MINING, BUSINESS AND STOCKS

EXCHANGE WILL HAVE NEW HOME

Samuel Newhouse Makes Gift of Valuable Lot Fronting Cactus Street.

PROFFER HAS BEEN ACCEPTED

President James A. Pollock Stated He Could Place $60,000 Worth of Bonds.

The permanent home of the Salt Lake Stock and Mining exchange is to be down among the Newhouse skyscrapers. This matter was definitely determined yesterday when the members of the exchange organization met after the close of the day's trading, and, by a unanimous vote, decided to accept the gift of a lot 82x92 feet from Samuel Newhouse. The property faces Cactus street, the short avenue running north and south between Exchange Place and Fourth South street and directly in front of the site of the new Commercial club building. At the least calculation the ground is valued at $50,000; it cost Mr. Newhouse approximately $37,000 two years ago.

Mr. Newhouse, in making this donation to the exchange, placed only one proviso upon members of the brokers' organization, which is that they erect a suitable building—one that will be in perfect harmony with others in the vicinity—on the premises. That the donor's wishes in this respect will be fully carried out there is not the slightest reason to doubt. Judging from the enthusiastic manner in which members expressed themselves it will not be very long until the money required for the building will be forthcoming. Ways and means were discussed. Someone suggested that a start be made by a voluntary assessment from each member of the exchange. This plan met with some opposition, but the idea of issuing bonds seemed to be favored. A number of the exchange members said they would subscribe for the bonds and President James A. Pollock declared that he could place at least $60,000 worth of them in western hands without the slightest trouble.

In recognizing the exchange as he has done, Mr. Newhouse has only carried out what he promised President Pollock he would do more than a year ago. The mining man realized the fact that the exchange does more business than any other like organization in the country and expressed a desire at that time to do something substantial towards raising it to a higher rank. A high tribute has been paid him by the brokers, and this is the first instance where a mining man of wealth has taken such interest in its welfare.

A vote of thanks was tendered Mr. Newhouse and the brokers left the dingy old exchange room on Second South enthusiastic in the belief that before another year will have rolled by they will hold forth in one of the prettiest exchange buildings to be found anywhere in the United States. It will cost at least $100,000, probably more.

FINE ASSAYS OF COPPER ORE

Conditions at Nevada Douglas Mine Are of a Highly Gratifying Character.

REPORT OF SUPT. S. S. ARENTZ

Company Shipping Ore Encountered During Natural Course of Development Work.

One of the most gratifying reports ever received from Mine Superintendent S. S. Arentz of the Nevada Douglas Copper company at Yerington, Nev., was received by General Manager Walter C. Orem today.

"Conditions in the mine generally," says Mr. Arentz, "are most encouraging and developments in the south 550 drift especially, is of a pleasing nature. We have six feet in this working with an average of 14 per cent copper. The north 650 raise is showing up nicely with a face of ore assaying 20 per cent copper. There is no material change in the other two working places, that is, in the north 650 drift and in the main south 650 drift. Assays for the week in the north 650 showed 11, 19 and 27 per cent copper and in the No. 2 cross-cut of the west south 650, 5, 8, 7.2, 19, 9.5 and 16.3 per cent copper."

"The company is shipping at the present time only the ore encountered and of necessity brought to the surface during the natural course of development and the average of the three classes thus brought forth was 8.5, 19.2 and 17.7 per cent copper.

It is expected that the hoist will be ready for work in about ten days.

Another car of ore will be shipped in a few days.

BEARS SOLD LIST FREELY

Market Opened With Speculation Rather Irregular, With Tendency Downward.

GENERALLY WAS NO SUPPORT

Near Close Brisk Demand Sprang Up Which Cancelled Day's Losses, Caused by Buying Harrimans.

New York, Aug. 20.—Speculation was slightly irregular at the opening today but although the tendency was downward, losses were trivial except in the Hill stocks which lost a point.

Slight advances prompted renewed selling which was directed mainly against the Harriman, Rock Island and metal stocks. The rest of the list was affected sympathetically but offerings were moderate. New York Central, which showed some firmness at the outset, was forced down from 102½ to 101. Rock Island preferred made a rapid decline to 29, a loss of 3¼. Union Pacific, Baltimore & Ohio, Rock Island, Louisville & Nashville, Illinois Central, Amalgamated, American Smelting and National Lead fell 1.

The apparent absence of support to many of the representative stocks encouraged the bears to sell the list freely. Liquidation also was observed in certain stocks and the general market was waker than for some time. American Smelting gave way 2⅜, Amal., American Locomotive, National Lead, Granby Mining, U. S. Pipe preferred and Louisville & Nashville 2, St. Paul and Pressed Steel Car 1¾, Union Pacific, Northern Pacific, Reading, Chesapeake & Ohio and Brooklyn Transit 1½ and some other stocks a point or thereabouts.

Bonds were heavy.

New York Central broke to par before the decline in the market was checked. Rallies of half a point followed and trading became very dull.

Recoveries were increased to the extent of a point or so when Southern Pacific which rose over 2 points and crossed to above yesterday's close. Business became progressively smaller as prices ascended.

The market closed active and strong.

A brisk demand sprang up which cancelled the day's losses and placed a number of stocks fractionally above yesterday's closing. The rise had its inception in the buying of the Harriman stocks, particularly Southern Pacific, which rose over 2 points and rosed to 99. Union Pacific and New York Central also gained a point.

PRODUCE.

CHICAGO.

Chicago, Aug. 20.—A penny advance in the price of wheat at Liverpool contributed largely to a strong tone in the local market today and brought out an active demand from commission houses. Offerings, however, were meager. A report from St. Louis that a large quantity of flour had been sold there to people abroad helped strengthen the market. September opened ⅜@½ to ¾@⅞ higher at 93⅝ to 94, and advanced to 94⅛.

The corn market was strong, particularly for September delivery. September opened ⅜@½ higher at 77½ to 77⅝ and advanced to 78⅛.

The feature of trade in oats was the urgent demand for September delivery by shorts. September opened ⅛ to ½ higher at 48½ to 48⅞ and sold up to 49¼.

Provisions were quiet and firm. The firmness was due mainly to the strength of coarse grains. September pork was up 2½ at 14.80. Lard and ribs were also each up 2½ at 8.25 and 8.72½ respectively.

Close—Wheat—Sept., 93⅞@94; Dec., 94⅞; May, 98⅞.

For September the high point of the day was reached at 94⅜@94½. The close was irregular, September and December being firm and May easy. Final quotations on September were ½ higher at 77⅝.
