**LOGGING TEAMS WANTED.** BRYANT BROS. d278

**THE MEDICAL SUCCESS OF THE AGE**—Leading druggists who have been in the business for half a life time, state that they have never known a medicine to enlist the entire and universal confidence of the public as rapidly as HALE'S HONEY OF HOREHOUND AND TAR. Although it has only been a few years in use, it has already taken precedence of all other medicines advertised as remedies for Coughs, Colds, and Incontinent Consumption, and its annual sales are without a parallel in the history of this class of preparations.

**PIKE'S TOOTH-ACHE DROPS.** Cure in one minute. d284

**DOOLEY'S YEAST POWDER** stands unequalled for making light, healthy and nutritious rolls, biscuits, griddle cakes, etc. The ingredients used in the manufacture of this powder are not only chemically pure, but so proportioned that the results produced are the same each time. In this respect it possesses superiority over all others in the market. Only two teaspoonsful are required for a quart of dough. For sale by grocers generally. Use DOOLEY'S

**YEAST POWDER only.** DOOLEY & BROTHER, Prop'rs, 69 New St., N. Y.—d 284

**ENQUIRE FOR THEM.**—We feel assured that our friends will thank us for bringing before their notice articles which have no superior among the many that fill our markets. We refer to the celebrated Dr. Price's Cream Baking Powder and Flavoring Extracts. We have used them, and can confidently commend them to the community as the best articles in domestic use. They are the leading articles of their kind in America, and should be on the shelf of every well regulated family grocery. Place them in your list, and when you next order give them a trial. The baking powder cans are as large as other kinds, contain as much in measure, the powder is pure and light, and as two teaspoonfuls is as effective as three of most kinds; it is fifty per cent cheaper.

## THE EVENING NEWS.

Thursday, October 23, 1914.

## LOCAL AND OTHER MATTERS.

**THERMOMETER** 55 degrees F. In the shade, at 1 p.m. to-day. Fine. Some Clouds.

**Arrived.**—We understand Mr. Warren Husey arrived in this City, from the east, last night.

**Gypsum.**—To-day H. H. Wadman showed us some specimens of gypsum from a deposit discovered by himself and Mr. Stewart, in the neighborhood of American Fork. The specimens are almost pure, and he says they represent the average material of the discovery. Plaster of Paris is made from gypsum, and it is also an excellent fertilizer and deodorizer.

**An Agreeable Visit.**—This afternoon we had a pleasant call from Messrs. E. H. Herriman, of Belfast, Maine, Charles L. Milver, Brooklyn, N. Y., and Frank Reed, Bath, Maine. These gentlemen are on their way eastward from a pleasure visit to the Pacific Coast. They thought they could not afford to pass on home without paying a visit to the famed Salt Lake City, and they are not sorry that they so concluded. They were accompanied to our office by Col. H. C. Goodspeed, of this city.

**Brought In.**—The four Bingham men charged with rolling huge boulders down the sides of the mountain towards the men at work on the grade of the Bingham Canyon and Camp Floyd railroad have been arrested and were brought to town last night by deputy Sheriff Martin Florida. They appeared before Justice Pyper this morning, when they asked till Saturday to enable them to procure witnesses, which was granted, they being held, in the meantime, in \$300 bonds each.

**A Crash.**—Last Saturday night the U. S. freight train from the south, as is usual, divided near the Germania Works and the part with the engine did the usual amount of shunting, etc., on the side track at those works; the engine then proceeded a little northward to the Saturn works, where some similar work was done. The engine then did the usual "trotting" to signify to the other part that it was time for the two portions of the train to meet, couple, and go north, so the engine part backed, and the other part eased up the brakes and came north on the down grade. The two halves of the train met on the bridge, but came together too suddenly and forcibly, the consequences being that two of the cars were smashed and went over the bridge. Nobody was hurt.

**State Quarries.**—There are two state quarries in Box Elder County, one of which is situated about twelve miles south of Willard and only a short distance north of North Ogden, and the other is about six miles north of Brigham City. The first is of that peculiar quality that renders it just the right kind of article for fire-proof roofing, as it splits with great facility. It is also very smooth and varies in color, there being four or five different tints, specimens of which we saw this morning, and which were brought to town by Bishop Alvin Nichols. Those interested in this discovery have received information from Mr. Clayburn, of Omaha, that that gentleman will purchase all that can be forwarded to him, provided the pieces be 8 by 10 inches, and it is probable that in a short time he can be supplied.

The deposit north of Brigham City is of a different character, being found in very large slabs of the best quality, suitable for shelling, masts, steps, flagging and an inconceivable number of other purposes. A large amount of these slabs has already been quarried and is on the dump. Heretofore large quantities of a similar kind of slate have been imported from Wales, and it is expected that, from the extensive character of the deposit, this discovery will, in large part, obviate the necessity for such importation.

**The Utah Western Railroad.**—The prospects for the early completion of this road to Clinton, Lake Point, are very promising. We learn from Mr. A. F. Doremus, engineer of the road, that 11 miles of this end of the road are ready for the iron, and by Tuesday evening 13 miles will be in that condition. The grade beyond that portion to a point about one mile this side of Clinton's only needs fixing up to render it ready for the use and iron also, and a number of hands are now engaged on it. The distance from this City to Clinton's is within a fraction of 20 miles. The Company have constructed a new water tank, connected by pipe with the tank of the U. C. Company, on the south-west corner of the Utah Central depot block. We learn from another source

that this for the Utah Western are constantly arriving, twelve car loads having been delivered within the last two weeks. The first iron for the road was shipped from Ohio on the 19th, and some of it is expected to reach here next week. All the materials, including bolts, spikes, etc., are now on hand, excepting the rails, for twenty-one miles. As soon as the iron arrives tracklaying will be commenced and proceed vigorously.

The Utah Western railroad is an important enterprise, and its progress will be watched with much interest.

**P. & S. L. R. R.**—The railroad officials who went East last week on business for the Pueblo & Salt Lake Railroad report everything satisfactory. Their mission has every prospect of being successfully accomplished, and in the result thereof our whole community will be greatly benefited. Pueblo, Colorado, People, Oct. 24.

**Theatre.**—This evening there is a varied programme by Wheeler's Comedy Troupe, consisting of the following—Chorus from "Ernani," by Miss Elsie De Courcy and Mr. Ben Wheeler; ballad by Miss De Courcy; Irish comic song by Ben Wheeler; Master Binnie in his great lightning changes, "Dashing Belle of the Period," "Polliceman Ninety-two," "Awwfully Clever," and other popular songs of the day, in character; "Barney's Courtship," Ben Wheeler in two characters and Miss De Courcy as "Molly Tyrrell," with songs of "Mother, He's Going Away," and "Molly Dear," negro specialties by Charles Petrie, flags of all nations, by Miss De Courcy; "Handy Andy," with Ben Wheeler as "Handy," and Master Binnie as "Young Squire Egan;" banjo solo by Charles Petrie; and the farce of "Divorce," with Ben Wheeler as "Mr. Brown," Miss De Courcy as "Mrs. Brown," and Master Binnie as "Sam."

**President Young** Gene South.—It has been the custom of President Brigham Young, for several years past, to spend the Winter months in Southern Utah, where, at that season, extremes of weather are of rare occurrence. Heretofore, with the exception of last year, he has generally left the City for that part of the Territory almost immediately after the holding of the semi-annual Conference. This health, however, recently has been of such a character as to make it advisable to him not to undertake a journey of such a great distance, and even now it is deemed better for him to make the trip by easy stages. He left Provo, by special train, at half-past twelve o'clock today, accompanied by Presidents George A. Smith and D. H. Wells, Elders Geo. Q. Cannon, B. Young, Jr., and A. Carrington, and others. President Smith will accompany President Young to St. George, and remain with him, while the others named will probably go no farther than Provo.

It is probable that President Young will stop a short time at Provo, and as soon as it is considered that his health will admit of his resuming his journey, he will do so, taking short, easy stages, and resting on the way, to St. George, as may be deemed consistent with the state of his health.
