

this line; B. C. Lee has put in the electric lighting, of which Brigham City possesses a nice little plant of its own.

The expenses are met by a general assessment on the wards of the Stake, to which the brethren and sisters are responding nobly, and it is said that certain brethren of Salt Lake and elsewhere, touched by the calamity which befell their brethren of Brigham, out of their abundance gave quite a nice sum in cash to aid in the rebuilding.

The building committee, Messrs. A. A. Jensen, James Nelson Sr. and J. R. McMasters, and all who have aided this work of restoration, deserve the praise and thanks of all the people directly interested; and the stranger when their gates will look up to the spire of their tabernacle pointing heavenwards, as indicative of the prowess and strength of the citizens of Brigham City. ALBERT JONES.

### TIDINGS FROM TINTIC.

MAMMOTH, Utah, Nov. 17th, 1896.—The Mammoth Mining company is very busy at work on the new hoist. Several carloads of machinery have already arrived and the large foundation stones came in today and will be taken up to the mine tomorrow. The company's employees at the mine and mills were paid today. Some rich bullion will be shipped from the company's treasury vaults in a few days.

Work on the Southern Eureka is being pushed ahead day and night. The shaft is now down some 225 feet, and the miners are sinking through some iron stained spar and lime. It was reported some few days ago that they had struck ore, but upon investigation the report proved to be a false one. It is hoped, however, that the Southern Eureka will shortly come to the front with some good pay ore, but as yet they cannot expect to strike ore until the shaft has reached a depth of from 700 to 1,000 feet. At this depth the Mammoth mine has taken out some of its richest ore.

The Cleveland property which lays up the gulch east of the Mammoth mine is still closed down and of late no work has been accomplished at the mine. We presume the company are waiting for the Sioux-Ajax tunnel to explore through their property, which we understand will cut through about 1,000 feet of the Cleveland.

The teamsters are still hauling ore from the dump of the North Star mine to the Sioux Consolidated mills for treatment. The ore is fairly rich and averages about four ounces in gold and sixty ounces in silver. At present the consignment from the mine to the mills is from sixty to eighty tons per day. Taking into consideration that there are over three thousand tons on the North Star dump, this will bring in quite a snug little fortune for the North Star company, when all the ore has been treated.

Manager Hatfield of the Swansea property at Silver visited the mine on Monday last and paid the employees at the mine. The property is looking in the best of shape and will continue to be a great producer for some time to come.

Work on the Pionco property has been resumed during the last week,

and the shaft is down 100 feet. This property adjoins the Four Aces claim, and we understand that the Pionco company are sanguine of striking the same ledge that the Four Aces now has. The Pionco is being developed by some mining men from Park City.

The Grey Eagle and Georgia mines at Mount Nebo are working quite a number of men, according to reports just received. The Georgia mine promises to become a great producer very shortly. They have a large vein of lead ore in sight and exposed for quite a distance. Assays of the ore give returns of over one hundred and fifty ounces in silver and fifty-two per cent lead. The company has of late been packing the ore down on burros to the foot of North canyon for shipment. Last week the company was unable to bring down much ore on account of the heavy fall of snow up North canyon. Messrs. Hyde Bros. and Mr. Murphy of Eureka are the interested parties and should the weather continue to be fine, the company will again resume the work of bringing ore from the mine down North canyon, at Mount Nebo.

Mr. Samuel Read is doing considerable development work on his claim, the Copper Head, situated at Mount Nebo. Mr. Read is uncovering some pretty good lead ore but at the present market prices it will not justify a shipment. There is more work being done at Nebo the last two months than was ever known before, and some old time mining men of Tintic declare that some day Mount Nebo will have some great mines.

The Empire Consolidated mining company are developing their mine close to Pine canyon and have some good ore in the mine which was uncovered several days ago. There are three men at work on the property and they will work all winter. The vein which has been uncovered for 22 feet assays nine ounces in silver and 56 per cent lead. The miners are busy shooting out the ore and it is safe to say the the Empire Consolidated will shortly count one more with the already numerous shippers of Utah. Rees Bros. of Mammoth are the interested parties who are working the property. It is reported that articles of incorporation will be applied for in a week or so for the purpose of forming a stock company. The company will incorporate or 100,000 shares at the par value of \$1 each. Quite a large lot of the stock has already been subscribed for, and it is supposed that this property will give employment to quite a large number of miners very shortly.

Mr. Joseph Gries of the Shoebridge Bonanza paid a visit to that property today in company with Mr. Burton the surveyor.

### THE LEGISLATURE.

The Great Campaign gives the following list of the names and addresses of members-elect to the Legislature:

#### SENATE.

John T. Osine, Salt Lake.  
Matile H. Cannon, Salt Lake.  
D. O. Rideout Jr., Draper.  
George A. Whitaker, Salt Lake.  
Benjamin A. Harbour, Salt Lake.  
Wm. G. Nebeker, Ophir.  
Joseph Morrison, Richmond.  
Aquila Nebeker, Lake Town.

L. W. Shurtliff, Ogden.  
Dan Hamer, Ogden.  
R. C. Chambers, Park City.  
A. O. Smoot, Provo.  
A. J. Evans, Lehi.  
J. V. Robinson, Fillmore.  
J. F. Alfred, Spring City.  
Isaac K. Wright, Richfield.  
E. H. Snow, St. George.  
M. E. Johnson, Huntington.

#### HOUSE.

Heber Bennion, Taylorsville.  
E. W. Wilson, Salt Lake.  
George Romney, Jr., Salt Lake.  
Joseph E. Taylor, Salt Lake.  
R. W. Sloan, Salt Lake.  
Mrs E. K. La Barthe, Salt Lake.  
S. A. Kenner, Salt Lake.  
R. B. Shepard, Salt Lake.  
James Thompson, Salt Lake.  
Daniel Mangan, Salt Lake.  
S. N. Cook, Millard.  
Jas. Kimball, Logan.  
J. C. Thoreson, Hyrum.  
Moroni Price, Ukukown.  
Daniel Cook, Garden City.  
W. H. O'Brien, Ogden.  
Jno M. Perkins, Ogden.  
Mrs. S. E. Anderson, Ogden.  
Angus McKay, Ogden.  
John Hopkins, Croyden.  
Hyrum Stewart, Kayevilla.  
Norman B. Dresser, Mercur.  
Chas. E. Callas, Coalville.  
Jno. R. Murdock, Charleston.  
W. M. Roylance, Springville.  
L. P. Lund, Pleasant Grove.  
W. O. Creer, Spanish Fork.  
Hyrum Lemmon, Payson.  
Wm. Gibson, Vernal.  
C. V. Wheeler, Silver City.  
Asron Hardy, Moroni.  
N. C. Sorensen, Gunnison.  
P. L. Overson, Huntington.  
A. P. Sorensen, Moab.  
B. H. Greenwood, Central.  
Wm. Ray, Deseret.  
W. L. H. Dotson, Minersville.  
James Forshee, Willmot.  
Hatt Maxfield, Loa.  
John Parry, Cedar City.  
James G. Duffin, Toquerville.  
V. P. Martin, Monticello.

### ARE WE LODGE-GOVERNED.

SALT LAKE CITY, Nov. 18, 1896,

I observe by the daily papers that his honor, the Mayor, is daily expected to fill the vacancies in the board of police and fire commissioners.

I am informed that the present police and fire law makes it possible to remove without cause both the chief of police and the chief of the fire department, whenever three members of the board choose to do so, and gossips are spreading the rumor that the new board will, soon after its appointment, take advantage of its prerogatives by removing the present police and fire chiefs and appointing certain friends of the municipal administration in their places. One of the retiring county officials is said to be slated for the office of chief of police, and an ex-city official for chief of the fire department.

Such a procedure, of itself, would not be very remarkable, as it is generally conceded in American politics that the "powers that be" have a right to take care of their friends. But there is something connected with this matter that is worthy the serious consideration of the people of Salt Lake
