Vice President and General Manager Schlacks of the Denver & Rlo Grande this morning gave out the first official announcement regarding the acquisi tion of the Copper Belt road by the Gould line. In course of an interview with the "News" he stated that every thing had been settled and he would

thing had been settled and he would start back to Denver this evening. "I expect the transfer to be made in a few days, judging from the present out-look," he said. In addition, Mr. Schlacks stated that there would not be any changes on the system and aside from the deal with President Bayley of the Copper Belt the present visit was of purely routine character.

Accompanying Mr. Schlacks are Traf-fic Manager A. S. Hughes, Chief Epgi-neor E. J. Yard; E. R. Murphy, gener-al auditor; Chief Surgeon O'Connor, and Mr. Clark of the Rio Granda legal department.

Property Owners Are Raising \$6,000 to Purchase a Site.

Special Correspondence,

Special Correspondence. Provo, Utah Co., Jan, 10.—Property owners on Conter street from First West to Fifth West met last evening and assessed themselves on their prop-erty on Center street at a rate suffi-clent to raise \$6,000, which will be paid for a site for the union depot at the foot of Third West street. The idea being that their business property will be in-creased in value sufficiently by the change of the location of the depot to justify this outlay. The Academy ave-nue people have not yet been heard from in a tangible way but they no doubt will be. The committee appoint-ed by the city council to visit the rail-road officials in Sait Lake City reported hat night, that It had been decided by the railroad people to build on Third West street. The story of the married life of leorge Williams, who is now in the county jail awaiting trial upon several charges of robbery and grand larceny and who attempted to escape from jall on Saturday afternoon, is rather romantle and sensational. In lust July

Williams met Miss Bernice Van Dyke, who was then only 19 years of age, and after a courtship lasting only one month, they were married by Rev. W. M. Paden on Aug. 5, 1904. The young bride little dreamed that she was mar-

REPORT ON CONSUMPTION.

Amazing Statistics From an Article in Mc-Clure's Magazine for January.

In "Tuberenlosis, The Real Race Suicide," Samuel Hopkins Adams Says That 8,000,000, Maybe 10,000,000, of the 75,000,000 People of this Country Will Die of Consumption.

Tuberculosis, writes Mr. Adams, is today the scourge of the world. It causes more deaths, more suffering and sorrow, and a greater economic loss, than any agency within the whole range of human affliction.

Of 75,000,000 living Americans, 8,000,000 at least must inevitably die from this cause; some authorities put the estimate as high as 10,000,000. These lives'

might be saved. For tuberculosis is not, as was believed a few years ago, a mysterious and inevitable fate. . . . It is the real race suicide. . . . It is the real race suicide. . . . It is the real race suicide after a state of the population at the productive age (between 15 and 45). The one serious source of infection is from man to man. It is often curable, almost invariably susceptible of alleviation and always preventable.

An infinitesimal mushroom growth, known as Koch's bacillus, causes tub-erculosis. . . . The average consumptive coughs out, it is estimated, about seven billion of the bacilli in a day and these spread the infection.

Unless the blood's army of defense kills the invaders, consumption re-sults. . . The minute destroyers are practically oblquitous, and were it not for the natural resisting power of the human organism they would depopulate the carth in a few years.

EASY TO PREVENT.

"Always preventable."—"Th. natural resisting power of the human organ-'sm." Consumption is preventable—and curable—just so long as you retain that natural resisting power. In other words, keep your lungs healthy and they will cast out the germs every hour. The point is not so much the cure of the cold, but the protection of the lungs will become sore and weak, the blood is impoverished, the circulation sluggish.

It is then that Koch's bacilli take hold and cling and bite and kill. Con-sider this horrible danger! More than half the deaths of winter begin with a more cold. Pneumonia kills even more than consumption in many cities. The cold is the distress signal of the lungs that need help.

Reason should tell you that a soothing syrup, a cough drop or a stimulant is not what you need for your cold or cough. You must work on the lungs.

When you take Dr. Acker's English Remedy, the first sensation is the soothing of the bronchial tubes.

Then, and this a few moments after taking the medicine, you notice a glow of comfortable warmth about your lungs. You feel that they are at work again, casting out the evil bacilli. There is an almost instantaneous comfort after taking Dr. Acker's Remedy. It goes straight to the lungs and does its work.

Cure your cold or cough, But Cure Your Lungs at the Same Time. Syrupa and stimulants won't do this. Dr. Acker's English Remedy will do it, has been doing it for years. Doctors use it.

A PHYSICIAN WRITES.

I wish to add my professional testimony to the value of your English prepara-tion, known as Acker's English Remedy. In several instances after 1 have tried my utmost to give relief, I have prescribed your remedy, and it has acted almost like a miracle, not only relieving, but permanently curing every one of the patients. I endorse the above preparation as one of the most valuable additions to the prac-tice of medicine.—C. F. Smith, M. D. (The most successful physician of Olean, N. Y)

A great deal of nonsense is printed and spoken about patent medicines. An old and well known patent medicine is simply a prescription given by an experienced physician and then tested, perfected and proved by many

years' use.

Any reader of this paper sending name and address to W. H. Hooker & Co., 24 Ellicott St., Buffalo, will receive a free sample bottle of Dr. Acker's English Remedy.

HIGH CLASS DRUGGISTS

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but

always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes

all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and

best of toilet articles and preparations and many useful accessories and remedial appliances.

The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits

conferred upon their patrons and assistance to the medical profession, is usually their greatest

reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they

are selling many millions of bottles annually to the well informed purchasers of the choicest

remedies, and they always take pleasure in handing out the genuine article bearing the full

name of the Company-California Fig Syrup Co.-printed on the front of every package.

They know that in cases of colds and headaches attended by biliousness and constipation and

of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or

over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles

of the profession and whose greed gets the better of their judgment, and who do not hesitate

to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name-" Syrup of Figs"-or "Fig Syrup" and of some piratical concern,

or fictitious fig syrup company, printed on the package, but they never have the full name of the Company-California Fig Syrup Co .- printed on the front of the package. The imitations

should be rejected because they are injurious to the system. In order to sell the imitations

they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes

off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which

does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his

establishment, whether it be large or small, for if the dealer resorts to misrepresentation and

and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness.

Knowing that the great majority of druggists are reliable, we supply the immense demand

for our excellent remedy entirely through the druggists, of whom it may be purchased every-

where, in original packages only, at the regular price of fifty cents per bottle, but as exceptions

exist it is necessary to inform the public of the facts, in order that all may decline or return

any imitation which may be sold to them. If it does not bear the full name of the Company-

California Fig Syrup Co .- printed on the front of every package, do not hesitate to return the

article and to demand the return of your money, and in future go to one of the better class of

druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

FOUNTAIN PEN EXPERT. New York House Sends Her to the

The Deseret News Book Store is the center of attraction this week for all who are interested in fountain pens. The handsome show windows of the store are given up to the display of the Waterman fountain pen, showing it in its different stages of manufacture. An expert from A. A. Waterman & Co. of New York, Mrs. L. S. Hooper, is at the store and what she does not know about fountain pens would not be worth printing. She is thoroughly an expert and takes pleasure in showing people who have these indispensable articles how to fill them, how to pre-vont their leaking, and how generally to get the best results out of them. She asks people having old fountain pens to bring them in, and they can be exchanged for a new Waterman automatic self-filling or middle joint pen.
