all of the larger institutions of learning certain irregularities and abuses exist from the very nature of the case. Among so many students every scale of morality is certain to be represented, and a few of the evil-disposed can work a material injury to the whole school. Much has been done in eastern colleges and universities by committing the disciplinary functions into the hands of the students and uniformly the result has been to raise the morale of the institution. The matter has passed the experimental stage.

On Thursday of last week President Linford called the attention of the stu-dent body to the actions of certain students that they were unworthy of gen-tlemen and which reflected discredit upon the college. He suggested that the students themselves frown down such conduct and by a positive course free the college from obnoxious indi-viduals and stated that an organization to affect this result would be order if the students felt disposed take such action. Some of the leading students immediately proposed the or-ganization of the student body to deal with affairs pertaining to the students as a whole and especially to consider the cases of offenders. A committee of seven was appointed to consult with a

committee of the faculty in bringing about the desired result.

This committee reported, and the orsanization was effected on Tuesday morning. A constitution was adopted and officers were elected. The title of the organization is "The Brigham Young College Students' association." The preamble states that the object of the association is "the general welfare the association is "the general welfare of the student body, with special refer-ence to conduct and discipline."

There are three departments, executive, legislative and judicial. The legislative consists of two members chosfrom each class; the judicial consists of a major court consisting of three judges and of a minor court of two divisions, the one composed of five sentlemen, the other of five ladies, each having jurisdiction over the students of its own sex. All trials are to be jury and an ultimate appeal is owed to the faculty. Executive officers were elected as fol-

Alumni and Gridiron Heroes Mingle at Banquet in the Alta Club.

GAME GIVEN HEARTY SUPPORT

In Toasts to the Team Help From Alumni is Pledged for Next

Year.

Last night the annual football dinner given by the alumni of the University of Utah to its football team, was held at the Alta club. For three hours the athletes and their friends of former days in college feasted on an elaborate menu and discussed the present, past and future of football. No sentiment was found against it, and the statement was freely made and endorsed that what is needed is not so much new rules as the enforcement of the ones now on the books. Maddock was praised for the clean style of game his huskies have put up, and it was urged that next year the most vigilant watch be kept to seen that no professionals are admitted, or that no men be brought to the University to play football, regardless of college standing. It was agreed, however, that every alumus should see that the team did not suffer from lack of his encouragement and support. Regent Waldemar Van Cott urged that the alumni be made aware of any need of the team, and that the need be explained to team, and that the need be explained to them in a way so that they would know what to do.

W. R. Wallace, father of midshipman Wallace, a Utah boy, at the Naval acad emy, was toastmaster, and told at length of the experiences of his son in Annapoles, He also gave extensive descriptors of each of the players in introducing them, some of his remarks running in a humorous yein.

Among the speakers were President J.

Whichever aliment they point to, you may be sure that it is best to get rid of them as soon as possible by putting your system to rights, regulating, toning up and invigorating stomach, liver and bowels, and thus purifying your blood and system and enabling it to throw off the attack.

For the above purpose, medical science has as yet produced no better agent than Dr. Pierce's Golden Medical Discovery. It is not a secret, or patent medicine, all its ingredients being printed on the bottle wrapper. It is the prescription of a well-known and experienced physician. It contains no alcohol or other harmful, habit-forming agents—chemically pure, triple-refined glycerine being used both as a solvent and preservative of the medicinal extracts of which it is composed. It is made from the following native, American medicinal roots: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root and Black Cherrybark. At the meeting of the American Association of Minor Leagues today a report was received from the conference commit tee on the drafting of players that b. th the National and American leagues had agreed to the draft of but one man, fixing the price at \$1,000. The date and place of the regular annual meetings was changed from Jan. II, at San Francisco, to the second Tuesday in January at Chicago. An effort was made to have the present meeting stand as the annual meeting, but this was voted down. It was reported that agreements had been reached with the major organizations that as many players as may be desired can be drafted from leagues in classes B, C and D. The drafting price in class B was raised from \$500 to \$750 in class C from \$200 to \$500 and in class D from \$200 to \$200. An adojurnment then was taken until the Chicago meeting.

MORE RULES ADOPTED.

Chicago, Dec. 14.—The South Park com-missioners yesterday, in regular meeting, voted unanimously to instruct their ath-letic instructor to draw up rules for the game of football so that the young and untrained little boys, as well as older boys, can play it without peril to life or limb.

hoys, can play it without peril to life or limb.

The board is determined to supervise the games played in the parks and have them conducted as it limitly should determine, regardless of what any college conference or committee should do. It was determined that the "good points of the sturdy game should be retained."

There are nine gridfrons in the big parks under the board's supervision. On the gridfrons in Washington and Jackson parks many of the games played by teams of the south side high schools are fought out. It may be said that all the practise work is done on the park grounds. In addition, the scores of neighborhood teams take their turns on the public gridfrons.

ACCIDENTS AT INGLESIDE.

ACCIDENTS AT INGLESIDE.

San Francisco. Dec. 14.—There was a chapter of accidents in the first race today. As they were passing the haif pole three of the youngsters. Soavita, M.ss Curry and Tony Girl, fell, throwing their ridges. As they passed the wire at the finish Alumdina came very hear killing Jockey McBride. About fifty feet from the clubhouse there is a carriage opening, and the filly attempted to jump the fence, throwing the lad to the ground. On examination it was found that his foot was crushed and he was otherwise bruised. Of the other three boys who were thrown on the far turn, Reed seems to be the one most badly hurt, but none of them is seriously injured. It seems that Suavita stumbled, and Tony Girl and Miss Curry, being unable to pull up, fell over her. The race was captured by Sugar Maid, who, clear of interference, won in a canter. Weather cloudy, track good. Results:

First race, five furlongs—Sugar Maid, won; Tavor, second; Sinta kay, third. of the latestines, even if it has proceeded to ulceration, is remarkably benefited by Hydrastis (Golden Seal). During the present year there has been a great deal said and written with reference to the Marquis of Queensbury rules. Mr. Bean says that the rules are no longer practised and further that they should not be. He thinks that from the old rules new ones should be adopted, and that they should be known as the American rules. He also has ideas as to the proper adjustment of weights in every class from bantam to heavyweight. Here are his suggestions: The weight divisions shall be classified

s follows:
Bantamweight, 115 pounds and under,
Featherweight, 115 to 125,
Lightweight, 125 to 135,
Weiterweight, 125 to 145,

Foley's Honey and Tar not only stops the cough, but heals and strengthens the lungs and prevents serious results from a cold.

There is no danger of Pneumonia, Consumption or other serious lung trouble if Foley's Honey and Tar is taken, as it will cure the most stubborn coughs-the dangerous kind that settles on the lungs and may develop into pneumonia over night.

If you have a cough or cold do not risk Pneumonia when Foley's Honey and Tar will cure you quickly and strengthen your lungs.

Remember the name - Foley's Honey and Tar-and refuse any substitute offered. Do not take chances with some unknown preparation that costs you the same when you can get Foley's Honey and Tar, that costs you no more and is safe and certain in results. Contains no oplates.

Cured After Physicians Said He Had Consumption.

E. H. Jones, Pastor M. E. Church, Grove, Md., writes: "About seven or eight years ago I had a very severe cold which physicians said was very near pneumonia, and which they afterwards pronounced consumption. Through a friend I was induced to try a sample of Foley's Honey and Tar, which gave me so much relief that I bought some of the regular size. Two or three bottles cured me of what the physicians called consumption, and I have never had any trouble with my throat or lungs since that time."

Three sizes-25c, 50c, \$1.00. The 50 cent size contains two and one half times as much as the small size and the \$1.00 bottle almost six times
