Outside of Daily West there were no remarkable features on the exchange today. A little over 5,000 shares were sold for \$7,348.12. Daily West was the star stock in the pit today and a very interesting pace was set, which puts the record of the past few months in the shade. After selling yesterday at \$20.70 the stock started out today with the sale of 25 shares for \$21.00. From this figure the stock moved rapidly up to \$21.85, when it was found that 295 shares had changed hands. The stock closed with \$21.70 bid and \$22 asked.

Rocco Homestake appeared to be a favorite today, being traded in from 62 up to 63 1/2. The stock weakened to 62 1/2 before the close of call.

Grand Central was a little weaker today with 100 shares going at \$2.20 yesterday, participated today at \$2.13.

Northern Light was also in evidence with sales as low as 3. Sacramento let go a small lot at 33 and was followed by Star Con at around 55. Ben Butler dropped 1,000 at 4.

May Day was quite firm and Yankee Con. was practically unchanged. Dexter was weaker as was Daily, which was offered at \$1.50 with \$1.25 bid.

OPPOSITION OF SCHOOL BOARD

Will Fight Against Proposed Constitutional Amendment.

The board of education held a special meeting last night to decide upon what action the board should take in respect to the proposed constitutional amendment for a uniform county school tax for the schools in the cities and in the county outside of the cities. The matter was informally discussed and as a result Messrs. Critchlow and Young were appointed to draw up an address urging that the proposed amendment be defeated, and to publish it to the people.

The board then turned its attention to matters of finance. The action of the finance committee in directing the payment of \$20,000 for teachers' salaries since the last meeting of the board was ratified. Appropriations were made for salaries of officers and employees of the board and janitors aggregating \$7,597.74. Treasurer Barnett's report for the month of October showed as follows:

Tax collections from county	\$ 5,009.70
Tuition fees from non-resident pupils and sales of high school text books	302.29
Total receipts	\$ 5,311.99
Balance due treasurer Oct. 1, 1900	\$ 3,435.61
Paid clerk's warrants	27,269.65
Total credit	\$71,237.88
Less month's revenues	5,311.99
Balance due treasurer Oct. 31, 1900	\$ 65,925.89

The committee on teachers and school work recommended that the following named persons be employed as teachers: Emma Wright, Mary P. Rickman and Ida Edgingfield, the recommendation was approved. They will fill vacancies in the Washington, Fremont and Franklin schools.

EXPERTS VISIT THE MERCUR MINE

John Hays Hammond Went Out Today With Mr. Cohen.

FROM THE COEUR D'ALENES

Arthur Buckbee is Making a Good Showing-Richer Ore from the Mammoth-The Red Wing Extension.

John Hays Hammond, the noted mining engineer, reached town yesterday afternoon and left today for Mercur in company with General Manager H. A. Cohen of the Consolidated Mercur company. A great deal of speculation is being indulged in regarding the visit of the distinguished gentleman. That something of importance may follow is likely as Mr. Hammond is not traveling for pleasure, but business. The great demand in the East and in Europe for big gold mines, valued at from \$1,000,000 to \$5,000,000 is probably responsible for rumor that the sale of the Consolidated Mercur mines is projected. Others again state that Capt. De Lamar's interest is already tied up and that its sale depends on the result of the present examination. Some also say that the examination is merely preparatory to listing the stock of the Consolidated property on the exchanges of the East and probably of Europe. It goes without saying that while some of the speculations may not be wide of the mark, no one knows just what is on foot.

IN THE COEUR D'ALENES.

Arthur Buckbee Reports Encouraging Progress Near Sunset Peak.

Arthur Buckbee, formerly connected with the Sunbeam of Tintic, is down from the Coeur d'Alene country, where he has spent the past four weeks. While away, Mr. Buckbee has been directing work on the property of the American Mining company, consisting of some nineteen claims on the gold belt. Five men are employed in driving on the ledge both ways from a ravine which cuts the vein in two. The vein is about four feet wide with a pay streak of from one foot to eighteen inches running through it. About 200 feet of tunnel work has been done in one direction and the vein has shown no material change either in size or value. Some of the quartz carries three ounces in gold per ton, but owing to the high freight and smaller charges, Mr. Buckbee is not able to ship any although a quantity of it lies on the dump. It is the intention to further explore the vein with the view of installing a mill when conditions warrant it. Mr. Buckbee pronounced it an excellent prospect and he feels confident that he will yet develop into a paying mine. At present he says a ton of ore valued at \$40 is sometimes taken out per man in 24 hours. This is not always done but the outlook is quite encouraging. A box of fine looking samples have been brought down from the mine, which is located about four miles from the famous Sunset peak where senator W. A. Clark is driving a three-mile tunnel to open up a lead vein.

A SPLENDID RECORD.

Grand Central Ship 52 Cars of Ore in Three Weeks-The Lawsuit.

Fifty-two carloads of ore in three weeks is not a bad record. That is the record of Grand Central, which is the record of the Coeur d'Alene country for the past three weeks. A shipment of two lots of twenty-two cars are now on the way to market. In one of these lots is a whole train of nineteen cars or about 400 tons of ore. Various rumors were current today about the lawsuit. It was stated that the Grand Central will amend its complaint to include \$50,000 said to be due from the Mammoth Mining company for alleged contempt of court in trespassing beyond the restricted area. It was learned from good authority that the complaint will not be amended though it was stated that the Mammoth had trespassed several feet. Another rumor which could not be traced to a positive was to the effect that the Mammoth Mining company was in an infraction on the Grand Central to prevent the action of ore from a point near the disputed territory.

ORE BODY WIDENS.

An Eleven-foot Body of Milling Ore is Now Exposed.

Visitors who have just returned from the Red Wing Extension of Bingham report greatly improved conditions at that property. Work in the mine from the tunnel level has been stopped and the tunnel is being pushed ahead into a very good grade of milling ore, which is said to be about 11 feet wide between well defined walls. The drift has now run through the ore some 40 or 50 feet.

BETTER GRADE ORE.

Mammoth Sells Five Cars Today on Much Higher Controls.

Assay returns were received yesterday from five cars of Mammoth ore which show a much better grade of ore than has been marketed for many weeks past. Settlement was made for the shipment today on controls showing 1.18 ounces gold and 24 ounces silver per ton. For some time past the ore has run from 1/2 an ounce to 0.7 of an ounce gold per ton.

Yankee Con. Survey.

Mr. V. P. Strange was hard at work this afternoon on the plat of the Yankee survey which he made of the Yankee Con. workings last night. The plat was not finished but it is learned from very good authority that it does not show very much difference from Mr. Brown's survey. It was stated today that the South Godiva people have notified the

MINING NOTES.

Milan Packard of the Star Con. was in town today.

A sale of Daily West was reported this afternoon at \$22 per share.

The Grand Gulch mine was on the market today with 2 cars of ore.

The Shawmut of Bingham had a car of concentrates on the market today.

R. H. Nichols has returned from Cape Nome for the winter, but intends returning north next spring.

Work is soon to be started up on the lower levels of the Anchor mine at Park City.

The Conkila Sampler reported five cars of ore from Tule, one from Bingham and two from Arizona today.

Messrs. O. P. Posey and Wm. Bayley were visiting the property of the Bingham Copper and Gold company today.

Charles J. Devereaux and daughter have reached the city from Boston. Devereaux has been a stockholder in the Mercur mine for several years past.

Frank E. Wilson, the well known mining man, was on the street today for the first time in three months, during which time he nearly succumbed to an attack of typhoid pneumonia.

The report from the Con. Mercur property show that 30,699 tons of ore were milled during the month of October, which is 1,791 tons more than were milled during September.

Manager George W. Keel of the Butterfield Mining company was in town today and reports work on the new mill progressing nicely. He expects to have it running by Christmas.

Manager J. G. Jacobs of the Salt Lake & Mercur Railway went out to Bingham today to look over the route of the extension from Bingham terminus to the United States mines. The deal has not been definitely closed yet between Mr. Jacobs and the Rio Grande Western Railroad company, but it is practically certain that Mr. Jacobs will build the road.

MARKET SMALL BOTH WAYS

Higher Prices in London Caused Sympathetic Advances in Internationals.

Particular Efforts Against Sugar-Union Pacific Loses Two Points-Support for Some of the List.

New York, Nov. 2.-Higher prices in London caused sympathetic advances here in the international stocks, but selling met the advance and some stocks receded. Pennsylvania, which sold ex-dividend of 3 1/2 per cent, opened unchanged. The bears doled out small amounts of various stocks to test the market and as prices gave way easily, particular efforts were made against sugar, Brooklyn Transit and Manhattan. These stocks lost large fractions. Atchison preferred and U. P. lost 1/4 each. Support appeared in spots while certain stocks continued to decline, causing a very irregular market. The market, however, was small both ways in the active list. Liquidation in lines preferred forced it 1/4 lower. At midday the transactions were steady. The steel stocks rose, and sugar, Pennsylvania, B. & O. and People's gas declined. There was not enough doing in other stocks to indicate a tendency.

There was a slight rise in prices on small dealing. During the final hour. Prices gave way again late in the day. The closing was quiet and heavy, and net changes were insignificant.
