Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite rescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of encorrhea, Fennale Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Their financial responsibility is well known to every newspaper publisher and druggist in the United States, with most of whom they have done business for over a third of a century. From this fact it will readily be seen how utterly foolish it would be for them to make the above unprecedented and remarkable offer if they were not basing their offer on curative means having an unparalleled record. No other medicine than Dr. Pierce's Favorite Prescription could possibly "win out" as the saying goes, on such a proposition. But they know whereof they speak. They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit any preparation especially designed for the cure of woman's peculiar ailments. This wonderful remedy, there-ore, stands absolutely alone as the only one possessed of such unrivaled curative properties as fully warrant its maker it. makers in publishing the remarkable offer above made in the utmost good faith.
