Mrs. Duce, who, it will be remembered,

was accidentally shot through the neck at Ogden, a short time since, has almost entirely recovered from the effects of the injuries then received, and her son, Thomas Duce, who was shot in numerous parts of the body, at the same time, is nearly convalescent, so much so that he will probably be able to be out a little on Sunday next.

Important Bee Meeting.—We are requested to announce that there will be an important Bee Meeting to-morrow (Saturday) at 5:30 p.m., at the Council House, and that all are invited.

From Paris.—To-day we had a call from our friend Bishop William Badge, accompanied by Brother Walter Hoge. We learn from them that, on account of the destruction of wheat, by frost, a number of the Bear Lake people will have to get their breadstuffs. Fortunately the oats crop was injured but little.

Unsurpassed.—This morning we noticed, in the Constitution Building, where the ladies purpose opening, to-morrow, a commission establishment, for the sale of home manufactured goods, a piece of overcoat cloth, from the Deseret Mills, that, in our judgment, has not been surpassed in that class of textiles in this Territory. It is really excellent, both in appearance and quality.

Third District Court.—Friday, October 6th, morning.
Deseret National Bank vs. John K. Gilman et al; default of defendant, reference to clerk to compute, and judgment.
Wm. W. Ritter vs. Henry J. Faust et al; default and decree.

R. C. Chambers vs. William H. Pitts et al; Marshal & Royle associated as attorneys for the defendant. Motion of defendants for a continuance, on account of the sickness of C. K. Gilchrist; case continued till Tuesday, October 10th.

Geo. W. Case vs. Jos. W. Young; called for trial and dismissed for want of prosecution.

Lassoing a Bear.—A few days ago as two young men, Benjamin Ramsell and Moroni H. Martineau, were hunting stock in the mountains, east of Logan, they discovered a bear and drove it up a small quaking asp tree. Having no firearms, they opened a vigorous attack upon him with stones, but this failing to dislodge him, young Martineau climbed the tree and succeeded in getting a lasso around the bear's neck and fastened him to the tree. Descending to the ground, one of the boys began cutting the tree down with a pocket knife, while the other pulled it over with the rope, finally bringing the tree and bear to the ground. Renewing the attack with stones and the pocket knife, they succeeded in killing the brute, which was of the brown or cinnamon species, about two years old, and very fat. Climbing a tree, without firearms, to lasso a bear is a rather unusual style of attack, but in the above case it was an effective one.

The Liquor Question.—From Mrs. Margaret Morrison, President of the Ladies' Relief Society of Mount Pleasant, Sanpete county, we have received a copy of a petition on the liquor question presented to the city council of that municipality, signed by 567 ladies. It asks the council to grant no more licenses to drinking saloons after those already accorded have expired.

The council took favorable action upon the petition, and, in consequence, some parties have been talking of testing the matter in the courts, and the ladies who signed the petition have promised not only to give moral support to the cause of temperance, but, if need be, to give liberality of their means to aid the good work. However, there is but little doubt as to the result should the matter be taken into the courts, the Mount Pleasant city charter, in its 16th section, giving power to the corporation to prohibit or restrain the liquor traffic.

The communication accompanying the copy of the petition, dated October 24, also treats upon general topics, as follows:
"Elder Erastus Snow dropped in on us last Sunday and gave us a most excellently seasoned discourse. Elder Hyde was present.

"The hills and mountains are most lovely in their autumnal dress, and what beautiful views for the manufacturers of ladies' dress goods to copy for the season's wear. The grain continues to come in by huge loads of the staff of life, and already the hum of the thrasher is heard; the heart of the farmer enlarges as he sees a well-filled granary. A ready merchant is in the grain for merchandise at 60 cents per bushel, and this with the present distasteful music of the 'hoppers' ring in our ear. The society I have the honor to represent is doing a vast amount of good in numerous ways. The busy gleaners gather up all the fragments that nothing may be wasted."

Remarkable Relics.—We have received the following, with accompanying specimens of wheat, from Brother Amasa Potter, of Payson:

"In connection with my report of last summer, I send you a few facts that we have developed concerning the excavating of the ancient mounds in the Payson farming field. We have become convinced that it must have been a race of people that were more enlightened in the arts and sciences of civilization than the present race of Indians which we find inhabiting North America. We found in one deposit a comb that had been used for combing the hair, and also a spoon, in good shape, made of stone; also a set of marbles, just such as are made now-a-days. We found moulds made of clay, just such as are used in the foundries at the present day. They are of different shape for moulding various kinds of iron implements, but there is no kind of iron found now, but there are spots of rust where it has decayed. We found some pieces of cedar wood, that had not yet decayed yet. The heart was left yet and it shows that the people had edge tools, because this wood was cut smooth."

"I will now say that from the small handful of wheat we saved from the stove box last spring we

have raised about four pounds of wheat, and I think it will prove to be the best wheat that has ever been introduced into Utah. It is a club wheat, but the heads are twice the length of common club wheat. We raised sixty heads from one grain planting, and there was an average of seventy grains in a head, and it is earlier than the common club wheat. It matured in just three months from planting. I have been solicited from all parts of the country to send them a little of this wheat for seed, and every last chance I have endeavored to send a little. Now I will send to your care all that we can spare, and wish you to distribute it among some of our best farmers, and let them experiment on it, and report next Fall what they made out with it."

Unmitigated Rowdiness.—The following was handed in this morning:

"At Mill Creek, on the County Road, within one week the quietude of the peaceful citizens has been interrupted twice by reckless, belligerent rowdies. The last of their formal visits was on last Tuesday evening, about 8 o'clock, when they accosted some quiet, inoffensive people on the County Road, and insulted them in a disgraceful manner, exciting them to anger, so that they (the rowdies) might carry on the unwary pedestrians. They hurled foul language at the citizens referred to, and followed it up by saying, 'You are a coward not to fight when insulted in this manner.' They were very boisterous, not making their words more aggravating, that they might let the insulted know that they had them in jeopardy. The name of at least one of the drunken rowdies is known."

People's Territorial Convention.—The People's Territorial Convention, for the nomination of a candidate, for the People's Ticket, for Delegate from Utah to Congress, convenes to-morrow (Saturday) at twelve noon, at the City Hall. It is probable that every county in the Territory will be represented.

The Springfield (Mass.) Republican says, "There is one thing republican reconstruction cannot restore in the south. There is the spirit of her old chivalry which spurned jobbery as it scorned theft."

Cardinal red and hunter's green are the fashionable colors of the season. An exchange remarks that a red ripe tomato and boiled spinnage give an idea of the colors.

The Russian army can now be brought up to 2,500,000 men, without counting the national militia.

H. B. Claflin & Co., of New York, a dispatch states, have offered \$1,000 per foot for a lot on the corner of Wabash Avenue and Monroe Street, Chicago; but the owner of the land has declined to sell it at that price.

An exchange says, "The uncaught and uncaged members of the Younger gang of cutthroats and robbers are buying themselves in writing threatening anonymous letters to various parties connected with their pursuit and arrest. Among other things they have threatened to burn the town of Northfield, and say that 'three men must fall to avenge the number they have lost in their raid.'"

DIED.

In the 2nd Ward of this city, Oct. 5th, of summer influenza, the infant daughter of Ludwig and the late Mary Christensen, born Sept. 14, 1876.
Funeral at residence of father, tomorrow, at 10 a.m. Friends of the family are invited.
