SURETY AGENT **ARRIVES IN TOWN**

M. Abbott of New York Investigates the Van Kuran Case.

WILL BE NO COMPROMISE.

Van Kuran Will Either be Vindleated or Have Penitentiary Staring in His Face.

C. M. Abbott of New York, special agent for the National Surety company, arrived in this city this morning and registered at the Knuisford. Immediately after registering he adjourned to the office of Auditor Hills of the Oregon Short Line and proceeded to get acquainted with the facts surrounding the alleged defalcation of ex-Local Treasurer Van Kuran. This afternoon the accused man met with the special agent and Auditor Hills in the latter's office, the three gentlemen being closeted together until a late hour.

When seen this afternoon Mr. Abbott said: "I am very sorry that I have to come here on such an errand, as the Oregon Short Line has always been regarded by our company as being exceedingly free from any of its employes occassionally slipping a cog. There is no need to take any indecent haste in disposing of this case; Mr. Van Kuran is right here and will not run away and we will go thoroughly over the books and see just where this error comes in. If it transpires that the error was made with criminal intent of course there will be only one thing for me to do-swear out a warrant for arrest. I do not anticipate, however, that any steps will be taken in the matter for a day or two yet as the company I represent is no in the habit of acting hastily in such matters.

In answer to a question to the effect that if a compromise was arrived at and the missing \$3,300 made good whether the surety company would be content to let the matter drop, Mr. Ab-bott said with a smile, "If it were known that we ever did such a thing we would have to go out of business right away, for we would have all the young comment in the country bottlar. scampe in the country bolting in all directions." The agent was emphatic in his statement that in every case where a man had wilfully misappropriated the funds of his employer that he was prosecuted to the limit. In course of further conversation Mr. "I travel all over the Abbott said: share for junkets this session, has been United States on just such business, and was coming out to Onnaba, when I was notified to proceed at once on this case. I never know when or where I will hang up my hat next. Considering the number of men we have to go bonds for I can truthfully say that the percentage is extremely small of those who go wrong. It is soldom that we lose any large sums, and very soldom that a married man who has arrived at the years of discretion slips a cog. Nearly all the cases we have are those of young men who are inclined to kick up their heels. Yes, in this business, one runs up against some very peculiar phases of human life, and if I were to tell you some of the things that I have enc tered, they would make a vellow-backed cheap novel pale into insignificance in this session of the Legislature at

to Provo who had no business there; that it had caused some annoyance, and in order to overcome the difficulty the president said that the Speaker of the House had prepared tickets for the members of the Legislature.

Spice loo

This announcement brought Senator Smoot up standing, who said that it was an unwarranted presumption and an insult on the part of the Speaker. He said that he had no business with the tickets, that the Speaker could take them back. Senator Smoot waxed very warm, and said that the Speaker would run up against a snag when he attempted to run the train and everything con-nected with it. The Legislature had appointed a committee to look after the matter, and the Speaker's tickets would not go with him. At the time this report closed the

Speaker was receiving an unmerciful drubbing at the hands of Senator Smoot, who holy denied that any one had gone to Provo who was not wanted, and that the city of Provo was disappointed that there were not more people in the excursion.

Princess of the Asturias, was today wedded to Prince Charles Bourbon. At half past ten o'clock this mornng there assembled in the private apartments of Queen Regent Maria Christina those forming the bride's party, consisting of her mother, the queen regent; her brother, the boy king Alfonso XIII; his sister, the Infanta Maria Teresa; her aunts, the Infantas Isabella and Eulalie; her uncle, Arch-

duke Eugene of Austria, her grandmother, Archduchess Elizabeth, with all the high retainers of the court, ladles in waiting, grandees of Spain and gentlemen in waiting. At the same hour, in like manner,

At the same hour, in like manner, there gathered in the apartments of the Infanta Dona Isabella, the persons com-posing the party of the bridegroom. These were the parents of Prince Charles, the Count and Countess of Caseria, the Duke and Duchess of Calabria; his sisters, Dona Maria Im-maculata, Dona Maria Pia and Dona Maria Josephine, and their train of la-dies and gentlemen. dies and gentlemen. The bridgegroom's party emerged first

and proceeded along the winding, mas-sive granite corridors to the chapel, being immediately followed by the bride's cortege from the queen regent's apart-ments. Their places were respectively to the right and left, but in front of the altar the bride and bridegroom stopped at the steps leading to the al-tar and there kneeled, thus remaining throughout the more throughout the mass, which was said by Cardinal Sancha, archbishop of Toledo, primate of Spain, Assisting were Cardinal Casaares, archbishop of Valladolid; Cardinal Herrera, archbishop of Santiago de Compostella, and Cardinal Casana, bishop of Barcelona, Also attending were the bishop of Madrid, the bishop chaplain of the Plaace de Sion, and several other prelates, church dignitaries and cardinals, whose places were within what might be termed the presbytery. The mass celebrated was low mass, there being no singing, though the organ performed

bride and groom and pointed out the obligations the prince and princess were under to give a good example to those in an inferior station of life and then bestowed the papal and his own benediction.

Arm in arm, the newly wedded couple arose and left the chapel, followed by a single cortege, the two family parties merging into one, instead of leaving separately, as they had entered. They traversed the long corridors to the apartments of the queen regent, where a record of the marriage was entered in a special civil register, the royal family and the same witnesses signing who signed the wedding contract on Tuesday.

This ceremony ended, all repaired to the state dining room, in which the be-thothal ball was held Monday evening, and partook of a wedding breakfast.

The princess and the new prince of the Asturias will occupy apartments in the palace. It is not intended that they shall take a wedding journey at present.

Tonight the Count and Countess Caserta and most of the wedding guests

Caseria and most of the wedding guests will leave the city. The chapel in which the ceremony was held is located in the north wing of the palace. It is rotunda-shaped with the nave opening on the main gal-lery of the palace and running about the inner court. Ordinarily it would the inner court. Ordinarily it would seat about 150 persons, but today every available inch of space was occupied in order to accommodate the invited guests. Though the skylights would have afforded ample light, they were covered with heavy yellow hangings, through which the sunlight was unable to penetrate except in yellow gleams which added to the sombre appearance that the massive style of architecture already gave to the chapel. Sixteen tall columns of gray marble support the domed roof, Color was lent to the scene by a red brussels carpet which covered the entire floor to the foot of the altar where to the right, entering from the gallery of dames, the wall was decorated with frescoss of the holy trinity and the tutelary saints of Spain by Gencinto, while above the altar hung "Annunciation," painted by Rathe

phael during his latter days. Today beneath the chapel's dome Spain, save the leaders and followers the anti-governmental parties. On the gospel side of the altar were seafed the bride's party, consisting of the king, the queen regent and other members of the royal household. On the same side of the chapel on an adjoining tribune were grandees of Spain, members of high retinues, distinguished personiges, army and naval officials and civil authorities. On the same side of the chapel another tribune was occupied by former cabinet ministers, the civil gov ernor of Madrid, the county council, municipal councilors and members of military orders and of the orders of Carlos III and Isabella Gatelica. On the epistle side, nearest to the al-tar, were the members of the ministry with their wives and the presidents and other officials of the senate and cham-ber of deputies. Behind them were the chiefs of the palace and the professors of the children of the royal family. The best tribune was devoted to the members of the diplomatic corps and their wives, and that furthest from the altar was occupied by the gentlemen in walting of the palace. The space in front of the tribunes was filled with chairs and benches on which were seated the retainers, with the Duke Di Sotemayer at their head; a body of halbediers; the palace chaplains and other minor palace attendants.
