the Knight mines, which included the Beck Tunnel and Colorado properties, received a request from the ore pur-chasing department of the United States Refining and Mining company to curtail the output of lead ores from those properties and it was to compli-ance with that request that the pro-duction of those mines was cut down one-half. one-half.

6

The directors of the Grand Central The direction also not here today and posted the usual dividend of B ponts a share, or \$12,500, which is pay-able on the 15th to all shareholders of record on the 12th inst.

ON MINING EXCHANGE.

Little to Encourage Was Status of Today's Market.

There were a good many soft spois in today's mining stock market. The Tintie issues which displayed a dispo-sition to recover yesterday, were not in the test of form today. There was an abundance of selling orders and prices weakened as the call progressed, it was a bad day all around. The closing quotations and sales were: Were: UNLISTED STOCKS.

Btocks. Bid. Asked. Bales.

Bid. Asked

The recent drop in the price of copper has not discouraged the operators of Yerington in the least for they are going right ahead with their development work with more energy than ever before. Nearly all of the big concerna operating in the district are ready to receive electric power which means that much more rarid progress will be made in the future than has been

am, Fark City and Arizona camps are oming in looking for work. The Nevada Douglas company is

is also being installed. "But in speaking of late ments," declared Mr. Orem.

really never seen anything devide the Nevada Douglas mine has during the past month or two. It is simply showing up great and the only way for a person to appreciate the import-ance of the das losures made there is to so and see these

ance of the dambours made there is to go and see them. "Just to give an idea, the winze sunk from the north drift on the 50 level of the Ludwig section of the property, is down 50 feet and has been in ore all the way. It has been cross-cut for right feet and the average of the ore is 24 per cent coppet. In the south drift on the same level we have run out for about 40 feet, the ore body cross-cut in one place was found to be out for about 40 feet, the probody cross-cut in one place was found to be 37 feet wide and assays mode at the

line show average copper values of The cent. "The cast drift from the main tun-mel being driven into the main Douglas property has been in ore for some time avoraging around 4 per cent copper. The contour of the hill is such that we ought to make back very rapidly and we have every reason to expect the development of a considerable tonnare of ore in this portion of the property within a very short time. In all the lower levels of the mine sulpide ore is now predowinating and if conditions continue to improve in the future as they have in the past—and there is nothing to indicate that they will not— it will not be a great while until we will have a plentiful supply of avail-oble sulpides which will enable us to bring our treatment costs down about cast drift from the main tun

bring our treatment costs down about as low as possible to get them." NEW TINTIC SMELTER.

Construction of New Plant is Progressing Favorably. Manager Belt Kadish of the Tioth

11

fown at Bingham Junction indefinitely but as yet it has been impossible to get anyone to say officially that such a thing is in contemplation. The plant has been running at low capacity for thing is in contemplation. The plant has been running at jow capacity for some little time and from an eastern cource it has been learned that the actual production of copper last month was scarcely 250,000 pounds. Not very much money is to be made in operating the smelter as it is now, and inasmuch as Mr. Heinse, who is a decidely im-portant factor in Bingham Con, affairs, intends to build a new smelter if little later on, it is presumed that the Mon-tanan does not care very much whether

faman does not care very much whether the old plant is operated or not-par-lcularly if it doesn't make money. But even if the smelter does continue, i is almost a certainty that there will be a further reduction of the working

he a further reduction of the working forces in the Bingham company's mines in Bingham and Tintic. A loss vig-orous campaign of development will be carried on in the Dalton & Lark and Commercial mines in Bingham particu-larly, where a good supply of ore has been developed ahead.

COPPER DROPS AGAIN.

(Pollock Special Wire.) New York, Oct. 16.—At the metal exchange today, a further reduction in all grades of copper was made. Lake down is in bid and is in ask-ing price. Electric Lake 13% at 15. Electro 13% at 13%, castings 13% at 13%.

NEVADA GAZETTEER

R. L. Polk & Co. Issues Complete Work Covering the State.

The Polk Directory company has just published, under the direction of Manager W. P. Cooper, the Nevada State Gazetteer and Business Directory, for 1907-8. It is one of the most complete works of the kind ever issued, and reflects marked ordit on the compler. It includes Loss pages, covering the entire state in all of its official, commercial and industrial ac-tivities. The work is the first book of the kind ever issued for Novada, and one of the very few gazetteers in the United States containing a list of landowners and farments of the state. The gazetteer con-tains also a full descriptive and business directory of each city, town, village and postoffice in Nevada, embodying location, population, nearest shipping point, dis-tance and geographical direction from the county seat or some other center, lo-cation of the nearest bank, and other val-uable statistics. The rosters of state, open, with lists of corporations, various game laws, and such other general in-formation as can not full to be of the highest value and convenience for refer-once. kind ever issued, and reflects marked

Dr. E. C. Watkins of the Utah Amaigamated Copper company, has returned from a trip east.

The ore and bullion settlements re-ported late yesterday by McCornick & Co., were: Crude ore and concen-trates, \$55,000; base bullion, \$95,000.

D. P. Rohlfing of the Frisco Contact Mining company has returned from a up of inspection to the properties of that corporation in Beaver county.

The announcement has been made by officials of the Hingham Amaiga-mated Copper company that the stock pool formed at the time of the organ-ization of that corporation has been dissolved: that the property of the organization has reached that stage of development where its management believes it is perfectly able to take care of itself. According to the orig-inal pool agreement the stock was to remain unissued until the mine was unissued until the mine safely launched upon a paying basis

DALY JUDGE TOO.

Unconfirmed Report from Park City

That Mine Will Close.

(Special to the "News.")

Park City, Oct. 10 .- It is rumored here that the Daly Judge mine is to be closed down. The contractor who is employed to haul ore from the mine to the railroad has laid off four four-horse teams. Manager Lambourne is in camp

today. The strike situation at the Bamberger mines-The Daiy, Daly West and On-tarior-is unchanged. The men are out and there is no immediate indication of operations being resumed. There is much approbension felt in the camp. It is feared there will be more men thrown out of employment.

Seey. Lambourne of the Daly Judge company is up at the mine today and in telephoning the "News" this attor-noon, deried the report that the Judge noon, denied the report that the Judge is closed down or that it will close down. The following explanation is of-ferred by Mr. Lambourne as the prob-able cause for the report being started: "The smelters at Murray are con-gested with cars and asked us not to ship any more until they get straight-ened out. The management notified the cre haulers of this request and shipments were stopped for the time being. This undoubledly started the report that we were going to close down."

\$10,000 FOR BURNS.

A burgiary alarm took the patrol filled with policemen up to Seventh East and First South late this afternoon, At iast report the search was on with prospects of having the man within a haif hour. He was seen in a house and the call sent in.

HUNTING FOR ROBBER.

MYRTLE POWELL VINDICATED.

Myrtle Powell, a negro girl, convicted in the police court of immoral conduct, and fined \$50, is y free, with the decision of the cart reversed. Judge Armstrong this afternoon handed down a decision in the case which he has had under advisement, roversing the city court and amulting the fine. Evidence was submitted only by the city, and on this Judge Armstrong held that no case had been made. The at peal was taken by the girl to vindicate her good name.
