ITEMS FROM TINTIC.

Strike in the Eagle and Blue Bell-

Rebuilding Emerald Shafthouse. In its review of the week, the Tintle diner says a sixteen-foot body of partz has been struck in the Eagle and Blue Bell, about twenty-five feet below the drift from the 200-foot level of the shaft. Of this about four feet the shaft. Of this about four feet of a shipping grade, carrying gold i silver that will sample close to per ton. It is quite possible that a "pay streak" will greatly increase size as the ore body is opened up, the lovel above the same ore has encountered, carrying a two-foot of galena and lead carbonates, a otty certain indication of a big de-sit of shipping material. Every-here in the mine is milling ore in eat quantities that could be profithandled with a small stamp mill

the prospects for the property are he Eureka-Hill again enters the pping list this week with eight car-is of ore, of which three will go today. The lot contains some hornpromising than at other points, and it is here that the most work has been done, except on the Hummingbird group above Paris. The claims are only a short distance from the railway er ores of the same character rich surface deposits that made he mine famous several years ago. The work of rebuilding the Emerald and are admirably situated for developing and working.

It has long been known that this copper lode existed over there, and it has been prospected more or less for years. afthouse which was destroyed by e, is progressing rapidly, and within weeks work underground will be aumed. The machinery, with a few pairs, will be in good condition. A Montpelier company has prosecuted repairs, will be in good condition.

The Eureka Republican says that assays taken from the breast of a drift in the Plymouth Rock show values of \$8.50 in gold and 145 ounces in sliver.

The strike in the Solid Muldoon will give encouragement to the stockholders of the General Logan which conserve work in that vicinity for some time and they have a fine showing of ore

*************** racting attention and several claims here have been and are being de-cloped. The advent of this company stimulate matters in that section and the Examiner feels confident good paying mines will shortly be developed over there,

MINES OF HAILEY. R. G. Wilson Talks of Conditions in this Idaho District.

Wilson returned 'yesterday thorning from a trip of inspection to Halley, Idaho. While away Mr. Wilson visited the Tip Top and Idaho Demoerat mines besides a number of propects and returns quite enthusiasti-over the possibilities of the district The Tip Top mine, which is owned by John Q. Packard, is pronounced a very big gold property. The new mill and machinery is now nearly all in place shaft across the hill from the old work ings. Some 500 or 600 feet is said to parate the new workings from the

d. The vein which contains some verid to contain numbers of blg bould carrying as high as nine ounces in go our ton. When the improvements no construction, are completed, Mr. Wil I says the Tip Top will prove one of biggest things in the country. It is sald now to be the best mine in the

Some excellent ore is being shipped from the Idaho Democrat. No mill have the built and the expense of ship ong the ore is such that the grade mus the good to pay at all. About twenty men are employed at the mine. The peculiarity of the country is the two ore belts which traverse the coun

try, one of which is silver-lend, the offer being gold. In Mr. Wilson's epinion the gold belt does not offer special in Incements to the man of limited means The belt is rich and strong but a bli outlay is necessary to scene return.
In the silver-lead belt, it is differen.
There are said to be a number of verpromising prospects which could be made to pay handsomely if lead doe not decline much lower. The old mine around Bullion, which were worked years ago and which have been allowed. to fill with water, are not being worked but in the same *seighborhood as these rich producers Mr. Wilson says there are splendld opportunities for a man of moderate means,

MINERS' CONVENTIONS.

Influx of Japanese Discussed at Today's Meeting in Denver.

Denver, Colo., May 14.-The annual onvention of the western Federator f Miners and the western Labor unler opened this morning with a joint publi-meeting, at which welcoming addresses was delivered by Roady Kenehan, to which replies were made by President Edward Boyce of the Federation, and President Daniel McDonald of the

After the public meetings the two conventions met in separate session A subject which is much discussed among the delegates and which will be acted upon by both conventions, is the influx of Japanese laborers into the United States and Canada. President McDonald said that unless something was done by the government to restrict the immigration of Jananese it would ecome a great menace to white labor and before long might result in serious

'I have recently been over the whole Pacific coast country where I learned that more than 30,000 Japanese have entered the United States in the last year," said Mr. McDonald. "They are practically replacing white labor on all if the railroads in the northwest, and are gradually working their way easi. are gradually working their way east-ward. The Northern Pacific and the Great Northern employ them almost exclusively on the sections, each gang having a white man as boss."

MINING NOTES.

E. A. Franks left last Saturday evening for Cape Nome. The Albino, of Bingham, had a car of ore on today's market.

Four cars of ore from the May Day were on the market today, The Red Wing, of Bingham, marketed

a carload of concentrates today. Five cars of ore were on the market today from the Swansea, of Tintic. Willard F. Snyder returned yesterday

from a two weeks' trip to the coast. Nine cars of ore were on themarket eday from the Centennial-Eureka, of

The Acme, of Bingham, reported on the market today with a carload of

The Bullion-Beck, of Eureka, reported on the market today with five cars Albert Richter expects to reach Chi

cago this week on business connected with the Utah Guano Company. Managing Director A. F. Holden, of the United States Mining Company, has gone to Butte on business.

Twoscars of ore were marketed today from the leasers on the United States Company's property in Bingham. The Taylor-Bruton sampler reporte

thirteen cars of ore from Tintic and four from Bingham today. Assayer J. M. Gantz, of the Northern Light, came in town yesterday and will be followed by a shipment of ore.

It is rumored that Duncan McVichle may take the management of United States property at Bingham,

Owing to the difficulty in getting coal to the Bullion Beck mill at Eureka, it has been shut down for a few days.

Guy Sterling reports a three-inch strike of what appears to be hematite of iron in the R. G. W. group at Tintic. A. W. McCune is back from Madison Mont, and reports the new strike in the Watseca mine to be showing up well.

The Conklin Sampler reported ten carloads of ore from Tintic, one from Bingham and one from Stockton to-

The Shawmut Mining company of Biagham has contracted with the Jordan Narrows Power plant to furnish power for its new mill. The acceptance was given by the company today. W. G. Filer returned yesterday from the Annie Laurie at Gold mountain
