CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear, and Catarrh of the Throat.

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden changes of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming thoroughly chilled when the digestive organs are in a morbid state of inactive condition, and the strength and vital forces exhausted. The disease may arise from a spontaneous condition of the blood, as in Scarlet Fever, Measles, and Diphtheria, in which cases the eyes and ear are generally involved and discharging portions of the mucous membrane from the throat, nose, the distinctive feature in all catarrhal cases from whatever cause they arise, may be thin acrid discharges, and so acrid as to excoriate and ulcerate the skin with which they come in contact, or thick and tenacious, and of a color varying from a clear and white to the white of an egg. There may be an entire lack of secretion, the membranes being dry and feverish, the face, front and back part of the head, and the whole length of the spine, it may be, is racked by a tight, unyielding band. This latter phase is called Dry Catarrh. The first mastery disease of the mucous membrane, from a cold or chill, is checked, rendering breathing through the nose difficult or impossible, and if it affects the throat, causing a cough that is painful to hear, thereby preventing cold air to pass directly to the bronchial tubes and lungs. The natural effort of nature to throw it off, but when the membranes is dry and feverish, instead of passing freely through the nose and throat, the mucous becomes hard and forms into scabs, incrustations, and hard lumps, which adhere so firmly to the nasal passages and throat that a constant effort is required, by coughing, hawking, etc., to throw it off. The eye is sympathy becomes inflamed, red, weak, or watery, or, on the other hand, it may become glazed, glassy, and matted, a secretion is more or less quantity. The ear also becomes affected, the hearing varied by loud and violent neuralgic pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, mucous tubes, and lungs become affected, as indicated by catarrh, and when prostration of the nervous system is superadded, such affections become alarming.

A brief survey of this most serious disease warns all who are afflicted with it to make speedy preparation for its treatment, and be cured, if curable. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy for the many distressing ailments, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. Last Night's Dispatches.

EASTERN.

The Kid Glove Question.

NEW YORK, 18.—In the city papers, to-morrow, will appear a brief statement of Collector Merritt's reasons for deciding in favor of the general appraiser's recent advance in the value of imported kid gloves. It claims that a re-appraisement and advance in the value of kid gloves is no new thing; that the recent decision is entirely justified by the evidence furnished by importers; that ostentatious offers to furnish gloves at invoice price were not at the advance, but were made to affect the decision; that the late Collector Arthur had, within six months past, decided in two instances to raise the value of similar gloves from 44 francs as invoiced to 52 francs, or three francs higher than the recent decision, and that the public statements made by the consignees and their attorneys are not sustained by the evidence.

The Tilden Income Investigation.

CHICAGO, 18.—At the Tilden income investigation, to-day, Mr. Larrabee, treasurer of the Chicago and Alton Railroad, identified as correct a bill of $20,000 rendered by S. J. Tilden for legal services. The ledger account in which the bill appeared, also seemed to show that Tilden and Meyer had in their custody, as trustees of the company, bonds and stocks of the face value of $8,000,000; also that bonds and stocks to the amount of $160,000 were missing, and it is presumed were appropriated by Tilden and Meyer to remunerate themselves for their services as trustees.

Who is Responsible?

The *Journal's* Washington special says: The *Republican* states that it is more than probable, from advices from South Carolina, that Probate Judge Lee, who recently represented the grievances of the republicans of that State to the President, has paid a forfeit of his fidelity to republican principles with his life. He was to have been at Sumter on Saturday last, but was not present nor has he been heard from since.

The President has taken steps, through the proper officers, to have the outrage investigated with a view of ascertaining who is responsible, and whether or not there has been an open violation of United States laws. District Attorney Northrup has the case in charge and "will," said a member of the cabinet to your correspondent to-day, "make an energetic investigation of the outrage and report the facts promptly. There is no reason to doubt that he will do his whole duty and make a fearless investigation of the affair, which, according to democratic account, was brutal in the extreme. The administration," said this cabinet minister, "will see that the rights of the colored people in South Carolina are maintained, and to this end will, if necessary, go to the full extent of the United States laws. While we are exceedingly anxious about the condition of affairs, still we are hopeful that outrages will now cease and the republicans be permitted to peaceably assemble and discuss political questions. In a few days we expect to have official reports regarding the outrages complained of, and then will determine whether further action is necessary.

The Vanderbilt Will Case.

In the Vanderbilt will case, Lord submitted the affidavit of the contestant, Mrs. Mary A. Laban. She says that before the trial of this case began she had an interview with the proponent, Wm. H. Vanderbilt, to persuade him to keep his promises, and stated to him certain facts which she intended to prove, and he said if she went on the stand as a witness, Mr. Clinton would attack her and tear her to pieces as a witness.

A Steamer in a Dangerous Condition.

WASHINGTON, 18.—The signal corps observer at New London, Conn., reports that the British steamer *John Bramsall*, from New Haven to Constantinople, with a valuable cargo of arms, struck on Little Gall Island, twelve miles south of New London, during a dense fog, and lies in a dangerous location, with 11 feet of water in her hold. The crew is safe.

The *Bramsall* has on board 32,000 rifles, 42,000 sabres, and 21,000,000 balls and shells, all valued at $980,000.

A Sculling Race.

PITTSBURG, 18. — The Morris-Plaisted two mile sculling race, for $2,000, was pulled over the Hulton course, to-day, and won by Morris who crossed the line about three lengths ahead of his opponent. The weather was disagreeably cold and the number of spectators small. Morris' time is claimed to be the fastest on record. It was 13 minutes and 45 seconds.

The Missing Cheyennes.

YANKTON, 18.—A soldier just in from the Sioux county reports finding the trail of the missing Cheyennes last week, crossing the Keyapaha river, 100 miles west from Fort Randall. The trail indicated a northward movement; it was fresh and well defined. This leads to the conclusion that the Indians have outflanked everything and are now well on their way towards the Yellowstone.

Yellow Fever Reports.

HELENA, Ark., 18.—There is no yellow fever here. The health of the city is excellent and business going on as usual.

Plaquemine, 18.—The Howards appeal for help. There have been 1,100 sick; over 129 deaths in forty-eight hours; 71 now under treatment.

Baton Rouge, 18.—Now have 36 cases; no deaths.

Little Rock, 18.—Heavy frost last night, and coming again.

Memphis, 18.—Have had 14 deaths up to 6 o'clock. Forty new cases reported. Fever has appeared at Jackson, Tenn.

New Orleans, 18.—Dr. W. Zinzer, an active member of the Howarde, died to-day. Slight frost in this section last night.

Applications for relief to the Young Men's Christian Association, 68; Howard, 180. The Peabody Relief Association issued nearly 60,000 rations on Friday.

Donaldsonville, 18.—There have been six deaths to-day; 17 new cases.

WESTERN.

Wreck of a British Ship.

SAN FRANCISCO, 18.—A Portland dispatch says: The British ship *City of Dublin*, while attempting to cross the Columbia River bar this forenoon, ran on the middle sands. She will prove a total wreck. All hands were saved. The vessel came from Wellington, New Zealand, in ballast, consigned to James Laidlaw. She was an iron vessel, 814 tons register. There is probably no insurance on the vessel. The disaster is mainly attributable to the attempt of the master to cross the bar without a pilot. Loss $60,000 to $70,000.

FOREIGN.

GREAT BRITAIN.

Russia and the Ameer.

LONDON, 18.—The *Rush Mir* says: That General Stoletoff, Russian envoy to Cabul, was accompanied when he returned to Tashkend, on the 15th of September, by an Afghan embassy under the Ameer's minister of the interior. General Stoletoff started for Swadia on the 22d of September, leaving the Afghans at Tashkenk. He has probably returned thither by this time.

Movements of Russian Troops.

A dispatch from Vienna says: There seems to be a mystery about the movements of the Russian troops. It is certain that they still hold the Tchataldja lines. Should this occupation last, it is thought the British fleet may return to its position near the Bosphorus.

Resignations.

A dispatch from Rome says: That Ministers Corti, Bruzzo and Brocchetti, who are moderates, have resigned, in consequence of Premier Cairoli's radical views, which favor the unlimited right of public meeting. A dissolution of parliament is not improbable.

An Imaginative Story.

The *Daily News*, in its financial column, alluding to street rumors, says: As far as could be ascertained at the last moment yesterday, there was no foundation for the report that any London bank is in difficulty. On the contrary, accommodation was given more freely. These endeavors to create difficulties by concoctors of this species of intelligence are much to be deprecated. A similar report, which was started relative to a loan from the Bank of France to the Bank of England, may have served the ends of its inventors.

The *Times*, in its financial article, says: No fresh complications were announced yesterday or apprehended. A very imaginative story was started of an arrangement for the Bank of England to get fabulous amounts of gold from the Bank of France. The story was utterly without foundation.

City of Glasgow Bank Investigation.

The official report of the investigation into the affairs of the City of Glasgow Bank, just issued is worse than the most gloomy forebodings. The loss shown in the balance sheet is £5,190,983. This loss, with the addition of £1,000,000 capital, the shareholders will have to make good. The report shows the practice of systematic deception. Thus, since the commencement of the year, weekly returns of the amount of bullion in hand, which the bank was obliged to make to government so as to show that its funds were maintained in due proportion to its note issue, have been falsified by adding thereto imaginary sums varying from £60,000 to £300,000. The directors' reports to shareholders also overstated the amounts of securities or bullion held in reserve by £926,764 and £200,000 respectively, and understated the loans granted by £1,125,784. The directors, notwithstanding the large interest more have been in the habit of including in the balance sheets, £7,345,357 of bad debts, over half of which is due by four debtors, as an available asset. The principal assets of the bank are bonds and shares of the Western Union Railway of the United States, and scrip of the Australian Land Company, the value of which is estimated at £358,450 and £973,845 respectively.

Crowds were assembled before the bank and exchange, awaiting the report which caused consternation. A call for £500 per share is anticipated, which it is thought half the shareholders will be unable to meet. The remainder of the shareholders will thus ultimately be compelled to pay double.

GERMANY.

The Socialist Bill.

BERLIN, 18.—The third reading of the socialist bill was commenced to-day. The compromise amendments agreed upon yesterday were formally brought forward by the national liberals and conservatives. They provide that the newspapers cannot be summarily suppressed for the first offence; that agitators cannot be expelled from the place where they reside for more than six months, and that the emperor shall have unrestricted choice in appointing the president of the court of appeal. The debate will be resumed to-morrow.

Forming Native Armies.

The native armies forming in Bulgaria and East Roumelia, are under Russian officers, equipped with Russian arms, commanded in the Russian tongue, and number about 50,000 men, and forcible enlistments continue. Arms are distributed by the Russians among Christian villages in East Roumelia, while the Turks provide rifles and ammunition for Pomarks in the Rhodope Hills.

Asia Minor Reforms.

The negotiations concerning reforms in Asia Minor at last promise some result. Mixed Christian and Musselman police are to be commanded by English officers. An English assistant judge will be added to each court of appeal. The governor and head tax-gatherer will be appointed and dismissed subject to English approval. These and some other equally important clauses have been approved in principle by the Porte.

TURKEY.

A Transfer—The Russian Army.

CONSTANTINOPLE, 18.—The Russians have transferred the administration of the finances of Eastern Roumelia to the international commission.

The Russian army remains at Babaeski and Soule Bourgas, about 100 miles from Constantinople, and will make no further movements.
