# CHICAGO POLICE ACT WITH VIGOR

Municipal, State and Federal Authorities Wage War on Anarchy.

PLANS ARE BEING LAID.

Aldermen Prepare to Frame Ordin ance Giving Officials More Power In Handling Agitators.

Chicago March 3 .-- White city, state and federal authorities put plans on foot today to stump out anarchy in Chicago, the police department pursued with new vigor its search through the haunts of radicals in the ghetto distriet for anarchists who might have a possible connection with the attempted assassination of Chief of Police Shippy assassination of Chief of Police Shippy yesterday. The net results of police activity during the day and evening was the rounding up of nine suspects. Three arrests which the police considered important were made late in the offernoon. A man who gave his name as Harry Goldstein, and who is said to be an agent for the Edelstadt society, an anarchistic organization at 427 Union street, was taken into custody at Halsted and West Fourteenth streets while distributing handbills of a rabid anarchistic nature. streets while distributing a

Two other suspects, whose names were withheld, were arrested and subjected to a rigid examination at the city hall. One was taken at Halsted and West Taylor streets and the other at Washington street and Fifth avenue, in the loop districts. A clew secured early in the day led to the arrest of Isadore Maron, who for a time was believed to be the "curly-haired" companion of Averbuch, the would-be assassin, as described to the police by Olga Averbuch, sister of the dead man. This was later decided to be not the case, but Maron admitted sufficient association with Chicago anarchists to warrant his being placed in a cell, Amother clew led to the arrest of William H. Abramovitz, 20 years old, a Russian Jew, a student at the University of Chicago night school, and employed as a printer in the daytime. His "sweating" by the police lasted until late in the evening. The others under arrest were held more because of their affiliation with anarchistic societies than from any expectation of connecting them with the attempted assassination of the police head.

CONFERENCE OF OFFICIALS.

CONFERENCE OF OFFICIALS.

CONFERENCE OF OFFICIALS.

The organized movement against anarchy by the authorities began with a conference at the home of Chief Shippy, in which Mayor Busse and Asst. Chief of Police Schuettler took part. It resulted in a meeting being arranged for tomorrow, at which the mayor, the police officials and States Atty. Healy will try to work out a plan of co-operation. Dist. Atty. Sims also met a number of city officials in the mayor's office, and the question of federal assistance in the rooting out of anarchy was taken up. It was conceded on all sides that the efforts of the various branches of authority should be directed toward the suppressing of the propaganda of anarchy and of meetings where incendiary harangues are made.

Mr. Sims after the conference declined to discuss the measures contemplated, but said that any steps that may be undertaken by the federal authorities will depend upon the procedure of the city and state officials. Asked if the federal grand jury would take up any phase of the situation, he replied that there was nothing that the grand jury could do, the immigration law, providing deportation for anarchists, being the only recourse un-

tion law, providing deportation for an-archists, being the only recourse un-less a government official should be attacked.

CITY COUNCIL TO ACT.

In the way of possible municipal legsislation to be aimed at agitators, it was said that new ordinances would probably be ordered at a special meeting of the city council.

Goldstein, who is regarded as one who knows more about the conspiracy to kill than any of the suspects thus far arrested, sithough taken with a bundle of handbills announcing the coming of Emma Goldman and pictures of Herr Most and other anarchists in his possession, denied that he was an anarchist. Louis Epstein, 52 O'Brien street, with whom until last Saturday night Goldstein roomed, said that the latter came to his home four months ago. At that time he said that he had just arrived from New York, Late Saturday night Goldstein packed up his books and clothing and announced that he was going to Milwaukee. It was learned, however, that he went to a house in Johnson street, where he obtained a room. He was said to have been a leader in the meeting which was attended by Averbuch on Thursday night. Goldstein conducted a book stall in the Progressive club, an organization haugurated by himself and others in the vicinity of his Union street boarding place.

Meetings were held every Friday evening and Sunday afternoon, at which meetings, according to J. Liebling, owner of the building in which they were held, speeches savoring of anarchy were frequently made.

The tonic treatment for indigestion is taying remarkable success in curing obstinate cases of that distressing malobstinate cases of that distressing malady and deserves attention from every sufferer. Its principle is that remedies for indigestion that digest the food for the stomach give relief for only a short time Ultimately they unfit the stomach to do its own proper work, because they make its already weak power still weaker by disuse, while the romedy that strengthens the stomach makes it more and more capable of digesting the food for itself and this benefit lasts. A Hebrew paper containing an account of the assault on Shippy, was found in his possession, also a slip of paper bearing the address of Abram Ovitz. Investigation showed that the address was that of Policeman P. J. Stokes, with whom it was learned Abram Ovitz had boarded for several weeks. Stokes was greatly astonished to discover that his boarder was possibly connected with the attempt to kill his chief. University of Chicago professors when questioned disclaimed any knowledge of Abram Ovitz' anarchistic tendencies, and said that he was taking a course of economics at that taking a course of economics at that

MARON WOULDN'T KILL.

Maron gave the police a clue to the identity of Rose Stern, the young woman who lived at the Averbuch home until two weeks ago. Olga Averbuch had repeatedly declared that she did not know her last name and refused to give any information concerning her. Maron declared that the two women had been friends in Kishinev. He said that he and the Stern woman had come to America in the same steamship two to America in the same steamship two years ago, and that it was through her that he became acquainted with the Averbuchs.

He denied all knowledge of a plot to assassimate.

PRECAUTIONS BEING TAKEN.

Commissioner Bingham Has Twenty Extra Men Working in Wall St.

New York, March 3.-Greater pre-New York, March 3.—Greater precautions have been taken and are being continued for the prevention of anarchist violence in this city, according to statements made today by Police Commissioner Bligham. These measures were adopted, the commissioner said, after letters of a threatening nature had been received by Archibishop Farley and one of the deputy police commissioners and following the distribution of a circular advising the people to march to Wall street and take what they wanted.

Twenty additional men have been added to the detective bureau in tha financial district and the closest watch is being maintained in all sections of the city.

Chleago, March 3.—That Lazarus Averbuch, in attempting to assassinate Chief of Police Shippy, carried out a commission entrusted to him by a group of Chicago anarchists, was declared by Assistant Chief of Police Schuettler tonight to have been proved beyond a doubt. The discovery was made just as the police were about to accept the theory that the young anarchist acted upon his own impulse and that the attempt was not the result of a conspiracy. The group of anarchists also plotted, accerding to information in the hands of the authorities to assassinate Mayor Busse and Capt. P. D. O'Brien of the detective bureau.

The principals in the plot have not yet been discovered, but it is said that Averbuch was picked to execute the order of death at a meeting of anarchists which he attended last Thursday night. It was on that ofght, upon his return to the home of his sister, tilga Averbuch, 218 Washburn averue, that the young Russian contemplated suicide, as described by the sister to the police. Averbuch instead of going to night school as his sister declared he did, is said to have been in nightly communication with a band of radical revolutionists, and it was at a meeting of these men that Averbuch was chosen to 'reconvo" the police head. Later one of the men informed Averbuch that he had looked up the address and gave it to the young Russian, written on a scrap of paper. At the time, Aevrbuch's interest in the police officials falled to arouse suspicion, but, being recalled after the attempt upon the life of the chief, was

Tonight's developments followed a day of activity on the part of the city state and federal authorities which resulted in the formation of plans for co-operation in the work of stamping out anarchy. In the meantime the pellee department was pursuing with new vigor its search for radicals throughout the ghetto district.

WATCHING IN PITTSBURG.

Police Keeping Their Eyes Open-Chief McQualde's Policy.

Pittsburg, Pa., March 3.—Persons in Pittsburg of anarchistic tendencies are being closely watched and renewed of forts are being directed toward the capture of foreign blackmalling or

ganizations.

Supt. McQuaide says he is pleased that the Chicago assailant was killed and that he will endeavor to secure co-eperation with the police chiefs of other elties to assist in getting rid of the undesirable foreign element.

"Had his life been spared and the case have come to trial, riots, blood-shed and possibly deaths from violence would have resulted," Supt, McQualde said.

said.
"There is no question in my mind that the attempt upon Chief Shippy's life was the direct result of the assussination of the Denver priest.
"The moment a foreigner announces hims if or herself to have, or can be proven to have, anarchistic tendencies he or she should be immediately sent back to their native land."

# LITTLE REPUBLIC INDEFIANT MOOD

President Castro Refuses to Arbitrate Claims of American Citizens.

Caracas, Venezuela, March 3.-(Via Willemstadt, Curacoa, March 3.)-After an interval of seven months W. W. Russell, the American minister, has presented to the government of Castro another note from the Washington government insisting upon arbitration of claims of those American citizens who believe they have suffered injustice at the hands of Venezuela. This action was taken by Mr. Russell on

In this new note Washington reiterates its previous demands. Judgment is expected momentarily in the suit brought by the government for the an-nulment of the famous Flitdgerald con-cession, now the property of the Orinoco

orporation.

President Castro has twice refused to sumhit to arbithation the American claims mentioned in the foregoing dispatch.

dispatch.

The last refusal was in July, 1997. The five claims which form the basis of the present negotiations are those of A. F. Juarett, the Orinoco corporation, the Orinoco Steamship company, the New York & Bermudez Asphalt company and the United States & Venezuela company, otherwise known as the Critchfield concern. These claims run into millions of dollars.

FUTURE PLANS VAGUE. Senate Has Asked for the Files and May Press Claim Further.

Washington, March 3 .- Venezuela has again declined to arbitrate the questions of controversy which have been pending for some time between the Castro administration and the American government. This time the refusal is made specific with respect to each of the questions separately, and differs from the last refusal to arbitrate in that the refusal then was made as t

from the last refusal to arbitrate in that the refusal then was made as to all questions en bloc.

It was explained at the state department today that the presentation by Minister Russell of each of the five points in dispute with a request for arbitration leaves no foundation for a future representation by Venezuela to the effect that she was not asked to arbitrate any of the questions separately. This would seem to clear up the situation by making it plain that diplomacy can accomplish nothing further toward settling those controversies.

That this deadlock will be made to appear to the United States senate when it receives the contents of the files of the state department respecting Venezuela—Information for which it asked last week—there can be no doubt.

In asking arbitration of the differences, the American government has left open the question of machinery of the arbitration to be employed. This government would have been glad to have had the controversy go to The Hague. Falling in this, it is believed any other duly appointed tribunal would have been acceptable.

# The Only Food

The only wheat food that is perfectly cooked a pretty strong claim, is it not?

Steam-cooked for six hours—then thoroughly cured-then baked at 400 degrees.

It requires 96 hours to turn wheat into Mapl-Flake. Yet flaked food can be made in from 18 to 20 hours. Let us tell you what a difference that makes in the food.

Wheat is composed largely of starch.

Starch, to be digestible, must be made soluble." The particles must be separated, so the digestive juices can get to them.

You cannot digest raw starch. '

The only way to break up the granules of starch is to apply a fierce heat, and for long. That is why wheat is flaked—to get it so thin that the heat goes through.

In baking bread, the inside of the loaf never gets heat enough. That is why bread doesn't all digest. That is why more will digest when it's toasted.

The more starch you break up by heat, the more food you will get. But no form of wheat foodsave Mapl-Flake-is so cooked that all of the wheat becomes digestible.

Mapl-Flake alone is all food.

That is why Mapl-Flake is the most economical food. It is all nourishment.

But that isn't all. When only half of a food digests the other half ferments and breeds germs. It always causes, in some degree, symptoms of indigestion. Dyspeptic symptoms are usually due to the failure of starch to digest.

Mapl-Flake is cooked with pure maple syrup. That's for the children, mainly—to make them like the food that is best for them. "It's All Food"
