C. H. Williams of Spokane Returns from Butte Conference With Good News.

SAYS LEAGUE IS NOT DEAD.

But that it Will be in Existence and Doing Nicely When the Season Rolls Around.

Clyde H. Williams, president of the Spokane baseball club, returned from Butte, where the baseball magnates held a conference, says the Spokane Chroni-Mr. Williams states that the Pacific National league has not gone up, reports from Butte notwithstanding.

According to the statement made by Mr. Williams, there will be either four or six cities in the league this year, and Butte and Helena will be two of the and Helena will be two of the It is still a question as to wheth-cCloskey or Wilmot will run the n Butte. I attend-ed the meeting at Butte and was present at the conference when McCloskey was dickering for the franchise. "It would be much better for McCloskey to bet hold of the Butte club, for the peo-ple want him there and he would make things go. Wilmot realizes this and says he is willing to sell out, but wants some-thing for his possessions. He states that he has money to carry the club and, un-less McCloskey does buy him out, will run the club himself."

WEAVER FOR BOISE.

"Kid" Buck is to be Playing Manager of Ball Team.

The Boise Evening Capital News pub-lishes the following: There is every reason to believe that Boise will be a member of the new Pacific National league this year with a winning team, in charge of Buck Weaver as playing manager. The home team will be backed by a popular stock company with shares at 55 each and everything placed on an eccomical business basis. That the comit's base-ball season will be profitable is assured by the fact that Williams in Spokane, McCloskey in Butte and Retilly in Salt take will be an assurance of paying crowds in the cities that last year for obvious reasons refused to support ther local teams, while the addition of two new cities will lend interest to the good reasons that made it necessary to kill the old Pacific National league that a new and stronger circuit might be degranzed, and the article is reprint-ed in our news columns toway. The Boise Evening Capital News pub-

tion that if changes are to be made in the national agreement they should pro-vide against a recurrence of the same conditions in the future as existed against Tacoma this year. It was thought that this could be done by adopting a uni-form contract with non-reserve clause or having list of non-reserve players filed before drafting period. My own judg-ment is that on account of the fact that your association was not a party to the averement at the time of its adoption, or when rules were made , and that no bulletin of your players was filed with scretary Farrell, that the draft should not be resopened against facoma club, al-bound the matter has not been definitely decided by the commission. Will sub-mit it to my colleagues at once." Salt Lake City-July 15, 17, 18 and 19, There will probably be at 2:14 pace and a 2:24 trot arranged for each meet, and in addition Deriver will shorten the time a little and will offer purses for some-thing like a 2:39 pace and a 2:39 trot. The dates, following each other closely, offer horsemen a series of events from May 22 to July 19, and without doubt some of the best horses west of Chicago will be entered, and will follow the cir-cuit ON THE RACE TRACK.

LEAGUE MEETING CALLED. officials of the Pacific National Will Next Saturday there will be doings in the local baseball world, although the seat of action will not be in Sait Lake, but in Butte.

Butte. One week from today the officials of the Pacific National league will assemble in solimn conclave, and, it is to be hoped, do things for the betterment of the national game in these parts. Directors of the Salt Lake club have worked hard to get the meeting-called at an early date for the purpose of settling the question of next season's circuit, and it is believed that that important matter will be sattled before the league meeting course to an end. Fourth race, mile and seventy yards-War Times won, Scherzo second, Cigoroso third, Time-1;5]. Hiffd, Time-1:51, Fifth race, six furlongs-Tennyburn won, Royal Red second, Phalanx third, Time-1:17, Sixth race, seven furlongs-Alice Carey won, Lady Kent second, Red Cross Nurse third, Time-1:30. end. Manager Williams of the Spokane club, and Walter Wilmot of the Butte club, asked the local magnates what date they wanted. Word was at once sent back that next Saturday would do nicely. The gen-tlemen named were of the same opinion and the four clubs will be represented. It is highly probable that at least three more towns will be represented, and that two of them will be taken into the league.

BARSTOW GOES STILL UP HIGHER,

Appointed Special Commissioner To Investigate Trade Conditions Throughout World.

TAFT TO CIVE HIM INSTRUCTIONS

On His Report Will Largely Depend the Policy of Managing the Panama Canal,

Washington, Jan. 13 .- Joseph L. Bristow, fourth assistant postmaster general, today tendered his resignation to the president, to take effect on Jan. 20.

By an executive order issued late this afternoon, President Roosevelt designated Mr. Bristow as a special commissioner to make an investigation into the present trade conditions and freight rates between the Atlantic and Pacific coasts, and between the west coast of South America and the east coasts of the United States and of Europe, to de-termine the best policy of managing the Panama canal. The announcement came at the con-

"Until his report is forthcoming, the commissioner will be allowed his ac-tual expenses and \$15 a day. The presi-dent will finally fix his entire compensation. The isthmian canal commission is directed to provide the funds needed

in the execution of this order." After the conference at the White After the conference at the White House, Senator Long said that the transfer of Mr. Bristow from the Post-office department to work in connection with the proposed isthmian canal had been under consideration for a long time.

"Secy. Taft," said the senator, "de-shred to utilize Mr. Bristow's services in connection with the work of con-structing the canal and has had the idea in mind of appointing him a com-missioner to invariant the index and missioner to investigate the trade and freight conditions ever since he re-turned from the Isthmus of Panama. The president readily acceded to Secy. Taft's suggestion and, as the work will be entirely congenial, Mr. Bristow has accepted the new position."

Accepted the new position." Mr. Bristow has had interviews with the president and Secy. Taft regard-ing the affair, but his final determina-tion was not reached until today. His decision to accept the special commis-sionership was hastened by the trans-fer yesterday of the division of post-effect interactions from the burgent of the office inspectors from the bureau of the fourth assistant postmaster-general to the direct control of the postmaster-general himself.

"In reply to your letter of recent date, will say that I am cured as sound as a dellar. I used about three of the fifty cent packages. I was going to write you, but was holding up to see if the piles would give me any further trouble. I feel no signs of the piles and believe I am cured entirely. I had taith in Py-ramid Pile Cure at the start, and stuck right to the treatment. You can refer anyone to me you like. I can soon tell what Pyramid Pile Cure has done for me. It is a well recognized that the best advertising an article can have, is that which is known as "word of mouth." this rightfully carries more weight than all the chaims which can be set forth. It follows that Mr. Kinkaid, with his wide acquinitance, will largely promote the sale and use of Pyramid Pile Cure be-cause-and, here is the vital point-he knows whereof he speaks, and not only advocates its use, but does so with en-thusiasmi thus is not to be wondered at, and in point of fact can anyone, after reading his letter, doubt that this remedy cures? But this mountain of evidence is of no avail to those who shut their eyes and doze away in doubt. For doubt is harder to overcome than disease. I cannot cure those who hack the failth for. Bo now I have made this offer. I disregard the exidence. I lay aside the fact that mixe word, that is stranger. I ask you to believe not one word that is available to one cleak has ever tried so hard to re-move every possible excuse for doubt. It is the ut most my unbounded confidence can suggest. It's open and frank and fair. It is the supreme test of my lim-tice. treatment to you as easily as I can tell you why cold freezes water and why heat melts ice. Nor do I claim a discovery. For every detail of my treatment is based on truths so fundamental that none can deny them. And every ingredient of my medicine is as old as the hills it grows on. I simply applied the truths and combined the ingredients into a remedy that is practically certain. The paragraphs below will show you the reason why. But my years of patient experiment will avail you nothing if you do not accept my offer. For facts and reason and even belief will not cure. Only the remedy can do that. Inside Nerves!

Only one woman in 98 has perfect health. Of the 97 sick ones some are bed-ridden, some are half sick, some are only dull and listless. But most of the sick-ness comes from a common cause-the motion-control your digestive apparatus-regulate your liver-operate your kidneys.

But the nerves that, unguided and un-known, night and day, keep the heart in motion-control the digestive apparatus-regulate the liver-operate the kidneys-the nerves on which all the vital func-tions depend.

These are the nerves that wear out and break down.

It does no good to treat the alling or-ran-the irregular heart-the disordered liver-the robellious stomach-the derang-de kidneys. They are not to blame. But to back to the nerves that control them. There you will find the seat of the trou-ble.

There is nothing new about this-noth-ing any physician would dispute. But it remained for Dr. Shoop to apply this knowledge-to put it to practical use. Dr. Shoop's Restorative is the result of a quarter century of endeavor along this very line. It does not dose the organ or denden the pain-but it does the organ or denden the pain-but it does go at once to the nerve-the inside nerve-the power nerve-and builds it up, and strengthens it and makes it welt.

For Stomach Troubles

The stomach is controlled by a delicate Ferve called the solar plexus. Prize figh-ters know that a blow over the stomach-a solar plexus blow-means a sure knock-out. For this nerve is ten times as sensi-tive as the pupil of your eve. Yet the solar plexus is only one of the centers of the great inside nerve-the power nerve. It is one of the master nerves. The stom-ach is its slave. Practically all stomach trouble is nerve trouble-inside nerve trouble-solar plexus the inside nerves strengthens the solar plexus-and the stomach trouble disappears. herve called the solar plexus. Prize figh-

<text><text><text><text> For Kidney Troubles The Kidneys are the blood filters. They are operated solely by the inside nerves. The branch which operates them and reg-ulates them is called the renal plexus. When the renal plexus is weak or irregu-lar, the kidneys become clogged with the very poisons they should throw off. No kidney treatment can clean them out or cure them and one stage leads into an-other until after a while the kidneys themselves begin to break down and dis-solve. There is only one way to reach kidney trouble—that is through the in-side nerves that control them, which Dr. Shoop's Restorative alone strengthens and restores.

Almost all of the troubles that are pe-

For Womanly Troubles

Your heart beats more than ten thou-sand times a day. And every heart beat is an impulse of the inside nerve branch called the car-diac piexus. The heart is a mus-cle, but it is the nerve that makes the muscle do the work. An irregular or weak heart is, almeat in every instance, the direct result of a weak or irregular nervo —Inside nerve. To cure heart tr. ubie, re-store the nerve to normal. Dr. Shoop's Restorative will restore the cardiac plexus, just as it restores the solar plexus and the renal plexus. For all are equal parts of the great inside nerve system— the power nerves—the master nerves. Shoop's Restorative

For economy's sake, keep a bottle of Dr. Shoop's Restorative always on the pantry shelf. When off days come a few doses will increase your appetite-

I have called these the inside nerves for simplicity's sake. Their usual name is the "sympathetic" nerves. Physicians call them by this name because they are so closely allied-because each is in close sympathy with the others. The result is that when one branch is allowed to be-come impaired, the others weaken. That is why one kind of sickness leads into another. That is why cases become "complicated." For this delicate nerve is the most sensitive part of the human system. The first free bottle may be enough to effect a cure-but I do not promise that. Nor do I fear a loss of possible profit if it does. For such a test will surely con-vince the cured one beyond doubt, or dis-pute, or disbelief, that every word I say is true. The offer is open to everyway

the most sensitive part of the human system. Does this not explain to you some of the uncertainties of medicine-is it not a good reason to your mind why other kinds of treatment may have failed? Don't you see that THIE is NEW in medicine? That this is NOT the mere patchwork of a stimulant-the mere soothing of a narcotle? Don't you see that it goes right to the root of the trouble and eradicates the cause? But I do not ask you to take a single statement of mine-i do not ask you to believe a word I say until you have tried my medicine in your own home at my ex-pense absolutely. Could I offer you a full dollar's worth free if there were any misrepresentation? Could I let you go to your druggists-whom you know-and pick out any bottle he has on his shelves of my medicine were it not UNI-FORMLY helpful? Could I AFFORD to do this if I were not reasonably SURE that my medicine will help you?

The offer is open to everyone, every-where. But you must write ME for the free dollar bottle order. All drugsists do not grant the test. I will then direct you to one that does. For Heart Trouble

cullar to woman are caused by weakness of the inside nerves. There is no need to of the inside herves. There is no need to doctor or dose an alling organ when it depends alone for its supply of energy on the inside nerves. Inside nerve weak-nes, if not attended to, will spread. The common name of the inside nerves is the "Sympathetic Nerve." Each center is in close sympathy with the other, and when one becomes deranged, general weakness and derangement frequently ensue. Dr. Shoop's Restorative gently tones up the inside nerves and removes the cause of weaknes, permanently and forever.
