

## ALTOGETHER TOO MUCH IRISH.

Green Ensign Will Wave Every where with the Union Jack.

## AN UNEXPECTED RESULT.

Queen's Order for St. Patrick's Day Produces a Surprisingly Large Irish Celebration.

[Early Dispatches.]

New York, March 16.—A dispatch to the Herald from London says: There are ample indications that the queen's message allowing the soldiers to wear the shamrock has been interpreted in a way which her majesty can scarcely have expected. For St. Patrick's day is going to be celebrated here as a grand national festival.

Long ago it was announced that the Irish national flag would wave above the Mansion House, but this also had, like the queen's message, results which could scarcely have been expected. A green flag is flying all over the country to sport the green flag with which to decorate their houses and are intensely disappointed to hear that all such flags have been sold.

Each train is bringing in crates of shamrock from Ireland. It is quite safe to predict that tomorrow all British subjects will wear the shamrock in honor of the gallant Irish soldiers at the front and that everywhere possible the harp on the green ground will wave alongside the union jack and the national standard.

It will be a St. Patrick's day such as has never been known before. A politician, talking today, said it was hoped that tomorrow would be a day of peace and harmony, but he said that he had seen the shamrock which has existed between the British and the Irish and that the many past efforts made to bring about a better understanding.

## SUBSIDIARY COINS.

The New \$20,000,000 Will Raise the Stock to \$100,000,000.

New York, March 16.—A special to the Times from Washington says: The units of the United States will be busy in some time to come in undertaking to carry out the provisions of the act that has just become a law and that permits the secretary of the treasury to all \$20,000,000 to the stock of subsidiary coins. The authority to coin silver of the smaller denominations has been obtained specifically from time to time, but has been restricted to small amounts, the supporters of the free coinage of silver having systematically increased the amount of the supply of silver.

Director of the Mint Roberts, in talking about the objects and usefulness of the new act, as relating to subsidiary silver coinage, said: "The new monetary act, approved March 14, authorizes an increase of about \$20,000,000 in the stock of subsidiary silver coin. This authority for the issue of subsidiary silver was given by a joint resolution, approved July 22, 1876, in preparation for the resumption of specie payments. It authorized the issue of an amount which together with the fractional paper currency outstanding, should at no time exceed \$20,000,000."

June 9, 1879, the act providing for the redemption of subsidiary silver in lawful money was passed, and forthwith our old quarters, dimes and halves, which had been driven to the West Indies and South America by our paper money, began to return.

"They were presented for redemption until the treasury held over \$30,000,000. In this way the \$20,000,000 limit was exceeded, for the treasury officials paid the stock out in the regular course of business until it was practically all absorbed."

"The present stock in the country that reached about \$30,000,000. Under the new law it may be \$100,000,000, and the bullion purchased under the Sherman act may be coined. The new authority was solely needed and will scarcely suffice for the growing needs of the country more than five or six years."

## Watterson Thinks Trouble Over.

New York, March 15.—Henry Watterson of Louisville is in the city. He does not think there will be any serious trouble in Kentucky.

Matters arising out of the gubernatorial contest and the assassination of Mr. Goebel, he said in an interview, "are in the courts and there they will be adjudicated. I don't believe there will be any bloodshed. In my opinion the courts will decide in favor of the

## Falling Hair

Prevented by Warm Shampoos with CUTICURA SOAP, followed by light dressings of CUTICURA, purest of emollient Skin Cures. This treatment at once stops falling hair, clears the scalp of crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow on a clean, wholesome scalp, when all else fails.

Complete External and Internal Treatment for Every Humor, \$1.25, consisting of CUTICURA SOAP (25c), to cleanse the skin of crusts and scales, irritation, and the thickened cuticle; CUTICURA OINTMENT (25c), to instantly allay itching, irritation, inflammation, and soothe and heal; and CUTICURA RESOLVENT (50c), to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disgusting skin, scalp, and blood humors, rashes, itching, and irritations, with loss of hair. When the best physicians and all other remedies fail. Sold throughout the world. PORTER, DAVIS AND COMPANY, CORP., Props., Boston. "How to Preserve, Purify & Beautify the Hair, Hands & Skin," free.

Democrats, and I believe all Kentuckians will abide the decision of the courts.

"So far as the results of what may follow the arrests of the men charged with the murder of Mr. Goebel are concerned, I have nothing to say, but I do think there will be no serious effort to thwart the operation of existing laws."

## Monument to the Maine Heroes.

Key West, Fla., March 15.—The unveiling of the monument dedicated to citizens of Key West to the heroes of the battleship Maine, who died in Havana, February 15, 1898, and who were buried here, took place this afternoon. Over 10,000 people were present. A procession, composed of a detachment from the gunboat Machias, two companies of the first artillery, representatives of the army and navy and city officials, local civic organizations and hundreds of school children, marched from the naval station to the cemetery.

At the cemetery Col. George G. Patterson, in behalf of the monument committee, presented the monument to Commander Impey, acting for the navy department. Rev. Charles W. Frazer, orator of the day, made an eloquent speech, and benediction was pronounced by Chaplain L. E. Foyce. After the unveiling hundreds of school children covered the graves with wreaths and flowers.

## FIRE ON GRAPE STREET.

Blaze Caused by a Defective Flue Does Much Damage.

A Frame Structure is Completely Destroyed and Neighboring Residences Badly Scorched.

A damaging fire broke out last night a few minutes after 8 o'clock in a double tenement house, Nos. 42 and 44 Grape street. It is believed that the blaze started from a defective flue in No. 42 occupied by L. J. Jensen. The other side was occupied by T. S. Fowler; the place is owned by J. Nielson. At the time the fire was discovered the Johnson family was away. Department No. 2 responded to the alarm quickly but the flames had gained such headway that one side of the building was entirely destroyed. The total loss is about \$1,500, no insurance.

The house occupied by L. E. Gilbert and S. M. Evans was damaged to the extent of \$50. This property was insured in the Home Fire for \$500. The residence of Mrs. Lewis was also damaged, the loss estimated at \$25.

## STUDEBAKERS TO IMPROVE.

Have Purchased Property that Joins Them on South for \$16,000.

The Studebaker Bros. Manufacturing Company, following the pace set by the other implement houses of this city, will soon begin to make improvements to its building on State street. The first step has already been taken in the purchase of the Naylor building which joins the present building on the south. This property, which was purchased for \$16,000, has a frontage of twenty-one feet on State. This added to the old building will give the company a 57 1/2 feet frontage and a depth of 263 feet. The newly purchased building was erected by William Naylor in 1893, at the same time the present building was built by George Naylor. W. J. Menzies, of Oundle, England, granted the property through his attorney, John E. Dooley. Mr. Menzies secured the property under a foreclosure of mortgage. The property was transferred to Frederick S. Fish, the Studebaker company's general counsel, and son-in-law of J. M. Studebaker.

The partition will be removed from between the buildings, and the entire front will be used as a show room. The new building will be remodeled, and extended back 150 feet. Architect Ware is drawing up the plans for the change, which are now nearly completed. These changes and improvements will cost \$12,000 outside of the amount of the new purchase, which, combined, will make the total cost \$28,000.

Plate glass and steel only will be used in the front of the building, and fitted throughout with steel girders and uprights. It can be seen by this that the Studebaker company does not propose to occupy second place in the matter of a business house.

## REALTY AND BUILDING.

A warranty deed has been filed for record conveying from W. J. Menzies, of Oundle, England, by J. E. Dooley, his attorney in fact, to Frederick S. Fish, of South Bend, Ind., the premises at 157 South State street, occupied by the Studebaker Bros. Manufacturing Company. The ground covers 21x200 feet, together with 19x40 feet at the rear. The consideration expressed in the deed is \$15,000.

A deed, dated February 3, 1900, was filed in the office of the county recorder yesterday conveying to Orrin P. Miller thirty acres of land in East Jordan ward together with the appurtenances, which includes the Social hall, and will be used as the Granite State meeting house. The grantors are Brigham and Mary E. Cox, Henry Hansen, Peter Jensen and Marion H. Brady. The consideration was \$6,750.

## THE POSTAL REVENUES.

Second Class Mail Matter Carried at a Loss.

## ABUSE IS HARD TO CORRECT

Turkish Minister's Wife Excites Much Curiosity—A Congressman from Indiana—Senator Depew.

## Special Correspondence.

Washington, March 11.—There is one reform that refuses to be adopted. It relates to the abuses charged regarding second-class mail matter. For about eight years successive postmasters general and their assistants, the two committees of postoffice and post roads in Congress, besides a number of unofficial persons, have pointed out and made specific allegations of how deficiencies were created in postal revenue because of the vast amount of second-class mail matter carried at a loss. Bills to correct this abuse, notably the Lord bill, have been reported from committee and have been discussed, but they are never passed. Sometimes there has been a prospect of the bill going through, but things occur to defeat it. The bill has again been favorably reported by Chairman Lord of the House committee, and he has submitted with it a great deal of documentary evidence to show why it should pass. In this report is shown that Messrs. Bissell, Wilson, Gary and Smith have all recommended it. I am thinking, however, that the bill will, as before, be laid upon the shelf with other measures that are not wanted at this session.

## AN INDIANA CONGRESSMAN.

One of the men who are serving their first term in Congress and who are making a very excellent record is Representative Brick of Indiana. Mr. Brick's given name is Abraham Lincoln, he being named for the great Lincoln when the latter was making his first campaign for the presidency. Mr. Brick landed on three committees when the list was made up, which is doing very well for a man in his first term. His principal committee is territories, which already has been busy with legislation, having the Alaska and Hawaiian bills before it. Mr. Brick's legal training makes him a valuable member in the consideration of such measures, which require a great deal of care, owing to the many intricate questions involved. Like many new members, he has not taken an active part in the debates, but he has listened to the best speeches that have been made and endeavored to thoroughly inform himself upon the business and procedure of the House.

## A LADY FROM THE ORIENT.

The appearance in Washington of Mme. Ferrouh, wife of the Turkish minister, has caused as much gossip and curiosity as did in times past the advent of women of the Japanese, Korean and Chinese legations. Even now these women are stared at a great deal when they appear on the streets or at the theaters, while the receptions of Minister and Mrs. Wu at the Chinese legation are thronged with the respectable element of Washington, who go there to gratify their curiosity. For many years these oriental women did not accompany their husbands to Washington, and for several years after they came they did not mingle in society, and curious, gaping, ill bred crowds hung about the legations trying to get a view of the women. The desired privacy, driving them out of the gardens and keeping them close prisoners in their residences. Mme. Ferrouh will excite still more curiosity because she will go out, closely veiled, although she is seen by women, who describe her languorous oriental beauty; deep, dreamy eyes, with other equally interesting features, and because she will attempt in the American country to continue the Turkish customs. It would not be strange to see her, if she remains in this country, following the precedents of other oriental ladies and going to and giving receptions on a large scale, although the Turkish custom is made that she and the Turkish minister promised the sultan that the customs relating to women in Turkey should be maintained in the United States if she was permitted to accompany her husband to Washington.

## SHE HEARD IT IN KANSAS.

"I was visiting recently in Kansas," said a Washington lady, "and I learned something about alfalfa, the new grass crop. I don't know yet whether they were laughing at me, but I swallowed the story at the time. They said that this alfalfa is very good for cattle, but that they have to be watched so that

they won't eat too much of it, for, if they do, it creates a gas which will swell up until it bursts the animal. Yes, I looked as incredulous as you people do, but they swore to it and said that the veterinarians of Kansas had to be trained so as to know how to pierce the animal and save its life. Oh, I tell you, your Kansas man with a hoe is not slow. I was filled up with such stories as these on the farm out there."

## DOESN'T NEED THE WEATHER.

"Senator Depew is one man who does not need the weather as a topic upon which to start a conversation," remarked a society lady to me the other day. "He starts right in as soon as you meet him and begins to talk about something interesting and entertaining. He makes it easy for one, and with a story, apropos of whatever comes up he is sure to have those who are about him laughing and enjoying themselves. I can well understand how a man like Senator Depew is so popular and why he has such a reputation as an agreeable man."

## YEARLY HEALTH REPORT.

Ex-Health Commissioner Knapp Presents Same to Mayor Thompson.

Number of Contagious and Infectious Diseases in the Four Districts of the City.

Ex-Health Commissioner Knapp has presented to Mayor Thompson the annual report of the health department for 1899. The report shows that during last year there were 412 deaths in the city, of which 336 were males and 76 females; births 1,128, of which 554 were males, 554 females, and 19 of the sex of which was not stated. The total deaths for 1899 numbered 697, and the total births 1,147. The causes of the death for the last year are stated as follows: Zymotic diseases 99, in which are included cholera infantum 32, diphtheria 1, scarlet fever 13, typhoid 11, typhus 11, measles 1, whooping cough 7, inflammation and other causes 16, total 99; dietetic diseases 16, constitutional 99, nervous diseases 74, circulatory 47, respiratory 67, digestive 36, genito-urinary 42, locomotor ataxia 1, accidents 13, miscellaneous 165.

With reference to contagious and infectious diseases, Clerk Pollard, who compiled the report, divided the city into four sections, taking Main street and South Temple street as the dividing lines. The result in cases reported was as follows:

Northwest Quarter—Diphtheria 1, scarlet fever 58, typhoid fever 22, whooping cough 17, typhoid fever, 5, Southwest Quarter—Diphtheria 1, scarlet fever 55, typhoid fever 29, whooping cough 5, total 133.

Northeast Quarter—Diphtheria 1, scarlet fever 77, typhoid fever, 5, whooping cough 5, total 88.

Southeast Quarter—Diphtheria 12, scarlet fever 154, typhoid fever 37, whooping cough 28, total 231.

Total for the city 643. The large number of cases in the southeast quarter is accounted for through the disregard of quarantine regulations by one or two practitioners who reside in that section. At the crematory 11,722 cubic yards of garbage were destroyed at an average cost of cremating of 14 cents per yard. There were condemned and cremated 53,845 pounds of food of various kinds.

The cost of maintaining the health department for the year was \$12,483.33 as against \$12,412.33 for the previous year. The cost of operating the crematory was \$4,029.97, compared with \$4,412.21 in 1898. The allowance made by the city for the maintenance of the health department and the crematory for the year was \$12,980 and \$4,200 respectively.

Dr. Keogh calls special attention to the department report, which was prepared by Clerk E. A. Pollard. He tends thanks to Mr. Pollard, Drs. Root, McKenna and Witche for efficient work and gratuitous services rendered the health department of this city.

## BURGLAR IN A CELLAR.

Strange Man Found by Rev. Bagby—Said He Was Hungry.

Wednesday afternoon Rev. W. H. Bagby, of the Central Christian church, had occasion to go into his cellar and was greatly surprised to find a strange man there. The stranger called explained to Mr. Bagby that a vacuum had been created beneath his vest by reason of his not having the blessed privilege of eating for several hours—the last meal he had was the smell of a steam bakery and a glass of water. Mr. Bagby accepted the man's explanation but remarked by way of caution that the cellar was not the proper entrance. He invited the intruder up stairs and gave him a good meal. After the man had satisfied his hunger he was advised to make himself of which he did. The police were not notified of the affair. It is believed that the man is the same who has been breaking into houses all over the city.

## TAKEN TO THE HOSPITAL.

Wah Hong, the diseased Chinese vagrant, was removed from the police station late yesterday to the Holy Cross hospital by order of City Physician King.

## Sneezing Yet?

Eyes scalding, nose running, throat sore and inflamed, temples throbbing, severe pain in back, head and back of neck, cold chills chasing up and down the spine, aching in every bone and muscle, fever, general weakness and a feeling that you are done up—you've got the grip, and got it bad. Soothe the irritated nerves, stop the bone-racking aches and pains, and build up the resistive powers so as to throw off the deadly grip germs. Nothing will do this so quickly and surely as Dr. Miles' Nerve. It soon overcomes the excessive exhaustion, stimulates the appetite, invigorates digestion and brings sweet, refreshing sleep to the weary brain. Get it now, before your strength is too far gone and dread pneumonia takes you off.

"Every winter for several years I had a siege of La Grippe lasting from four to six weeks. It commenced with cold chills running up my back, with terrible headache and scalding fluid running from my eyes and nose. I would have fits of sneezing and would sneeze fifteen or twenty times before I could stop. Last winter when I was taken down and confined to my bed my husband sent for Dr. Miles' Nerve and Dr. Miles' Anti-Pain Pills. I was almost insane from pain when the medicine came, but that night I slept better than I had for weeks. I began to improve at once and was soon entirely free from the grip and its terrible torture."

Mrs. JOSEPHINE KATNER, Franklin, Ind.

Children often inherit feeble digestive power and out of a morsel or less reverse character results, when food is taken which is at all difficult to digest. WHITE'S CREAM VERMIFUGE acts as a general and permanent tonic. Price 25 cents. Z. C. M. I. Drug Dept.

For all pulmonary troubles BAL-LARD'S HOREHOUND SYRUP, taken in the early stages, proves a certain and sure cure. It is equally effective in cough and whooping cough, and if used in season prevents the further development of consumption. Price 50 cents. Z. C. M. I. Drug Dept.

No one knows the unbearable torture one undergoes from piles unless they are so afflicted. TABLET'S BUCKEYE PILE OINTMENT is a quick, safe and painless cure. Price 50 cents in bottles. Tubes, 15 cents. Z. C. M. I. Drug Dept.

Are you sick? If so, investigate the merits of HEBERLINE. It is a concrete medicine, the dose is small, yet it quickly produces the most gratifying results, digestion improves, the lips and cheeks lose their pallor, the eyes become bright and the sleep, pleasant. Price 50 cents. Z. C. M. I. Drug Dept.

Couldn't help getting a cold never cures it; but carrying home a bottle of BALLARD'S HOREHOUND SYRUP, and using it as directed, will cure the worst kind of cough or cold. Price 50 cents. Z. C. M. I. Drug Dept.

When children have earache, saturate a piece of cotton with BALLARD'S SNOW LINIMENT, and place it in the ear. It will stop the pain quickly. Price 50 cents. Z. C. M. I. Drug Dept.

"A Penny Saved is a Penny Earned." Economy is the lesson taught by this saying. It is true economy to take Hood's Sarsaparilla at this season because it purifies, enriches and vitalizes the blood and thus prevents sickness and puts the whole system in a state of health for the coming season. Every bottle of Hood's Sarsaparilla contains 100 doses—positive proof that it is economy to take only Hood's.

Constipation is cured by Hood's Pills.

The best of all pills are Beecham's.

## WIVES OF BOER WOMEN WHO ARE FORMING A HOME GUARD AND FIGHTING IN THE TRENCHES.

Boer women have already been found lying dead in the trenches, where, side by side with their husbands and fathers, they fought the British, and it is now announced that they are forming a home guard, so that every man capable of shooting a gun may be sent to the front. Many of the Boer women are wonderful shots.

## The Force of Habit.

It is a peculiar thing that the use of Coffee and Tea has not been replaced, more than is the case, by the use of Van Houten's Cocoa.

The reason for that is to be sought in the force of habit. But habits should be broken through, and Van Houten's Cocoa taken, now that it has been proven to be a much healthier and more delicious drink than Tea and Coffee, while at the same time so nourishing and easily digested.

For the Nerves, also, Van Houten's Cocoa is so much better; because, although it is equally refreshing, it has not the pernicious after-effects upon the nerves, such as follow after using Coffee or Tea.

It is not an expensive habit to use Van Houten's Cocoa; indeed, after actual trial of various brands, and even loose cocoa, many persons have discovered that Van Houten's Cocoa is not only the best and most delicious, but is also the most economical.

HAVE YOU TRIED VAN HOUTEN'S Eating CHOCOLATE?
