

THE EVENING NEWS.

GEORGE Q. CANNON.

EDITOR AND PUBLISHER.

Monday, January 5, 1873.

THE unusually lengthy and more than ordinarily interesting nature of the dispatches to-day crowd out editorial and other articles.

TODAY the Twentieth Session of our Territorial Legislature convened, as per adjournment, in the City Hall. The people of Utah have been singularly fortunate in their selection of representative men. From the first organization of the Legislature until now legislators, not politicians, have composed the Assembly, gentlemen who have "served the country for the country's good" and not for private gain or personal ambition. They have received the suffrages of their constituents without any solicitation on their part. Indeed the service they have rendered the Territory has been attended frequently with much personal inconvenience and disarrangement of business affairs, for which they have received no compensation. The policy pursued in the Territory has not been favorable to office-seekers and aspirants to political influence. All salaries and fees within the control of the Legislature have been placed at a very low figure, and the people have been trained to regard the professional politician with distrust and the ambitious bidder for place with aversion. The consequence is that official positions—municipal, county and Territorial, have been filled by men whom the people wanted, and who have worked solely in the people's interests. This is why economy and efficiency have been distinctive characteristics of the administration of our affairs. This is why our cities and counties and the whole Territory are free from debt, while the country has been developed and steady improvement has clearly marked each successive year in our history. The deliberations of our Assembly have been justly admired for their dignity and earnestness, and the entire absence of those personal animosities and belligerent attacks so common in legislative bodies elsewhere. Our Councillors and Representatives meet for business, the people's business; they transact it and adjourn; they have no private axes to grind on the stone of State, so they have no struggles to grip the handle nor to elbow themselves to the front. During the score of years that our Legislature has been in existence it has saved to the country one year's appropriation, while all the other Territories have found themselves in need of far more funds than the regular federal allowance. The laws they have passed have been framed to meet existing requirements, and while conservative of public and private rights have been liberal in spirit and progressive in tendency. We are proud of our Legislature. Though many of its members may not be profound and experienced statesmen, they are all able, earnest and public-spirited men, and have this characteristic—a shining contrast in this age of bribery and greed—they are incorruptible! We welcome the members of the Twentieth Assembly to our city, and wish them a pleasant and profitable session, and invoke upon them the spirit of wisdom and judgment, that all they do may be in the interest of righteousness, peace, good order, and the prosperity of the Territory.

LAST evening a number of gentlemen representing the principal mercantile houses of San Francisco arrived by U. C. train. The object of their visit is to offer inducements to our merchants to trade with the coast. They have found that the high-profit policy of California doesn't pay, so far as the Utah trade is concerned, and have concluded to try what "small profits and quick returns" will do towards winning the Salt Lake. They talk of turning the tide of commerce west of the Rocky Mountains in its proper channel—the coast of the waters take.

We are glad to see these gentlemen and our business men will, no doubt, be glad to hear them. The rise in prices since the great Chicago fire and the blockade on the U. P. railroad have conspired to assist these gentlemen in making their overtures. We want cheap goods and a quick return of orders and if "Frisco" can give us the former the U. P. road will give us the latter.

EASTERN DISPATCHES.

MATAMORAS, Mexico, 7.—Trevino was expected to move from Linares with a thousand men to attack Matamoros with six hundred men by the river road.

CHICAGO, 8.—The northwestern train last night brought through passengers, mails and express from San Francisco of 19th, 2nd and 26th Dec. There were about 300 passengers, mostly from the coast.

NEW YORK, 8.—A Herald Philadelphia dispatch states that in course of conversation at the residence of ex-Secretary Berie last evening, a correspondent was informed that President Grant had demanded an apology from Spain about five days since. The monitors now being fitted out at Philadelphia are not intended to proceed to Spain, unless that Government refuses to apologize and pay remuneration for the outrage on the Florida. The President does not think the outrage an intended insult on the part of Spain, but he deems it rather the result of rashness of subordinate officers of that Nation.

The President and Stokess had a long conversation on the Spanish difficulty. The President is more than ever determined to exact an ample apology.

In consequence of the rumor last night that the 9th regiment (Fisk's) intended to lynch Stokes, the Tomb's were guarded by a force of police, but the apprehensions were groundless and President Smith of the board of police stated yesterday that it was the intention of the prosecuting officers of the county to have Stokes indicted by the Grand Jury and to have the trial held at the coroner's inquest would be tedious, the proceedings would be set aside, Stokes would be indicted forthwith, arraigned and plead the same day. It is expected that the trial will take place within 30 days.

It was rumored last night that Miss Mansfield had disappeared and could not be found in the city. The rumor is generally credited to the probability that she will be a witness in the trial.

On Thursday last, Fisk offered to advance two hundred and fifty thousand to pay the police department for December. The money was to have been furnished to-day.

While Stokes was being taken to the Tomb yesterday, he chafed indignantly with the police captain, asking him if he would get him a bottle of wine, as his stomach was out of order. The captain refused, and he begged the Captain to stop and let him have a drink. This request was also refused. The captain remarked that Fisk was very ill and not expected to

live. "I shot him in the abdomen, didn't I?" said Stokes. "I never saw him when they were carrying him." The captain described the nature of his injuries. "I heard the 9th regiment fellows were going to turn the Mansfield house inside out last night, is that true?" asked Stokes. "Yes, that is true," said the captain. "If those fellows were to run across me, they would meet their match," he added. As he was crossing the Tomb's court yard he said, "One of those fellows had a no-me-at-reared-for-embalming \$35,000."

He was locked up with another prisoner. His lawyer had a long conversation with him in the morning. After breakfast yesterday he said, in conversation with a reporter, "You need have no fears for me, I am no murderer. I have read the papers, and I assure you there is a tale yet untold."

When informed of Fisk's death, he said, "Well, it is a sad loss to the business community, but the papers should not prejudice me by calling me a murderer, some of them are. I have a reputation. I never wished Fisk any personal harm, never dreamed of offering any. I could say more, but my counsel have closed my lips."

Being asked to follow Fisk's carriage down Broadway yesterday, he said that statement was preposterous. "I rode down from Yorkville Court yesterday afternoon, in company with assistant district attorney Fellows and Judge Smith. We stopped at the Delmonico's and took some lunch. I had no knowledge from any source of there being any indictment found against me. Had I heard such, I would not have loved it, for I knew there was nothing to warrant such a proceeding."

Reporter—"It is the general impression that the severe examination of Mrs. Mansfield, added to the alleged remarks of Judge Barnard, that you were indicted, drove you to desperation, that you intercepted Fisk on Broadway, and followed him two blocks."

Stokes—"There is not one particle of truth in that report. There was nothing occurred at Yorkville Court to discompose me. On the contrary I think the case was much in my favor."

Reporter—"Do you have any fear for the result as regards yourself?"

Here Stokes took a small wallet from his pocket, saying, "Do you see that wallet?" "Well, as sure as you see it, just as sure will I be acquitted by any jury that can be impeached."

The coroner's jury will meet at Fisk's late residence this morning. It includes Marshal Roberts, George Opdyke, Henry Clowe, David Dawes, and other prominent gentlemen.

The examining physicians stated that Fisk's heart weighed 58 ounces. The counsel for Stokes includes John Graham, Jno. McKean, and Roger A. Pratt.

Wm. O. Bartlett, who accompanied Stokes in a coupe and who is supposed to have bought the pistol for him, has been arrested, also the driver of the coupe.

The crowd of gamblers who, until the police interfered, did a thriving business, appear to have scattered over the country.

LOS ANGELES, 7.—The Arizona mail, with Prescott dates to Dec. 30, were received last night. No heavy rain had fallen in the Territory this season. The Miner suggests that action be taken to secure a tri-weekly mail with California. There is talk of extending facilities to Hardyville and other mining places. No depredations with Apaches are reported. The through mail with west letter dates of the 28th passed Santa Barbara to-day for this city, the first of the two weeks.

Lines from Wilmington to Anaheim will resume trips to-morrow.

Memorial Services for Marshal Prim-Thunder and Hall sent from London. Death of Joseph Gillot. Expedition after Livingston—Strike in Belgium—Scene in the French Assembly.

MADRID, 6.—Memorial funeral services in honor of Marshal Prim were celebrated yesterday. King Amadeus attended in person. Seniors Daza and Zorita were not present.

BUDAPEST, 6.—The Senate has approved without amendment the convention for the settlement of the railway question by a vote of 31 to 5.

LONDON, 6.—The Attorney-General, chief secretary of Ireland, in an address to his constituents, declared that the government must be firm in repressing rebellion in Ireland, and should not be deterred by the loss of education in the hands of the priests.

A terrible thunder storm prevailed in this vicinity last night. Fisk fell to the depth of two inches. The roofs of nearly all exposed windows is destroyed.

The Prince of Wales is still improving.

Joseph Gillot, steel pen manufacturer, is dead.

The government having refused to help the geological society to organize an expedition to search for Dr. Livingston, it now appears to the people to be a great mistake.

Dr. Livingston is reported to have said: "I will give fifteen million francs to the president of the French Republic and at the end of that time Gambetta will be in his place and the change will be favorable to the imperial cause."

stoned and some of them seriously injured. The civil authorities have sent for troops to preserve order. Similar troubles are imminent at Charleston, and troops have been sent there.

PARIS, 6.—The prosecution of a man named Cramer, for shooting a member of the Duke, who was supposed to be a Prussian spy, has commenced.

PARIS, 7.—There was an uproarious scene in the Assembly yesterday, on the occasion of reading a large number of petitions, praying for the restoration of monarchy. Some of the petitions wanted Count De Chambord, others Count De Paris, for king. The presentation of the petitions was a scene of confusion, and the reading of them was interrupted by frequent demonstrations, while the Republicans and Radicals made no opposition throughout the reading, which was often interrupted. The election of Victor Hugo was considered almost certain. It is said that his return to the assembly will defeat the pending motion for the transfer of the seat of government to Paris, and that the restoration of monarchy is favored by the Assembly.
