CLEANING UP.

Good Work Energetically,

city. The water stands on the streets in great puddles and runs in filthy

streams through yards and lots in every direction, depositing refuse everywhere. The residents want a drain built to remove this surface wa-

ter and a petition will probably be ad-dressed to the council to build one as soon as possible.

The stable yard belonging to the Z. . M. I. were found to be in a bad con-

dition and ordered cleaned up. The rear of the Mine & Smelter Supply com-pany was also ordered cleaned up.

The health department is today fol-lowing up its preachings by cleaning

up its office in the city and county building. A new coat of kalsomine is

being put on its rooms. The intention of the department is to make this city a

model of cleanliness by the time the Elks meet in convention here next Au-

# **DOUBLE TRACKS** TO COME NEXT.

Overworked Conditions Hastening This Improvement.

### THE SYSTEM OF OPERATION

#### Experts Paying Much Attention to Its Improvement to Keep Pace With Other Advances.

One of the next big improvements in western railway affairs will be the double tracking of the Union Pacific and Southern Pacific railways from Omaha to San Francisco. Already the matter is being touched upon among officials in the operating departments and the increasing trade and already overtaxed condition of these big transcontinental lines are bringing about serious consideration of this improvement. The recent and present straightening of curves and reduction of grades are going to bring some relief, but not sufficient to long postpone the double track. It has been estimated that the small daily delays of passenger and freight trains at sidings, etc. cause annual losses amounting to mil-lions. These would be eliminated by the double truck; and inasmuch as comparatively small additions to ex-isting roadbeds would make the imisting roadbeds would make the mi-provements, the avoidance of these annual losses would soon pay for the expense and establish a permanent bet-termen of the lines. In the matter of train operation, too, the best railway heads in the country are set upon im-provement. The greatest attention has been paid to perfecting power and roll-ing stock to the end of achieving faster time, while the system of operation of trains, has been somewhat slighted. The result is that the one has not kept pace with the other and attention is now being directed to a better equalization of excellence in the two departments.

#### Twelve Contracts Let.

San Francisco, March 22 .- Several contracts for the construction of the Central Pacific between Wadsworth, in Central Pacific between Wadsworth, in Nevada, and Ogden, have just been let, making a total of 12 contracts up to date. The latest contracts call for the building of 200 miles of new road at a total cost of \$5,150,000. Contracts for the reconstruction of a hundred more miles of road will be let later on, the object being to eliminate curves and out down grades.

cut down grades. By the middle of May 7.000 graders will be at work along the Central Pa-cific. The Southern Pacific people want to get the heaviest part of the work in Nevada and Utah finished by the end of the year. The cut-off across the northern end of the Great Sult Laife will require a longer time. Work on the first 16 miles of the cut-off west from Ogden, has been commenced.

#### Confirms the Report.

and build for themselves comfortable homes. The party will be headed by J. J. Wilson and Chas. Stevens. The Cheyenne shopmen have upwards of \$10,000 among them and the first sea-son in the Big Horn will be devoted to building houses, outbuildings for stock and the raising of sufficient food to car-ry them through the winter. The state quarantine against stock

The state quarantine 'against stock shipped into the state from Colorado or Nebraska has been changed as a result of the visit of Assistant Solicitor J. E. of the visit of Assistant Solicitor J. E. Kelby and General Livestock Agent John E. Eyler of the Burlington and the railroad officials are again happy. The regulations, as originally pro-claimed, designated Cheyenne as the ohly point at which livestock from the states named could be inspected. This, of course, worked a hardship upon both the Burlington and Elkhorn roads and shippers. In cases where stock was to be shipped from Colorado it did not make so much difference, but if a north-western Nebraska shipper wanted to make so much difference, but it a horth-western Nebraska shipper wanted to send stock into the state via Cody or other northern points he would be com-pelled to bring the shipment to Chey-enne to first be inspected before he could enter the northern part of the state. atate.

General Livestock Agent Eyler of the Burlington, in an interview, stated that the Burlington will build no more branches in the Big Horn basin country this year.

#### SPIKE AND RAIL.

Interchangeable mileage books will soon be issued by the railroads.

Sheriff Kelley of Fillmore is inspecting the Learnington chi-off route for the purpose of bidding on a contract. The Consolidated Railway and Power company will not, for a few days yet, decide upon a manager for Calder's park.

Some of the parties interested are discussing the economy of an atomizer for the purpose of painting the build-ings at Saltair.

On April 12 the Kettle Valley rail-way will be formally opened. The line connects Grand Forks, B. C., with Republic, Wash,

A colored picture of the Grand can-yon, Colorado, has been presented to the Press club by Charles F. Warren of the Santa Fe.

Four carloads of horses for the British army were shipped out from Oasis to Denver last night. They are intended for service in South Africa.

At Buena Vista yards the material for the Learnington cut-off is begin-ning to pile up pretty high. The Utah Construction company is also rushing out to Terminus the men, horses and implements for pushing the construc-tion work. tion work.

The gross receipts of the R. G. W for the month of January amounted to \$485,588, an increase of \$86,927. The net was \$197,538, an increase of \$68,125. For the period of the fiscal year from July 1, 1901, to January 31, 1902, the gross reached \$3,254,351, an increase of \$355,-612, and the net \$1,301,047, an increase of \$252, 499 of \$376,998.

## CHAMPION BEAN HUNTER. Arthur Adams Gains Coveted Distinc-

tion Among U. of U. Normals. Last night at the university the fourth year normals gave a party in the kindergarten rooms of the normal building. The evening was spent in dancing and games. Chief among the latter was a prize contest. White beans had been scattered around in nooks and corners of the room. As the announcement was made there was a scramble to see who could gather the most. to see who could gather the most. When the beans were all counted Ar-thur Adams proved to be the best bean hunter. His prize was a copy of "Fa-vorite Poems." The second prize, a box vorite Poems." The second prize, a box

When the housewife intrusts some other person with the buying of the family supplies she usually impresses upon that person the importance of the baking powder. Every one who cooks knows the importance of having that which gives dependable results. Three Crown baking powder is made on the careful principle. It gives satisfaction because its made right. It is sold at a low price because its manufactured and coid in a way that cause least expense. sold in a way that causes least expense. Price, 25 cents per pound.

"The purpose is to build a railroad from Denver over Berthoud Pass, there to connect with the road which Sena-tor Clark of Montana is building to the coast. By this route the distance from Denver to Salt Lake will be 525 miles, and the rallroad time schedule will be shortened 10 hours.

"In my judgment, no more important project for the benefit of Denver and its citizens could be undertaken. Real-izing this. I have become interested myself and am endeavoring to inter-est other capitalists in the building of this road."

#### Northern Lines Retaliate.

St. Paul. Minn., March 21.-Retalla-tory measures were taken by northern coast lines against the Harriman lines coast lines against the Harriman lines today for diverting homeseeker excur-sions from the St. Paul. Duluth and Sloux City to San Francisco were an-noinced, going via North Pacific coast points, with the option of making the Puget Sound-San Francisco portion of the journey by either rail or water. The action carries the fight into the same of the option since the fates camp of the opposition, since the rates are made optional for a portion of the way over its own lines. The new tar-iff is based on the regular colonist rates of \$25 to western points, plus the local fare, \$7.90, from St. Paul to the Missourt river. The northern lines made a cut of \$17 in announcing the new figure, which replaces a rate of \$49.90. Tickets will be on sale dally during the remainder of March and April.

#### WHI "Go 'Way Back."

Chicago, March 21 .- Attorneys for the various railroads that it is sought to enjoin from rate-cutting held a conference this afternoon and agreed to make no fight against the action of the gov-ernment, it is said. This step was de-cided to be advisable on the ground that the contest would be a practical admission that the transportation interests desired the injunctions dissolved in order that secret manipulation might be carried on. The only feeling among the railroad

lawyers is over the alleged failure to treat all lines alike. Several of what are called the most chronic rate cutters have not been proceeded against. The feeling on this point, however, is of not sufficient intensity to prompt the big companies attacked to fight over the seeming discrimination.

The first evidence of the effect of the proceedings was the announcement by the roads operating east from Chl-cage of a reduction in the tariff rates on packinghouse products, to become effective Tuesday.

#### Clark Bought the System.

Los Angeles, Cal., March 21 .- It is stated on good authority that United States Senator Clark has acquired control of the Los Angeles Traction com-pany, which is the only street railway ystem in this city in competition with

system in this city in competition with the Huntington lines. Thomas E. Gibbon, general counset for the San Fedro, Los Angeles & Salt Lake read, has returned from Wash-ington, where, it is said, he completed arrangements for the transfer of the traction property to Senator Clark. No details of the deal have been done on details of the deal have been given out but Mr. Gibbon admitted that Mr. Clark is now interested in the traction company and that as soon as the necersary franchises are obtained the system will be enlarged.

#### Going to Big Horn.

#### Special Correspondence.

Cheyenne, Wyo., March 20.-Early next month a party of ten shopmen in the employ of the Union Pacific at this place, will leave Cheyenne with their families for the Big Horn basin, where they will settle on Uncle Sam's domain

## AT THE RESORTS.

# There is a general inquiry as to what will be done the coming season at the summer resorts, and there is silence in the offices from which "reliable infor-mation" is expected to issue. The lake mation" is expected to issue. The lake is two feet lower than it was a year ago and Captain Barnatt says he told the Saltair management 10 years ago that by this time their resort would be high and dry. Garfield is no better off, and Lagoon-well. Lagoon never made pre-tensions as a bathing resort. The re-huilding of the railroad via Garfield leads to hopes that that resort will re-open, even if it is necessary to build a gangway from the bath houses out to the water. What will be done with Calder's park is not settled yet, but Liberty Park with its free band concerts is likely to be well patronized all sum-mer. The Rowing club men are hoping that Garfield will be in the swim this summer. summer

# PRESS CLUB DOIN'S.

#### Housewarming in the New Home Scheduled for Tonight.

The Salt Lake Press club will "keep open house" tonight in its new and attractive quarters in the Crane building, and the following unique invitation has been sent out to members and friends of the club:

"A house warming and grand smoker will positively occur at the new home of The Press Club, Crane building (sec-end floor), Saturday, March 22nd, 1902. The casualities will embrace practically everything a gentleman can or will do Hours from 8:30 p. m. until the police stop it. All club members are on the reception committee. Perhaps you'd

better drop in. "By request of house committee. "M. F. CUNNINGHAM,

'Secretary. "P. S.-There will be some food and a gourd of water."

A feature of the invitation card is a cut of his Satanic majesty warming a two story house on a gridiron over a blazing wood fire. This is suggestive of designs that adorn college freshman society invitation cards, and was probsociety invitation cards, and was prob-ably inspired by some of the college graduate members of the club. A some-what luridly moist time is expected. General Agent C. F. Warren of the Santa Fe has presented the club with a fine picture of the Grand Canyon of the walk and the walk Arizona, which will decorate the walls of the reading room.
