TERMS—IN ADVANCE.

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY, MARCH 13

**Dusty.**—East Temple Street merchants complain that they are obliged to shut the doors of their stores to prevent the dust blowing in and covering their goods. There is work for the fire hose and sprinkling cart.

**Bishop Brown Resigned.**—Bishop John Brown has resigned the superintendency of the Pleasant Grove co-operative store. Theodore H. Sunberg has been elected to fill the position. Bishop Brown's state of health was the cause of his stepping out, as he needed a respite from care in that line.

**Bishop Hunter's Agents.**—Bishop Hunter's agents in Davis, Weber, Morgan, Summit, Wasatch, Utah and Tooele States are hereby requested to furnish, by the 25th of this month, an account of each individual Temple offering, in kind and amount, paid in every settlement of their respective States, from October 1st, 1881, to December 31st, 1882.

EDWARD HUNTER,  
Presiding Bishop.

**Delayed.**—Bishop Sharp, who is now in the East, expected to start for home last Saturday, but has been delayed in consequence of having concluded to have an operation performed for the removal of a small extraneous substance which had appeared on the under lid of one of his eyes. The operation was performed by Dr. Noyes, the celebrated eye and ear doctor, of New York. The many friends of the Bishop will be gratified to learn that he is doing nicely, and will probably leave New York for home near the close of the present week.

**Accident at Lehi.**—A few days ago Daniel, son of D. W. Thomas, of Lehi, was engaged in harrowing in grain when by some mishap he got caught under the drag. One tooth struck him in the heel and penetrated almost through the limb. Mr. Thomas saw the boy struggling to get out and ran to his rescue. Fortunately the lad managed to hold the horses and his father extricated him from his perilous position. It was with great difficulty the tooth was pulled out of the boy's ankle. The young man is progressing favorably.

**Mr. Robinson Returned.**—Mr. Phil Robinson is back from the North. He delivered his lecture, "Personal Adventures on Four Continents," in the Logan Tabernacle on Saturday evening. At the close John T. Caine jr., Esq., on behalf of the people of Logan and Cache County generally, moved a vote of thanks to Mr. Robinson for his many letters to the New York World, which had a powerful effect in arresting the tide of anti-Mormon sentiment which so extensively prevailed throughout the country last year. The motion was carried unanimously and enthusiastically. Mr. Robinson will shortly deliver his lecture in this city.

**Sudden Demise.**—About half past four yesterday afternoon, Christopher O. Warne, of the Thirteenth Ward, was engaged filling an old well with dirt which had been excavated from a new one, when he fell to the ground and suddenly expired. His wife soon reached him and Dr. Anderson, who was summoned, was quickly on the spot, but he was beyond the reach of human aid, having expired within a few moments after falling to the ground.

It was learned from Dr. Anderson and Mr. John Reading that deceased

had been for a long time subject to heart disease, and the Doctor had several times cautioned him against engaging in labor requiring extra physical exertion, such as he was performing when stricken down. Deceased was aged 58 years.

**A Notable Place.**—A facetious Provo correspondent makes a few notes of some things for which the town in which he dwells is notable:

"Provo is famed for a few things at present; it is the capital of the county and has a vigorous institution for the strengthening and cultivation of the intellects of the young, and will soon have a strong institution for the care of the weak in intellect, while another institution is turning out cloth by wholesale for both strong and weak.

Provo is also famed for much water and any amount of suckers' and, considering the prospective greatness of this place, the lumber supply is scanty, and king alcohol is doing battle against law and order.

Provo has splendid streets, with lots of room for improvement; she has two railroads and a half, the half being up Spanish Fork Canyon, without any connection or future advantage. This town is also a great place for coal, that is, large quantities go past Provo, but very little stops.

Provo has also got a public square and liberty pole, besides being famous for butchers' shops and thief catchers, and murder cases in court. Fortunately the crimes are not committed here.

Provo is also notable for a good deal of sickness with a very low death rate, this information being direct from four drug stores that sell liquor.

Provo has her share of bummers. This is a good time for that class to go a fishing and market their catches at 20 cents a pound.

She is to have a building boom, providing the necessary lumber can be had.

FROM WEDNESDAY'S DAILY, MARCH 14

**Beneficial.**—David Booth, of Brigham City, tells us, by letter, that the Primary Associations of the First and Second wards of that town lately gave an entertainment for the benefit of the emigration fund. The Young Men's and Young Ladies' Associations of the First Ward had also been doing some benevolent work, worthy of emulation.

**A Sweet Little Girl.**—A little girl of Brother Samuel Bateman and his wife Harriet's, aged two years and four months, died yesterday at West Jordan. The little one was quite a prodigy. She could talk quite plainly before she was a year old, and at the time of her death the hair of her head fell in long locks to her shoulders. Her winning intelligent ways had endeared her to the family, who are greatly grieved at her demise.

**An Accidental Spill.**—Shortly before 8 o'clock this morning Brother Thomas Harris, accompanied by a man and a boy, was driving westward along North Temple Street, between West Temple and First West, in a light wagon, and approaching too near City Creek aqueduct, the whole outfit capsized, throwing the two men, boy, horse, soap grease, etc., into the stream, with wagon on top. Fortunately, there was but little water, and by the aid of a couple of young men who were passing, all were got out safely, with the loss of some little of the contents of the wagon box, a pair of broken shafts and the addition of a good ducking.

**An Unmitigated Brute.**—Yesterday evening officers A. Smith and W. Salmon arrested a fellow named J. E. Anderson, a miner, on a charge of committing a rape upon a little girl, eleven years old, who lives with her parents on Plum St., near Commercial St. According to a story told to the officers by the girl herself last night, it appeared that the brutal fellow had accomplished his purpose, but a thorough investigation to-day failed to show that such was the fact. It appears, however, beyond question that Anderson had been in the habit of decoying little girls, and especially the one alluded to, by giving them money and taking liber-

ties with their persons. It is also clear that he made several attempts to outrage the person of the girl who lives on Plum Street, but it is not plain that he accomplished the brutal and damnable act. The accused, who is in jail, is evidently a debased, filthy, unmitigated scoundrel, who, if he had his just deserts would not long pollute the moral atmosphere of the community. It is possible that a judicial investigation in the police court may develop some facts in the case that do not at present appear.

**The Fire at Payson.**—Brother J. D. Stark furnishes the following about the fire at Payson:

"On Sunday night, March 11th, the house of Henry G. Boyle was destroyed by fire, which broke out about 11 o'clock, after the family had retired. The first alarm was given by Brother Boyle himself, having been awakened by the crackling of the flames in the adjoining room, which he first thought was caused by hair falling on the shingles. He immediately aroused the family and looked into the other room through the door which he opened, and found the entire apartment surrounded and full of fire. The heat compelled him to immediately shut the door and get out the wife and children, who barely escaped with what clothing they could snatch up, also the bedding in that room, four chairs, his books, journals, records, and papers of value. They lost all the furniture belonging to the family. The loss estimate is about \$1,000, and is a severe blow, which will probably be felt for some time.

Steps are being taken by our citizens to make up the loss and build Brother Boyle another house. The people sympathize greatly with him and family, and are looking to their immediate wants and necessities, though many people did not know there had been a fire until the middle of the next day. The family will be all right and we will see to it."

**The Church Abroad.**—The following is summarized from the statistical report for 1882, of the European Mission of the Church, published in the *Millennial Star* of Feb. 16th, 1883:

Missions.	Great Britain and Ireland.		Switzerland and Germany.
	1881.	1882.	
Branches.	110	116	81
Apostles.	4	1	1
High Priests.	13	8	31
Seventies.	13	16	97
Elders.	560	560	1024
Priests.	207	207	422
Teachers.	140	140	372
Deacons.	115	115	227
Members.	3667	3667	5524
Total Officers and Members.	4700	4700	10100
Baptized.	816	816	2107
Emigrated.	1004	1004	5103
Cut Off.	79	79	431
Died.	14	14	114

FROM THURSDAY'S DAILY, MARCH 15

**Going South.**—We learn that our esteemed friend Brother J. H. Martineau, the well known surveyor, of Logan, purposes making Arizona his future home. In this change Cache

County loses an estimable citizen, while the new country to which he goes receives in him a valuable acquisition.

**Telephone Directory.**—The Salt Lake Telephone Exchange Company are getting up a new list of subscribers, compiled in pamphlet form, and giving the number and location of their residences, besides describing the business of those engaged in mercantile and professional pursuits, combining a complete directory of all those who rent the telephones.

**A Fatal Crush.**—The other day, at Pine Bluffs, on the U. P. R. R., a brakeman named Harry Soper, was instantly killed while attempting to couple two cars, one of which had the Miller coupler and the other the common bumper and pin. The Miller contrivance passed that of the old style, bringing the cars so close together that the unfortunate brakeman was flattened between the two.

**Going to Provo.**—The Salt Lake Tabernacle Choir have arranged to visit Provo City on Saturday, the 24th inst., leaving here on the 2 o'clock train, and giving a concert in the Provo Tabernacle that evening. Should the present fine weather continue, their numerous friends will doubtless take advantage of cheap railroad rates to accompany them on their trip to the garden city of Utah County. The terms appear in an advertisement in our columns to day.

**Shipping Potatoes.**—We had a pleasant call to-day from Mr. Edwin Stratford, of Ogden. He reports business somewhat below par at the Junction City, but the usual amount of glowing anticipation in relation to the future of that prospective commercial head centre, is indulged in.

One branch of the produce business is moving in a lively way—the shipment of potatoes which bring 35 cents a bushel sacked, on the cars. The market for the superfluous spuds, which are unusually abundant, is found to the eastward, notably in Denver. The Utah raisers of the tubers net about 27½ cents a bushel on the product. The price is small, but any rate is better than having the article go to waste, to which condition large quantities would be doomed in the absence of an outlet.

**The "Utah Giant."**—Mr. Harmon, known in some of the eastern cities as the "Utah Giant," is still around town. There has been a great deal of talk in the public journals about an intention on his part to enter upon the disreputable profession of prize fighter. He informed a representative of the News to-day that he had never entertained such an idea, as that pursuit was entirely contrary to his tastes. His appearance certainly bears out the truth of his statement, the contour and expression of his face, which is mild, indicating neither brutality nor marked combativeness. He says his friends and family are all in Utah, a portion of his relatives being at Mantle and another at Holden, and he has returned to this Territory for the purpose of settling down. He is six feet eight inches high, wears a drab colored, broad-brimmed, soft felt hat and a black suit. He necessarily, on account of his unusual stature and correspondingly strong build, attracts attention wherever he appears.

**Conference Rates.**—The rates arranged by the Utah Central R. R. Co., for the coming Conference are as follows:

From the points named to Salt Lake city and return—Ogden, \$1.50; Summit, \$1.25; Kaysville, \$1; Kaysville, 85cts; Farmington, 65cts; Centerville, 45cts; Woods Cross, 35cts. Frisco, \$9.50; Milford, \$3.50; Deseret, \$3.00; Leamington, \$5.00; Jnab, \$4.00; Nephi, \$3.50; Mona, \$3.00; Santaquin, \$2.50; Payson, \$2.50; Spanish Fork, \$2.25; Springville, \$2.25; Provo, \$2.00; Lake View, \$1.75; Pleasant Grove, \$1.50; American Fork, \$1.50; Lehi, \$1.50; Lehi Junction, \$1.50; Draper, \$1.00; Sandy, 75cts; Junction, 75cts; Lovendahl's, 50cts; Germanias, 50cts; Franchlyn, 50cts; Morgan, 50cts.

The trains from the north upon

which the tickets will be good will commence running on April 4th, and those from the south on the 3d, and continue each day during Conference. The tickets will be good for return up to and including the 12th.

Corresponding reductions to the above will be made on the U. P. and U. & N. lines.

**Woollen Mills.**—Some of the woollen mills adjacent to this city are announced as open for lease. We presume this is on account of the proprietors, because of other business, being unable to give this branch of manufacture the close attention which it requires. So far as the mills are concerned, however, it has been successfully demonstrated that they are capable of producing very excellent cloth, making it all the more regrettable that such useful institutions should, on any account, be idle. It is exceedingly doubtful that such mills can be successfully run by lessees, from the fact that the latter are more than likely to be parties of limited means. On this account they would be sure to be greatly cramped for the want of working capital for the purchase of wool and other materials. It appears clear, however, that those mills could be successfully operated on the co-operative plan, especially if the association or company engaging in it owned their own sheep, thus placing the affair measurably at least, if not completely above the perplexing eccentricities of the wool market. The subject appears to be worthy the consideration of the Board of Trade.

Not a drink, not sold in bar-rooms, but a reliable non-alcoholic tonic medicine, useful at all times, and in all seasons, is Brown's Iron Bitters.

When Ladies are Attractive.

All ladies know their faces are most attractive when free from pimples. Parker's Ginger Tonic is popular among them because it banishes impurities from blood and skin and makes the face glow with health.

An attractive, youthful appearance secured by using Parker's Hair Balsam to all who are getting gray.

If every individual and every family would bestow a tithe of the care requisite in an ordinary attack of acute disease, in striving to prevent and ward off its attacks, there would rarely be any use for calling in the aid of the physician. In all ordinary derangements of the stomach, bowels, liver or kidneys, you need only a few doses of Emil Freese's Hamburg Tea.

JNO. A. BAILEY AND M. K. PABSON, Land Agents and Attorneys, Salt Lake City—Write to them enclosing stamp and they will give information FREE about Land Matters.

**ROYAL**

**BAKING POWDER**

**Absolutely Pure.**

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders.

Sold only in cans. ROYAL BAKING POWDER CO., 100 Wall Street, New York.
