Sunday School Anniversary Fittingly Observed.

Special Correspondence.

West Weber, Weber, County, Jan. 31. -Yesterday, January 27th, a very en-joyable time was held in the Taylor Sunday school, it being seventeen years since it was organized. It is situated in the southern part of West Weber, and is a part of that ward. The school was organized on the 27th day of January. 1884, with an enrollment of about fifteen officers and teachers and forty-five members. Yesterday it showed an enrollment of eighteen officers and teachers and 125 members.

The officers of the Sunday school acting under the suggestion of the Stake Sunday school superintendency, arranged a program consisting of class exercises, concert recitation of the Articles of Faith, short speeches by the Bishop and other leading men of the ward.

Supt. T. B. Evans and D. O. Evans, one of the members of the board, were present and gave much valuable in-

cal condition, having had no nourishment for fifteen days. His son, Andrew, is also seriously ill, being afflicted with neuralgia of the heart: and an additional calamity has just befullen them in the sudden death of their

daughter Hettle, a very worthy young lady, aged twenty years; she had suf-fered for some time with rheumatic which raged with such intensity lever. that heart failure ensued, cutting short a bright and promising existence. She was a faithful and efficient worker in the Sabbath school primary class, and honored member of the Y. L. M. I

Special Correspondence.

Escalante, Garfield Co., Jan. 28 .--- W are having a very peculiar winter in this section, extremely cold and dry. Not more than an inch of snow has fallen as yet, the prospects for a con tinued drouth are favorable. The moving fever is beginning to agitate the minds of some of our citizens, and undoubtedly we will lose some in the spring.

A wedding took place at the home of Mr. and Mrs. Moroni Shirtz, on Wed-nesday, the 23rd inst., in which their daughter Lizzie and Wm. V. Lay took prominent parts. A host of relatives and friends gathered and a very enjoyable day was spent. A wedding party was also given in the evening It is rumored that others are going to pattern after these young people's example in the near future. Mr. I. J. Riddle has returned from an

CARRIED TOO FAR.

The Fear of Being Deceived or Humbugged Prevents Many People from Trying a Good Medicine.

Stomach troubles are so common and in most cases so obstinate to cure, that people are apt to look with suspicion on any remedy claiming to be a radical permanent cure for dyspepsia and indi-gestion. Many such people pride themselves on their acuteness in never be ing humbugged, especially in medicines

This fear of being humbugged can be carried too far, so far in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made for a remedy so reliable and universally used as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important re-spect from ordinary patent medicines for the reason that they are not a secret patent medicine; no secret is made of the ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin (govern-ment test) Golden Seal and diastase. They are not cathartic neither do they act powerfully on any particular organ, but they cure indigestion on the common sense plan of digesting the food eaten, thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success

Cathartic pills never have and never can cure indigestion and stomach troubles, because they act only on the bow-els, whereas the whole trouble is in the stomach.

Stuart's Dyspepsia Tablets taken after meals, digest the food. That is all there is to it. Food, not digested or half-digested is poison, as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles, which are often called by some other name.

They are sold by druggists every-where in the United States, Great Britain and Canada.

logs, from canyon to saw mill. Mr. Ed. Blair will put in a planer in his mill in the spring. Good lumber is \$8 per thousand.

We have had no sickness to speak of, and only one death in this part of the valley this winter. It is sur-prising to see how our little town has built up in the past two years, and still growing. Two new hotels are nearing completion.

Many new orchards will be set out in the spring, as considerable fruit was raised last year, such as berries of various kinds, and some crab apples were ripened. Of course, the choice and cream of the country has been taken, but there are still a few homes to be made yet. There are a great many sheep and stock being fed in here this winter. Feed is a valued article.

We have some fine graded schools in our district, the maximum attendance being 155 pupils. We have a great many more advantages than one would think for a new country. Our valley has one creamery, two implement stores, four general merchandise and two drug stores, three hotels and numerous school houses, meeting houses, halls, postoffices, etc., and still growing.

SMALLPOX AND VACCINATION.

Death of Miss Hettie Jensch of Heart Failure-A Sad Affliction.

Special Correspondence. Moroni, Sanpete Co., Jan. /30.—It is pleasure to write that our venerable Bishop, Brother John W. Irons, is at present much better than he was a short time ago. He seems to be recelving another lease to his length of years.

SMALLPOX AND VACCINATION.

Our four cases of so-called smallnox have been of a light type, in fact, the patients are said to have been ready for their rations right along, but what may we say of vaccination as a preventive. Each of the patients is said to have been successfully vaccinated one year ago. These are addi-tional cases in which the disease has been lighter than its supposed preventive.

A SAD BEREAVEMENT.

Our Bishop's couselor, Brother An-

The situation was presented to the health board, Salt Lake, some time ago, but no reply came till just before the meeting, which is to the effect that our schools are exempt for the present. from an order issued some time ago to the health officer of Gunnison, as we are not in his jurisdiction, and our schools, which are Centerfield, Axtell and Westview, will admit all their healthy chil-dren regardless of vaccination. The citizens are so desirous of suppressing compulsory vaccination that they ap-pointed a committee of four, namely, W. E. Bench, J. W. Edwards, J. A. Tuft and Brigham Jensen, to draw up resolutions and a heading for a petition to the State Legislature asking that a bill be passed prohibiting compulsory vaccination. The meeting then adjourned to convene the next night, to attach signatures to the petition.

Interesting News Notes from Our Northern Neighbors.

Gray's Lake, Bingham Co., Idaho, Jan. 28 .- Our winter is about half gone and we are looking and longing for beautiful spring, although we would like a little more snow, as we have not much more than a foot on the level. We have had considerable wind this winter so that our snow has been piled up more than it was last winter by this

VICTOR, IDAHO.

Growth and Development of the Teton Country.

Special Correspondence.

Victor, Bingham Co., Idaho, Jan, 23-Victor is one of the leading towns and settlements of the Teton Valley; it is situated in the south end of the Basin on what is called Trail Creek. This creek is a large, beautiful stream, with many canais and ditches running therefrom

We have now about fifteen inches of mow on the level, and canyons are well filled, so that the farmers feel satisfied of an abundance of water the com-ing spring. We have had a beautiful winter so far, lovely slei, hing. Men. are making two trips a day with saw Cardston, Canada, Jan. 25.—The health of the people in our growing communi-ty continues good. Weather conditions all that could be desired. Cattle are doing well on the range, and our peo-ple are dillgently at work getting out timber for the summer's work.

It is evident from the numbers of visitors we are having of late, we are apt to have an increase of population from Utah and Idaho, to exceed any previous year.

We are pleased to notice, too, that some of our monied men from our old home States are getting interested to the extent of looking out a good location for profitable investment. The ast to leave us after a brief but careful investigation of the advantages of-fered for settlers and investors were John Greaves and Thos. Jolley, both old-time friends from Preston. A hearty welcome is extended to all such and those, too, who are bonafide set-tlers with plenty of muscle and good will, with plenty of rustle.
