FINANCIAL REPORT **CAME FROM TETRO**

Free From Debt and Money to Spare-Noose Tightened on California-May Day on the Toboggan.

Mr. Herman Bamberger, chairman of | that it be sold and the money forwardthe listing committee of the Salt Lake Mining and Stock Exchange, was pleased to announce at this morning's call that he had received the first reply to his recent request for information as to the financial condition of mines represented by the stocks on the board. It came from the Tetro company and announced that there was no outstanding indebtedness against the company and that when the pending assessment comes in the treasury will have something over \$3,000 to its credit. The communication was received with applause and with the hope that other concerns may soon follow suit.

This was "black Friday" for May Day. It began selling at 79 cents and was crowded down to 76, doing com-paratively little selling even then. Within about ten days the stock has dropped from \$1.07 to 76 cents. When Ontario was reached there was

some talk about the relation of sales to this month's dividend. By some error the announcement was marked up that the books closed on Dec. 4th, and one sale was made yesterday on that understanding. The purchaser contend, ed that the sale was not "ex-dividend," because the books do not close until to morrow, so it was decided that the dividend goes to the purchaser up tomorrow, and the correction was made on the board.

Three cents was bid for Tesora, but there being a difference of 7 cents be-tween the bidder and holder, who wanted 10 cents, there was no sale made.

Carlsa was held up pretty well, although the closing sales were at re-duced figures from the opening busi-

Daly-West, notwithstanding adverse silver and lead news, was strong and made sales of 200 shares at \$30.50 to Uncle Sam was a poor one and felt the effects of the hammering administered

It sold as low as 70 cents and brought When it came to California it was certainly "hangman's day." The stock was simply lynched-strung up, drawn quartered and riddled, going as low as 47 cents. There was no stemming the downward rush and if it does not reach a still lower figure it will be on account of some as yet unknown interposition. It had previously been pre-dicted by some that the 50-cent point would be reached this week, but 47 cents was not thought of. The slump is attributed to a settling down to real values on account of the low grade of the ore and the large percentage of zine contained therein. Whether or not is entirely true is not ascertain-, but that it is partially responsible this depreciation is generally said. Over 12,000 shares were sacrificed at 50 to 47 cents. day was a bad one, prices being trampled down and business very slow,

ed to that firm. Mr. Siegel heard of its being here and after notifying the smelter not buy it, he got out a writ of replevin and is now in possession of the con-

signment, and immediately brought the present suit. WILL PAY \$430,000.

Mines of Park City to Distribute Pocket Money This Month.

On Tuesday, December 10, the Silver King will pay \$100,000 in dividend to its stockholders, and other mines in Park City are to distribute their Christmas profits. Daly-West announces that on profits. Daly-West announces that on Monday, Dec. 16, it will pay \$60,000, the books to be closed on December 10, and to reopen on the 17th. The Quincy will tomorrow pay out \$125,000 and on the

20th the Ontario is scheduled to hand out \$45,000. This makes a cortain to-tal of \$330,000, and if the quiet report of a Christmas extra of \$109,000 from the Silver King should prove to be true, the total will reach 430,000.

Strike at Tetro.

Manager Pollock of the Tetro says that he has received word from the mine that the winze, which is now 170 feet below the tunnel level, has en-countered lead carbonate ore containing values of \$25 per ton. For several years the shareholders have been as-sessed regularly to defray the expenses of development and this new strike is like a ray of sunshine through the financial cloud.

Glory Progressing.

West Morning Glory directors held the regular monthly meeting last night and listened to the port of Supt. Moon, which shows that a car of improved or is ready for shipment and that a foot of peacock copper ore is present in the south drift on the 200 level. The cross-cut towards the big ledge has been driven 25 feet, supposed to be half the necessary distance, and today a winze was to have been started down on the ore streak in the north drift. Bills were audited and ordered paid.

NeW Incorporations.

The Lone Tree Gold and Silver mining company of Richfield, filed its articles of incorporation with the secre-tary of state today. The capital stock is stated at \$75,000 in 25-cent shares. The directors are H. W. Ramiose, pre-sident; N. H. Cohn, vice-president; James Christiansen, secretary and treasurer; Asa R. Hawley and Dwight Meteer. The company's mining property is situated in the Gold Mountain mining district of Piute county,

These are the officers named in arti-cles of incorporation filed for the Pride of Sevier Mining & Milling company: Edward Malmanish, president; Edward Clark, vice president; Christian Myer, secretary; James Hainsworth treasurer. The concern owns the Blue Bird, Lucky Boy, Surprise and Humbus claims in Sevier county, and is capitalized at \$25,000. The Western Union Mining company. having a capital of \$30,000, has filed its incorporation articles. The officers are: Charles E. Miller, president; William A. Miller, vice president; David A. Dupue, secretary and treasurer. The com-pany owns the Wildcat, Miller, Silver King, Surprise and Copper Queen claims in the Tintic mining district, 791/

Gray Hair Ayer's Hair Vigor doesn't suddenly restore color to your gray hair; but gradually the old color comes backall the dark, rich color it used to have. It stops falling of the hair, too, and will often make the hair grow to be very long and heavy. " Ayer's Hair Vigor is certainly wonderful. It has restored the natural color to my gray hair and has made a splendid new growth."-Miss Emma

Calder, New York City. \$1. All droggists. J. C. AVER CO., Lowell, Mass.

necessary machinery was secured and put in place, and last evening sinking vas commenced. The shaft is now 185 leet deep.

Carson, (Nev.), News-It looks as though every mill on the Carson river vould soon be called upon to crush Tonopah ore. Several tests have been made in a number of them and all rove this ere to be free milling. One nill, on a test run of twenty tons, saved 0 per cent of all values on the plates and in the pans, without cyaniding, while another mil, by the cyanide process, agrees to return 93 per cent of the silver and 95 per cent of the gold. Tuscon (Ariz.) Citizen: Charley Daugherty, a well-known mining man, died yesterday afternoon from miner's consumption. Daugherty has lived in this section for the past tweny years and was well and favorably known here. He owns some valuable claims at the Olive camp and also in the Arivaca district. A certificate of deposit for \$1,400 and about \$160 in noney was found on the body. Daugh erty was 52 years of age. John Bogan, the county assessor, who was a close friend, said that he was very taciturn about his family affairs. It is believed that he has a sister living in Boston. Kingman (Ariz.) Arrow: It is reported that at the Ben Paddock mine owned by Thomas Ewing, the men are pounding out between \$15 and \$25 a day in a hand mortar from rich fragments of gold ore taken from the vein. One nugget encountered recently weighed nearly an ounce. This statement is vouched for by eye-witnesses whose integrity in unquestioned. From the old Moss mine, in the same district, many years ago a candle box full of gold specimens shipped to San Francisco netted the owners several thousand dollars. Adjoining the Paddock mine Car rol Tyner is said to have over a foot of ore that runs over \$1,000 in gold per Another extension of these promising prospects is owned by Tobe Wilkinson, upon which very little work has been done. All three are located near the Leland-Mitchell group, owned

by Bedell & West, Pittsburg Dispatch-John Hays, who opened the first copper mine in Ameri-ca, and who is now in his 96th year, is spending the winter of his life in a small house on at Clair street, Cleve-land. An article in a Pittsburg newspaper, way back in 1843, was responsi-ble for the opening of the first copper mine during that year. Mr. Hays read

ton.

In its news columns one day about the Indians finding pieces of that which was believed to be copper ore in abund-ance. Mines opened in that vicinity have since made many fortunes for

Want Pay for Ore.

Henry Siegel and others have entered suit against J. S. Cozier and others to collect \$1,750 as pay and damages for a shipment of silver ore. Mr. Slegel says that on December 2, 1901, 302 sacks of F. A. Irousides are working the Sur high grade sliver ore were shipped from prise property at Parrot and are mak Wells, Nev., to the Conklin sampler here. Cozler was employed to haul the ore from the mine 100 miles south carloads of ore per month, but concludthe ore from the mine 100 miles south of Weils, the shipping point, in White Pine county, Nevada. Instead of ship-ping it to the sampler here in Siegel's mame, he sent it to market in the name of Bott & Co., of Weils, and directed

Cripple Creek Dividends.

Denver Post: Cripple Creek dividends paid during the month of November amount to a total of \$216,650. None of the quarterly payments fell due this month, but the regular monthly distributors declared and paid their regular amounts. Two of the companies in the list below, the Orphan and Arrow, paid dividends from income other than pro-fit on ore mined. The disbursements made in November are as follows: Arrow \$55,000 Consolidated Mines \$55,000 Gold Coln \$20,000 New Zealand Consolidated 7,650 Orphan \$100,000 Strong \$25,000 534 Strong 25,000

many men. Pittsburg capital had a great deal to do with the opening of first mines on Lake Superior, and ater in the vicinity of the large rolling inilis of today, near Cleveland, there vas erected the first smelling works by this same John Hays, although smelting today is a part of the industry which is carried on near the copper

Fergus County (Mont.) Argus: The Philippines group of cynide prospects, in the Armells district, has been bond-ed to F. A. Case, representing a New York syndicate, for \$60,000. The deal was consummated last week, and Mr. Case is now on the property with a

force of men, exploiting the various ore bodies. The prospects are owned by Charles Rhoades, Otto Anderson and Joseph Meredith, and are on the forks

of Armells creek, the main ore body be ing on the hogback directly between the forks. The terms of the bond are that Mr. Case shall commence development work at once and continue with not less than two men at any time. The first payment of \$15,000 will be made on July 1 of the same year, unless a mill of not less than fifty tons capacity is operating on the property in a way which will show that work will be carried on in an energetic and business-like manner. In the case of everything being satisfac tory to all parties concerned, the bond will be extended until 1903.

salt Lake City.

The sleeping cars on the Burlington's Chicago Special are called Marius, Martius, Maximus and Metellus. The names are those of Roman Kings and Emperors-men who lived and ruled more than 2,000 years ago. The cars are worthy of the names they bear. They are as luxurious as the marble palaces of ancient Rome. Through sleepers for Omaha and Chicago via the Burlington leave the R. G. W. depot daily at 3:15 p. m. Tourist cars Wednesdays and Fridays. Drop in and lot us quote you rates and give you full information about our service, or, if you prefer, see your local
