PACKY MCFARLAND BEATS JAMES EDWARD BRITT

Colma, Arena, San Francisco, April 11.-Packy McFarland, the Chicago light-weight, made short work of Jinnmy Britt this atternoon in their scheduled twen-ty-round contest. Britt was sent to the foor three times in the sixth and last rund by powerful right wallops on the point of the jaw. He took the count of nine twice and after the time keeper had counted five. Britt's father jumped into the ring and waved McFarland away. It was practically a clear knockout. Mc-Farland outclassed Britt from start to fin-ish.

The ball game at Walker's field on Sat-urday afternoon between the Logan Aggies and the L. D. S. U. teams was witnessed by a good sized crowd and the fans present enjoyed the game greatly. PRESIDENT ROOSEVELT SAYS

The Only Food

The only wheat food that is perfectly cookeda pretty strong claim, is it not?

Steam-cooked for six hours-then thoroughly cured-then baked at 400 degrees.

It requires 96 hours to turn wheat into Mapl-Flake. Yet flaked food can be made in from 18 to 20 hours. Let us tell you what a difference that makes in the food.

Wheat is composed largely of starch.

Starch, to be digestible, must be made soluble. The particles must be separated, so the digestive juices can get to them.

You cannot digest raw starch.

The only way to break up the granules of starch is to apply a fierce heat, and for long. That is why wheat is flaked-to get it so thin that the heat goes through.

In baking bread, the inside of the loaf never gets heat enough. That is why bread doesn't all digest. That is why more will digest when it's toasted.

The more starch you break up by heat, the more food you will get. But no form of wheat foodsave Mapl-Flake-is so cooked that all of the wheat becomes digestible.

Mapl-Flake alone is all food.

That is why Mapl-Flake is the most eco-nomical food. It is all nourishment. But that isn't all. When only half of a

food digests the other half ferments and breeds germs. It always causes, in some degree, symptoms of indigestion. Dyspeptic symptoms are usually due to the failure of starch to digest.

Mapl-Flake is cooked with pure maple That's for the children, mainly-to syrup. make them like the food that is best for them.

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided,

however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing.
