Picturesque Representative of "Buffalo Bill's" Wild

West Show.

MATTERS OF INDIAN OFFICE.

He Reported the Return of Sioux's From Pine Ridge and Rosebud Reservations to Their Homes.

Special Correspondence. Washington, Oct. 16 .- Major John M. Burke, the picturesque representative of "Buffalo Bill's" Wild West shows, has been in Washington for the past week on matters connected with the Indian office. Mr. Burke came to Washington to report the return of the Sioux to support his contention for increase pay the three junior grades in the in-fantry. The best pay per annum for a second lieutenant is \$1,400; for a first lieutenant \$1,500; of a captain \$1,800. For each five years' service up to 20 years 10 per cent is added which is known as long jeopardy pay. From their salaries these officers must defray all expenses of living excent Indians from Pine Ridge and Rosebud reservations, South Dakota, to their homes. Every Indian was accounted for, and during all the time that they were with Colonel Cody through conti-nental Europe, not one Indian was fined and not one Indian was sent home, which is regarded by the Indians as the worst humiliation that could come to them. Under the chieftainship of Iron Tail, the scientific Ocalia Iron Tail. Iron Tail, the seventy-five Ogalla Sioux who have been with the Wild Sloux who have been with the Wild West show for the past eight months returned to their homes in South Da-kota, having seen more of the world than is vouchsafed seventy-five per cent of the white men. They were shown through the lace factories of Brussels. They saw the severs of Parts and they seen the Fifed tower children, servant hire and all other incidentals in the running of a house, hold. In addition to all these ordi-mary expenses an officer's uniform calls for heavy annual expenditure. The moving of his family in his numerous changes of station is a serious tax upon his income. And then comes again the question of life insurance which is no small charge. With all these demands upon an officer in the junior grade it is obvious that he must practise great frugality to avoid finan-cial embarrassment and even with the Paris and they saw the Eiffel tower. The catacombs of Rome were to them a marvel, and Vesuvius belching forth its fire and smoke gave them a prac-tical idea of what their inferno meant. For four years "Buffalo Bilk" has been making teachers out of the Sloux clai embarrassment and even with the utmost economy probably there are few officers having a family and de-pending wholly on their pay who are not forced at some time or other to run into dobt to a greater or less ex-tent. warriors, and he has utilized this dis-appearing race to tell to their children and to teach their associates the marvels which the white man has accom-plished in the old world and made him unconsciously a preacher of peace throughout the length and breadth of our great northwest, the Indians' habitat.

INDIANS WITH HIM.

During the four years in which "Buf-falo Bill" has been in Europe he has had from 6 0to 75 Indians with him, all had from 6 0to 75 Indians with him, all from the reservations in South Dakota. Some of these Indians have been with him during the entire time the Wild West show, which really had its begin-nings in Omaha, was in Europe. They were the main features of his exhibi-tion, and they were taken everywhere and given the very best opportunity of seeing the 17 countries which were vis-ited by Col. Cody during his absence from these shores. These Indians were taken to John O. Groutes, where they were photographed, looking toward the sun rising over the northern ocean and to Landsend, looking toward the sunset and their home. These Indians were the subject of the artists of Europe, the phtographers and the cinemato-graph. Their cost unes, their customs

true that the matter of poor pay is re-sponsible to any considerable extent for desertions but undoubtedly it is a very large factor in the case. Remark-able as it may seem the law recognizes very little difference between the pay of a private and a non-commissioned officer. A corporal gets \$2 more a month than a private and a sergeant \$5 more. Gen. Dodge contends that the army would be very materially bene-fitted of the pay of the non-commis-sioned officers was raised to a sum which would make it an object for a soldier to qualify himself for obtaining and re-taining such position. With an increase in pay it is his belief that the positions would be sought after and when atvery little difference between the pay phtographers and the cinemato-ph. Their costumes, their customs and their manners have furnished the savants of Europe with first hand in-formation and now should this people be wholly eliminated there would be scientific information obtainable, not only in the great libration of Europe would be sought after and when at-tained would not be forfeited as read-

ily as now by carelessness and indifference. The Sergeant is a power in the comand Aft" Mr. Kipling's best short story the sergeant of the company plays his part and in the old border days as well as Indian fighting days the sergist need not go to American books of reference, but he will find reliable mareference, but he will find reliable ma-terial in the books of European coun-tries regarding the red man. As for the Indian, stole that he is, he comes back with a knowledge of the different people, nations, costumes, languages and customs, that go to make up the great white people. And the definite impressions which he has received in his world travel that carried him to the borders of Russia along the Da-nube, through the Vaterland, Rhine-land, Belgium, Brussels, Antwerp and historic Ghent, where the final farewell forever of the old scout was spoken made a deep and lasting impression on the representatives of this primitive geant has held many a pass for the measly sum of \$25 per month and a mule.

HE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reason-

able amount of outdoor life and recreation is conducive to the

health and strength, so does a perfect laxative tend to one's

improvement in cases of constipation, biliousness, headaches, etc. It is all-important, however, in selecting a laxative, to

choose one of known quality and excellence, like the ever pleas-

ant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effect-

ually, when a laxative is needed, without any unpleasant after

effects, as it acts naturally and gently on the internal organs,

simply assisting nature when nature needs assistance, without

griping, irritating, or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manu-

facture of Syrup of Figs are known to physicians to act most

beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth con-
