

T., and lasted six weeks, terminating on the 5th inst. The country explored during this trip was along the base of the Uintah Mountains, the old *eoceus* lake basin, which Professor Marsh discovered in 1870. The results of the trip are very gratifying, the discoveries including fossils of many extinct animals, some hitherto unknown to science. Among the most interesting were the

#### FOUR-TOED HORSE

no larger than a fox; crocodiles, lizards, turtles, monkeys, serpents, and the

#### SIX-HORNED DINOCERAS,

a gigantic mammal, perhaps the most remarkable animal yet discovered on the American continent. The *Dinoceras* was about as large as the modern elephant, and was armed with two huge tusks, and six horns, one pair on the nose, one pair in front of the eyes, and one pair on the back of the head.

All the specimens collected will be sent to the

#### YALE COLLEGE MUSEUM.

and a complete report, with illustrations, will be published at some time in the future, under the auspices of the general government, preliminary reports being issued occasionally in the meantime.

The party were to leave this City for

#### THE WEST

this afternoon, some by way of Boise City, some direct to San Francisco, others will join the Professor in Oregon. They expect to spend a month or more in explorations on the Pacific Coast, and will reach home in December.

#### LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY, SEPT. 9.

ROCK LAYING.—Rock laying on the walls of the Temple is progressing steadily.

FROM PROVO.—Bishop A. O. Smoot, of Utah County, is in town, attending to the interests of citizens of that section of the Territory with his usual promptitude and energy.

FIRES IN THE MOUNTAINS.—Large volumes of smoke arising yesterday evening, from the mountains to the south-west of the city, indicated heavy fires amongst the timber in that direction.

RECREATION.—General Morrow, Lieutenants Dinwiddie and Lyons, and their ladies, went southward yesterday morning, with an escort of cavalry and equipped with camping paraphernalia, intending to spend a few days visiting a number of the mining camps.

STOLE A WATCH.—Frank Carter stole a watch and chain yesterday, from a German, for which he was fined \$50. He will work it out, at a dollar a day, on the public works.

The articles were found at the store of the "Poor Man's Friend," who gave him \$5 for them. The watch was silver and the chain gold. What an accommodating "friend" that man is!

THAT MYSTERY.—The whereabouts of Thompson and his son, important witnesses in the Butcher-Cotton tragedy case, is still shrouded in mystery. Various speculations are indulged in regarding their fate. Some imagine that, impelled by fear, they left this part of the country voluntarily, while others are of the opinion that they have been bought over and are hid away, and not a few are inclined to the belief that they have met with "foul play."

AN OPENING IN HIS SKULL.—A man named Doherty, who is frequently in the City jail for getting intoxicated, has an opening in the top of his head about two inches in diameter. That part of the cranium is entirely devoid of skull, the brain being protected merely by a thin membrane. This has resulted from disease and we understand Dr. Hamilton purposes trying upon him an original and novel surgical experiment, with a view to filling the aperture in the fellow's cranium.

NEW SCHOOL HOUSE.—The excavation for the rock foundation of the proposed new meeting house for the Seventeenth Ward, which will be on the site of the old one, has been made, and the masons will make a start during the present week. The structure above the rock will be of red brick, manufactured at Bountiful, of which it is

estimated it will take 100,000. It will be sixty feet by thirty feet, and two stories high, and the halls on each floor will be 14 feet high inside.

It is confidently anticipated that this new school house, which will be a credit to the people of the Seventeenth Ward, will be finished by next Christmas.

FINED.—Thomas Deveney and Charles Ellison, both Camp Douglas soldiers, were fined \$35 by Justice Clinton, this morning. The reason this penalty was inflicted was that they jointly made an attack on Orson Arnold last night and endeavored to take a horse on which he was riding from him. Orson held on to the horse and kept them at bay as well as he could with a long-handled shovel which he held in one hand, until Captain Burt and Messrs. Ayland, Leaker and others arrived and marched the belligerent soldiers to the City Hall. They are both large men, and gave evidence, in attacking Mr. Arnold, that they are as cowardly as they are large. They paid their fines.

OGDEN.—From the Junction we learn that Tully Chamberlain, the man who accidentally shot himself during a fracas on Saturday night, died yesterday afternoon.

A fellow who was released from sixty days in jail was arrested again for burglary, in entering the Pulawski Hotel, and endeavouring to make off with some property on Sunday night.

A young woman of Ogden accuses a man, at whose house she has been living, with committing a rape upon her. The man denies it. The case was to be examined to-day.

On Saturday evening a man was arrested at Ogden, by instructions from this City, as he was fleeing to the Pacific coast to get rid of a woman to whom he was under engagement to be married. The couple were married at Ogden, and the man went on his way, leaving the woman with a marriage certificate as compensation for the irreparable wrong he had done her.

PROBATE COURT.—Yesterday, in the case of Solomon Gee, indicted for murder, the jury returned a verdict of not guilty and the prisoner was discharged.

The case of Jane Melrose, vs. Richard R. Melrose, in divorce, was called, and judgment entered by default. A Miner was sworn and examined on the part of the plaintiff.

Naylor vs. Naylor, in divorce, was called up, on motion of Charles G. Loeber, attorney for plaintiff, and set for Friday next at 10 a. m.

The people vs. W. Bean and John O'Brien, for stealing eight mules and horses. The case was called, indictment read, to which Wm. Bean plead not guilty and John O'Brien plead guilty as charged in the first count, and not guilty as charged in the 2nd and 3rd counts. The Pros. Atty. asked leave to enter a *nolle prosequi* in the case of John O'Brien, as charged in the 2nd and 3rd counts, which was granted. Case set for Thursday, at 9 a. m.

Court adjourned till Wednesday at 9 a. m.

FROM THE SOUTH.—We had a call yesterday from Elder Curtis E. Bolton, who resided, twelve years ago, in the 12th Ward of this city, and who, since that time, has lived in the southern part of the Territory. A few months ago he left his home, in Long Valley, and accompanied the missionaries to Arizona. With his wife and son he lived awhile in the latter Territory among the Moquis Indians, whom he describes as honest, virtuous, industrious, cleanly and polite, and in all of those respects would be an example to the majority of white people. These Moquis live in rock houses, the roofs of which are covered with willows and clay.

During his stay among this peculiar people, Elder Curtis did not see nor hear anything like a quarrel, and did not even hear an angry word spoken.

At early dawn, the chief selects a man who has a powerful voice, who acts as spokesman for him in announcing what he desires the people to do each day, assigning certain labors to all, and his desires, which are not given in a peremptory manner but in a fatherly and advisory way, are invariably respected and obeyed. Elder Bolton and family felt perfectly safe while there, and when they left it was with expressions of mutual good feelings and regret on both sides.

ACCIDENTALLY SHOT.—Yesterday

Joseph Hague, the youngest of the Hague Brothers, aged fourteen years, was accidentally shot in the fleshy part of the thigh and in one of his fingers. The accident occurred in Red Butte Canyon, and happened in a most unusual and unlooked for manner. The lad was handling a small derringer and had taken the cylinder out of the stock and in pressing a cartridge into one of the chambers it exploded. The wound in the finger is only slight, and that of the thigh, being a flesh wound, is not considered dangerous. Dr. Benedict extracted the bullet.

THE BASE.—A huge block of granite from the Church quarry, was being dressed to-day, at the Eagle Emporium corner, which is to be laid down on a level with the sidewalk, over the aperture made for the illuminated clock. The block is six feet square and about a foot in thickness. On the centre of this large block another will be placed, two feet six inches square and from twelve to eighteen inches thick, upon which the iron base of the iron column which will support the clock will be placed.

SHOULD NOT DELAY.—As it is expected that the last company of the present season's immigration will leave Liverpool early next month, those who intend sending means to their friends to help the latter to gather to these valleys this year should no longer delay forwarding the necessary remittances. The address of the Church Office in England is still 42 Islington, Liverpool, which, from the frequency with which we are asked the question, does not seem to be remembered by many who have emigrated through its agency.

FROM WEDNESDAY'S DAILY, SEPT. 10.

WHO?—Who is going to make a start in the fruit canning business? A good chance for somebody to make money.

OUT.—We stated, not long since that W. B. Sullivan, who shot Garvey, was sanguine about finding bonds. He was correct—they were duly signed, for \$3,000, yesterday evening, when he was released.

STEAM PILE DRIVER.—The steam pile driver of Winter & Rushton, Sixth Ward, has gone south. The work of piling the streams on the line of the Utah Southern, between Lehi and Provo, will be commenced with it immediately.

A GRAND JURY.—Yesterday afternoon the clerk of the District Court for the Third Judicial District, issued a venire, directed to the Territorial Marshal, for a grand jury, to appear in the Court on the 20th day of next October.

HANDY.—Z. C. M. I. retail grocery and hardware establishment have an "indicator" hanging near the main entrance, on which are the names of all employees, from the department superintendent down, and which shows who of them are out and who are around the premises, at all hours of the day.

IN HIS STOCKING.—On Monday a passenger on the Utah Southern, who had been imbibing, refused to produce a ticket or hand over his passage money. The conductor soon took steps to eject him from the train, when he came to terms and wished to pay. He first took off his boot and then his stocking, and from the latter brought forth a roll of green-backs.

"HABEAS CORPUS."—It will be remembered that C. W. Kitchen's recent petition to the City Council, asking for the privilege of running a number of billiard tables at the Cliff House free of license, or at a small cost, was tabled. Mr. Kitchen determined to fight the City over the matter and was arrested for running his tables without license and, yesterday afternoon, was fined \$100, which he refused to pay. A writ of *habeas corpus* has been issued by Judge McKean, who will hear the matter on Saturday.

PROBATE COURT.—Wednesday, September 10th, 9 a. m., Hon. E. Smith presiding.

Sanders vs. Loeber, case called and defendant moved for the court to designate a day to hear the motion to discharge the attachment. Monday next, at 9 a. m., was appointed.

Naylor vs. Naylor, in divorce, Loeber for plaintiff, asked leave to strike out, from the complaint on file, the words, "And in lieu of final alimony." Granted by the court.

The People, etc., vs. Butcher et al. The case was called and the prisoners were arraigned. The counsel for defendants entered the plea separately, of not guilty. A motion for a separate trial of R. W. Taylor was filed yesterday. Set for hearing Thursday, 11th inst., at 9 a. m. Court adjourned till 1 p. m.

DISASTROUS RUNAWAY.—There was a bad runaway on First South street this afternoon. The team and wagon belonged to Mr. Charles B. Taylor, butcher. Four persons, a woman and child and an old and a young man, were in the vehicle, which dashed against a tree, near B. H. Young's place, and all were thrown out and more or less seriously injured.

We understand the lady and child were the wife, and little one of Mr. Taylor. We had not time to get full particulars before going to press.

GOING FOR HIM.—Yesterday a little boy incurred the some displeasure of a Chinawoman and she went after him with a knife. The affair occurred on East Temple St., below Groesbeck's new building, and had a bystander not caught and protected him it might have gone hard with the little fellow. The woman, who gave her name as being Mary, was arrested and \$20 was put up for her appearance at ten o'clock and as she did not come up to time, that sum went into the treasury, by default.

DELICATE GROUND.—A paper was read in the District Court this morning, written by a party who desires a hearing before Judge McKean in a matter which he says involves serious charges against two individuals, one a member of the Salt Lake bar, and the other an officer of court. The paper further stated that the matter was of so delicate a character that although application had been made to several attorneys to take up the case they had refused to have anything to do with it. The matter will be heard on Friday.

It is evident that this case is either so delicate that there is nothing of it, or the attorneys must have thought the financial aspect of the affair so delicate that they could not see any money in it.

LIMESTONE.—Morris & Evans have contracts for supplying a number of smelting works with limestone, for fluxing ores. They haul about three car loads a day from Wright's kiln, Warm Springs, to the depot, for shipment south.

A FOOT RACE.—This morning a Camp Douglas officer took a deserter to the City jail, and requested the officers to keep him in custody till he could get a guard to take him to Camp. The deserter made a break from the rear of the City Hall, and ran at full speed along First South Street and then north up First East Street, hotly pursued by officer Hampton. A bystander tried to stop him, but the soldier struck out with his fist and the man dodged and let him go by. The officer called to two others to stop him, but they made no effort to do so. Finally Mr. Rossiter ran after and captured him. When caught he made some show of resistance, but he was soon overcome and taken back to the City Hall.

THE OGDEN SHOOTING CASE.—The Junction of yesterday has particulars of an inquest held over the body of Tully Chamberlain, shot in a fracas on Saturday evening, and who died on Sunday. Several parties testified that the deceased said that Clark, the keeper of the saloon in which the affair occurred, shot him, but the main evidence did not sustain this, as Clark was not seen with a pistol in his hand at all. The inquest tended to show that Clark merely knocked down Chamberlain's hand to prevent the latter shooting a man named Garner.

Clark has been arrested, on a complaint made by Chamberlain's friends. Here is the verdict of the coroners jury:

Territory of Utah, } Ogden City,  
Ogden Precinct, } September 9th,  
County of Weber. } 1873.

An inquisition holden at the City Hall in Ogden Precinct, Weber County, on the 9th day of September, A. D. 1873, before Wm. N. Fife, Coroner of said County, upon the body of Tully Chamberlain, by the Jurors whose names are hereto subscribed. The said Jurors upon their oaths so say that the said Tully Chamberlain died on the 8th day of September, A. D. 1873, between the hours of four and five o'clock p. m., from the effects of a leaden bullet entering the abdomen, three inches to the left of the navel, and half an inch above it, fired from an X L No. 4 pistol drawn by himself from his own pocket during a fight with a number of men, and discharged while Wm. Clark was taking possession of it or imme-

diately after he had gained possession of it. In testimony whereof, the said Jurors have hereunto set their hands, the day and year aforesaid.

JAMES TAYLOR, }  
J. S. LEWIS, } Jurors.  
J. J. CLAYTON, }  
W. N. FIFE, Coroner, Weber Co.

CITY COUNCIL.—A petition of W. W. Funge, asking the privilege of constructing a four ton scale, for weighing coal, in front of his premises, near the U. C. depot, was referred to the committee on public improvements.

The reporter of a city paper was debarred the privilege of attending meetings of the Council on account of false statements which had appeared in the sheet relative to the doings of that body.

Petition of William Showell for an auctioneer's licence for one year was granted.

The committee to whom was referred the petition of H. E. Bowring and others relative to the restraining of parties who vend vegetables, etc., from wagons, reported and recommended that they be charged a price consistent with that paid by the owners of stores in that line of business. The committee was also instructed to confer with the Market Master and draft suitable rules for the regulation of this matter and the sanitary matter pertaining thereto.

The report of supervisor Groo for the half year ending Aug. 30th, was presented, which showed a total expenditure of \$10,663.45. It was referred to the committee on claims.

Instructions were given to notify E. Reese to remove the building material, &c., piled up on the side walk in front of his premises on East Temple St.

A petition was presented by L. M. Duncanson and thirty-eight others, drawing the attention of the council to a nuisance at the old adobe yard, consisting of pools of stagnant, stinking water, dead animals, &c., and asking for its abatement. Referred to the committee on public grounds.

D. A. & M. SOCIETY.—The board met last evening, A. P. Rockwood in the chair.

Mr. Wallace reported that the committee appointed at the last meeting to collect and forward for exhibition in the Pennsylvania Horticultural Society's Annual Fair, specimens of fruit, had expressed by Wells, Fargo & Co., to Philadelphia, specimens of twenty-six varieties of apples, sixteen varieties of pears, and eleven varieties of plums.

Mr. Rockwood, chairman of the committee on Fair Grounds, reported that he had secured the Thirtieth Ward Assembly Rooms in which to hold the forthcoming annual Fair. The committee was instructed to make the necessary arrangements for the exhibition.

Agent W. A. McMaster reported that he had received much encouragement from manufacturers, mechanics, artisans, etc., many of whom were preparing to exhibit specimens of their manufactures and workmanship at the coming Fair. The Agent was instructed to visit the northern settlements in the interests of the Society.

Director Musser read an interesting notice in the Provo Times of the movements of the Agricultural Society's Agent in Utah county.

Mr. R. L. Campbell, secretary, was requested to inform those intending to send fruit from a distance to the Fair, to wrap it carefully in paper, to prevent bruising.

A special committee was appointed to confer with the railroad superintendents, with a view to securing reduced rates of fare for passengers visiting the Fair; also, to ascertain what arrangements could be made relative to the transportation, over their roads, of articles for exhibition at the Fair.

The meeting then adjourned till Friday evening, at 7 o'clock.

#### Chapped Hands and Face,

SORE LIPS, Dryness of the Skin, etc., etc., cured at once by Hegeman's Camphor and Glycerine. It keeps the hands soft in all weather. See that you get Hegeman's. Sold by all Druggists. Only 25 cents. Manufactured only by Hegeman & Co., Chemists and Druggists, NEW YORK.

#### Consumption, Scrofula, Etc.
